

MAINTENANCE

TASKS - DIGITAL DOCUMENTS

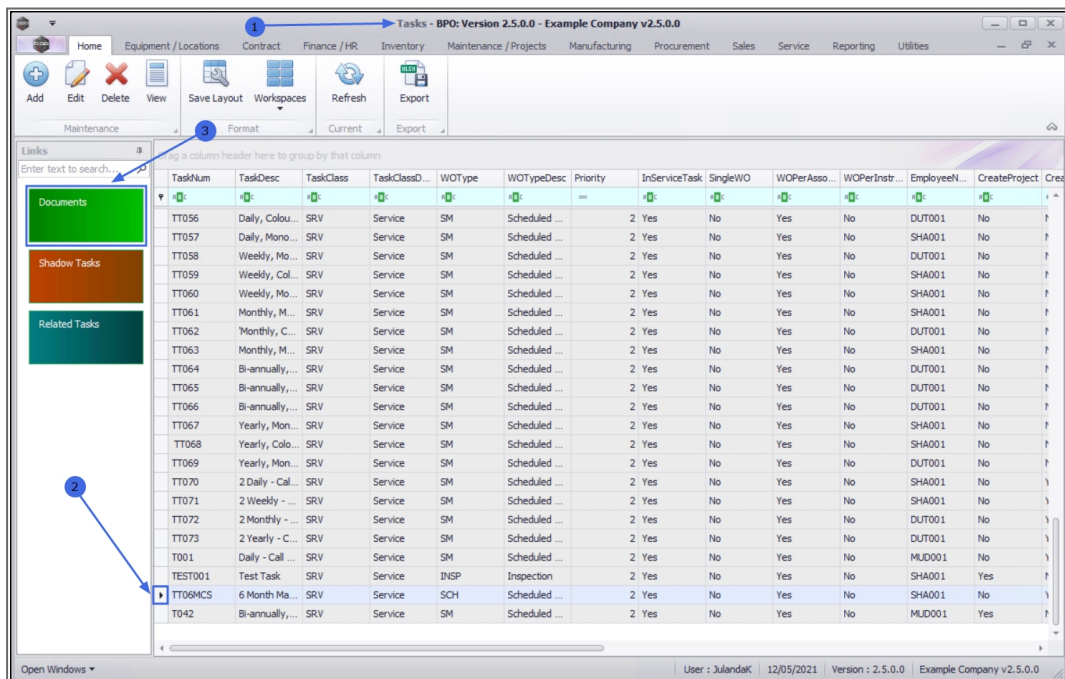

Documents can be scanned in and then linked to a task instruction.

Remember that these documents need to be saved on the server in a shared folder.

Ribbon Access: *Maintenance / Projects > Tasks*

1. The **Tasks** list screen will be displayed.
2. Click on the **row** of the task you wish to link a digital document to.
3. Click on the **Documents** tile.

