

# **CONTRACTS**

## **CONTRACT EXPIRY - CLOSE CONTRACT**

For expired contracts that remain active, you have the ability to buy back serial numbers that have been selected, if the selected items are customer assets.

#### **Buy Back Requests**

If there are serial numbers to buy back then the Buy Back Request maintain screen will be displayed for you to edit and save the details as needed. At that point the contract status will change to *End of Contract* and will be pending closure approval.

If there are Buy Back Requests created, they will be pending approval for processing the Buy Backs. If the closure request is cancelled then the buy-back requests will also be cancelled. The acceptance of the buy-backs will be contingent upon the closure request being approved.

#### Internal Asset Return Requests

For the closure of a contract where an internal asset is selected, the contract status will change to *End of Contract* and a work order will be created to process the return upon approval of the closure request.

#### Ribbon Select Contract > Contract Expiry

The *Contract Expiry Management* screen will be displayed.

Select the Site

Your employee user record should be linked to a default site. In this case, the site will auto populate with this default, otherwise the site must be manually selected.

Another site can be selected, if required, and if you have the security rights to access the site.

If *All Sites* displays here, then you do not have a default site configured on your user record, and need to select the required site.

Upon opening, this screen will default to the *Expired* status, listing all the serial numbers on contracts that have expired, indicating the state of the serial number. The expiry date is based on the contract start date + contract period.

You can view all contracts, regardless of expiry date, by selecting the **All** status.

### **CLOSE CONTRACT**

#### Select the Site

Your employee user record should be linked to a default site. In this case, the site will auto populate with this default, otherwise the site must be manually selected.

Another site can be selected, if required, and if you have the security rights to access the site.

If *All Sites* displays here, then you do not have a default site configured on your user record, and need to select the required site.

The Expiry Status filter is set to **Expired** by default. This filter can be changed to view **All** contracts.