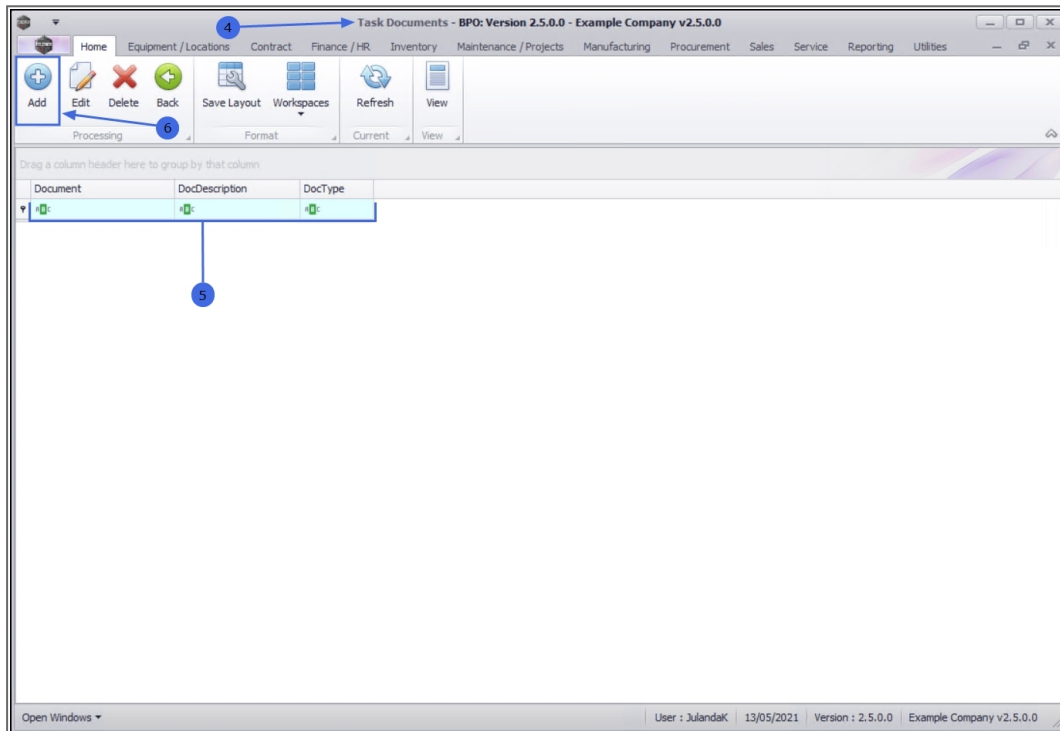

4. The **Task Documents** list screen will be displayed.
5. From this screen you can view a list of the documents (if any) that are linked to this task.

ADD DIGITAL DOCUMENT

6. Click on **Add**.

Short cut key: **Right click** to display the **All groups** menu list. Click on **Add**.

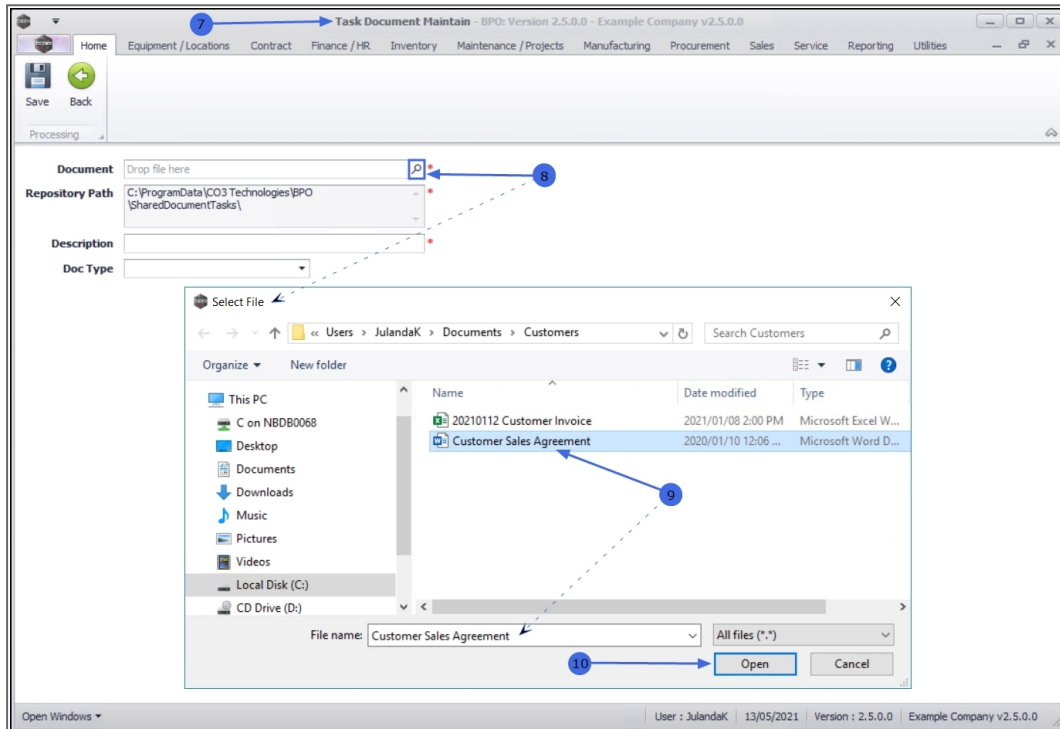

7. The **Task Document Maintain** screen will be displayed.
8. Click on the **search** button in the **Document** text box to display the **Select File** screen.

9. **Search** for and **select** the document that you wish to link to this task.

Important to remember that the document needs to be saved on the server in a shared folder to enable all users with the relevant security rights to view the document. If saved and linked from the workstation, another workstation cannot view the document.

10. Click on **Open**.

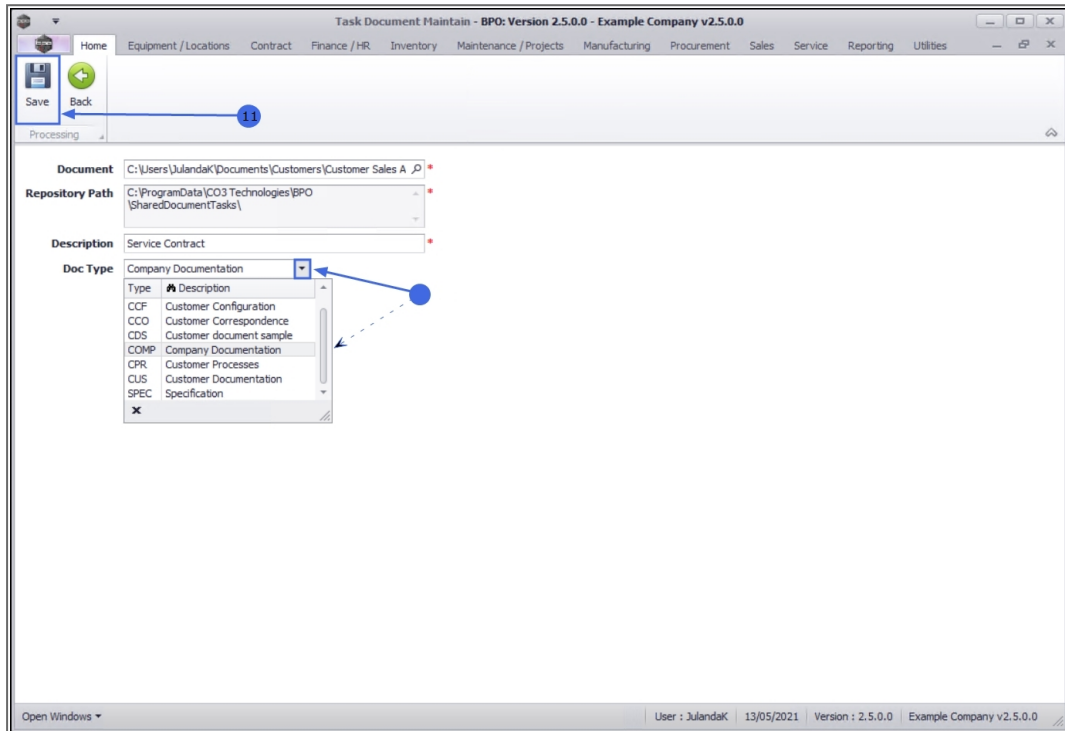

DOCUMENT LOCATION DETAILS

- **Document:** This field will populate with the document selected.
- **Repository Path:** This field will populate with to the repository path set up in the Configurator.
- **Description:** Click in the field to type in a description for the document e.g Service Agreement.

- **Doc Type:** Click on the down **arrow** to select the document type from the list.

SAVE THE DOCUMENT LINK

11. When you have finished adding the task document, click on **Save**.

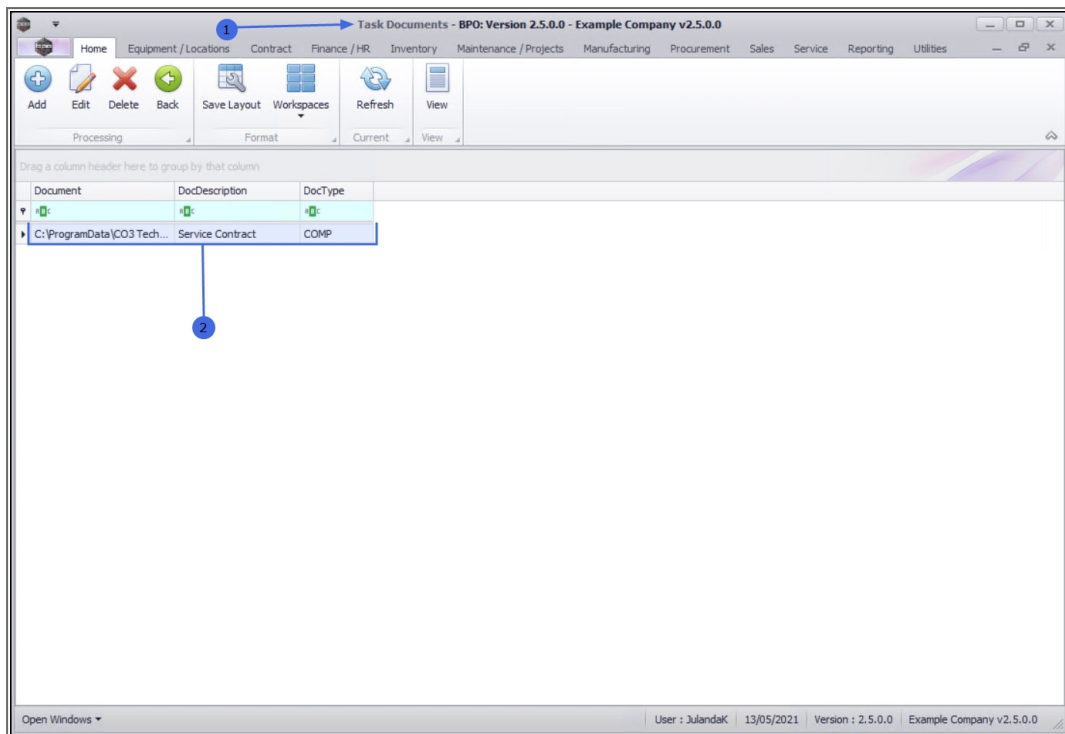

12. You will return to the **Task Documents** list screen.

13. The newly added document details can now be viewed on the task documents screen.

Note that the linked documents can be printed with the work order when the task is generated.

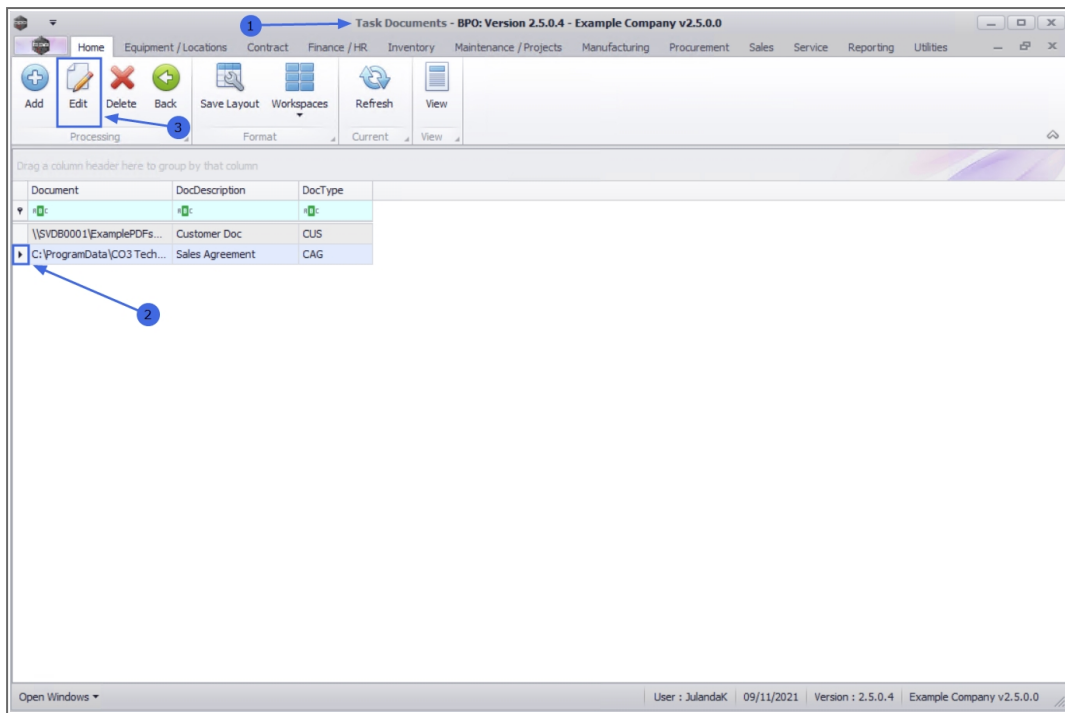

EDIT A LINKED DOCUMENT

The edit feature allows you to make changes only to the *File Description* and to select an alternative *Document Type* for the linked document.

1. From the **Tasks Documents** listing screen,
2. Click on the **row** of the Document you wish to edit.
3. Click on **Edit**.

Short cut key: **Right click** to display the **All groups** menu list. Click on **Edit**.

4. The **Tasks Document Maintain** screen will be displayed.

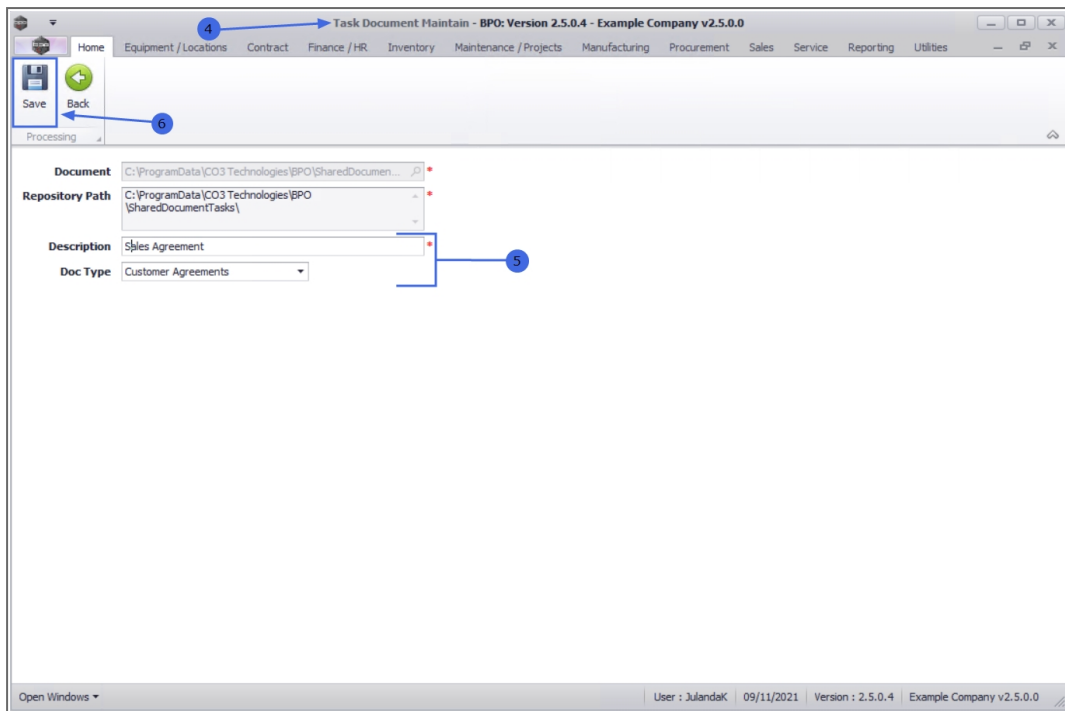

Note that the fields for **File**, **File Path** and **Repository Path** have been greyed out indicating that they cannot be changed.

5. Make the required changes to the **File Description** or select a different **Document Type** from the list.

SAVE THE CHANGES

6. Click on **Save** to save the changes or
 - Click on **Back** to return to the Document listing screen without saving any changes.

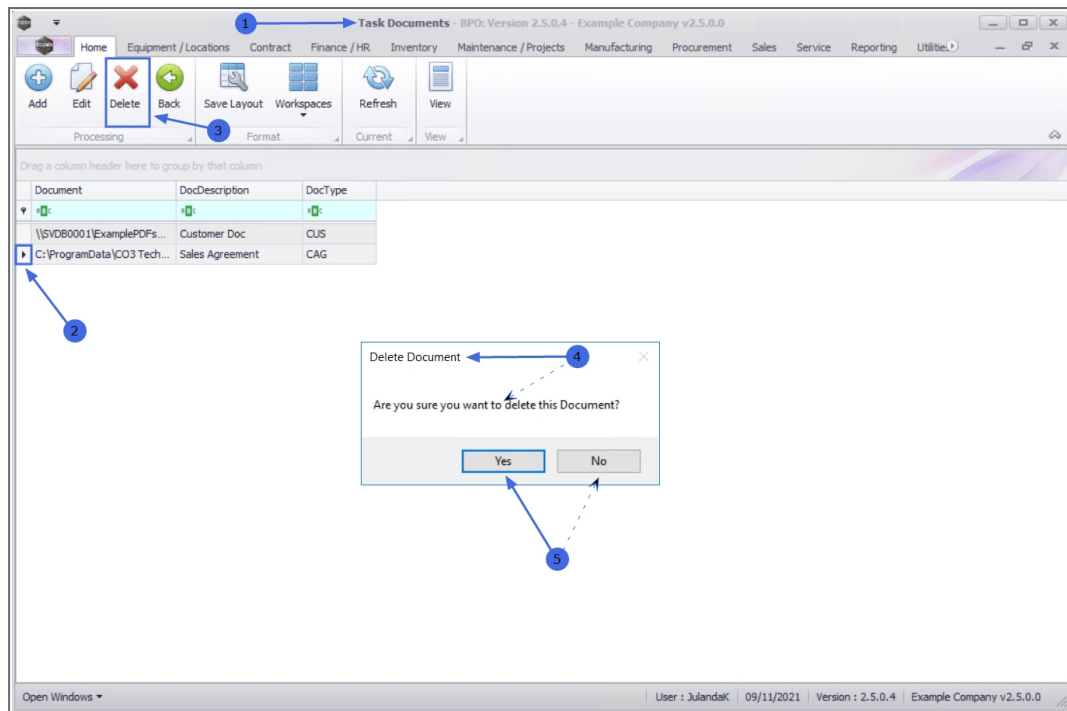

DELETE/REMOVE A LINKED FILE

1. From the **Tasks Documents** listing screen,
2. Click in the **row** of the document you wish to delete from the instruction.
3. Click on **Delete**.

Short cut key: **Right click** to display the **All groups** menu list. Click on **Delete**.

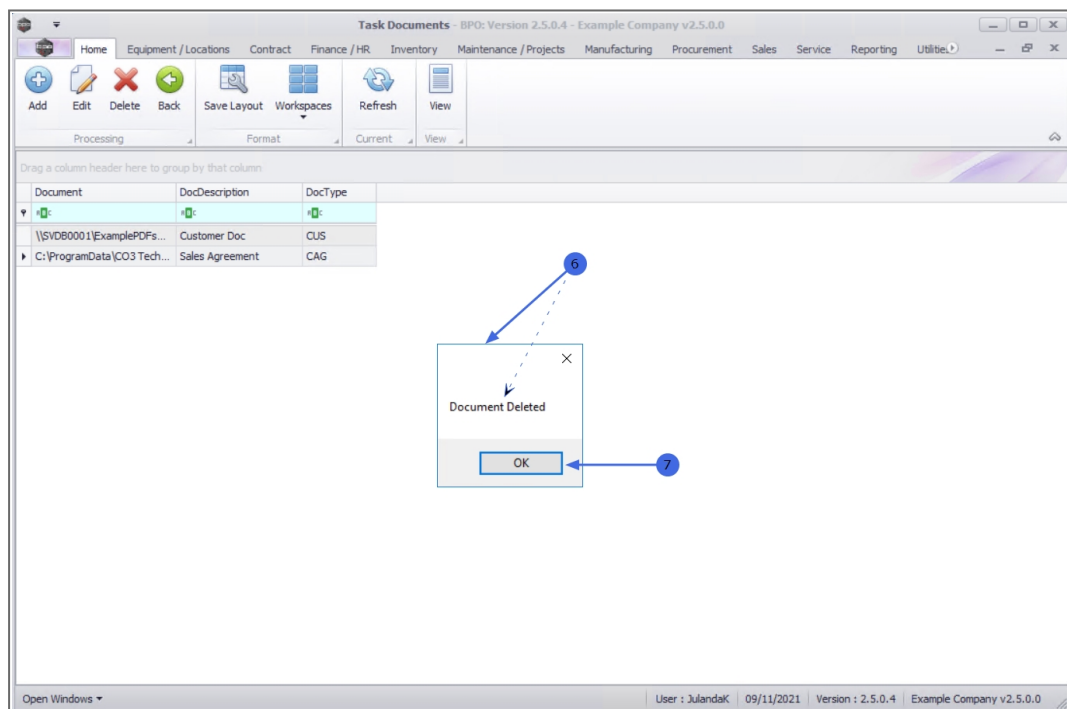

4. When you receive the **Delete Document** message to confirm;
 - **Are you sure you want to delete this Document?**
5. Click on **Yes** if you are certain about your selection, or
 - Click on **No** to ignore the request and to leave the document on the Instruction Documents screen.

6. When you receive the message to confirm;

- ***Document Deleted.***

7. Click on ***OK.***

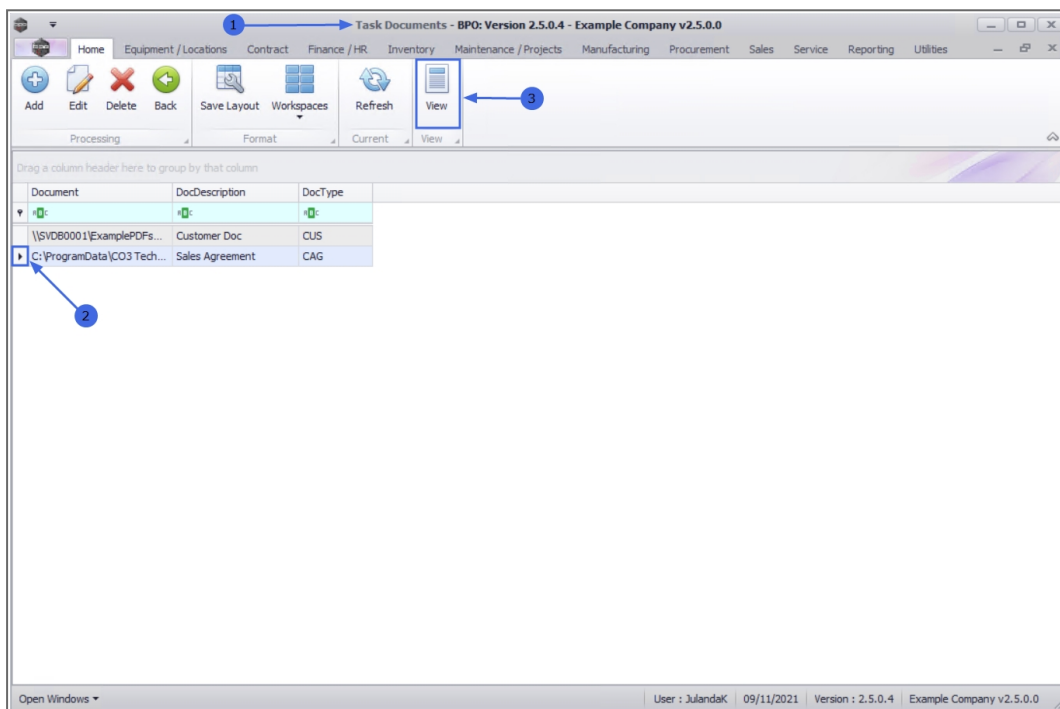

VIEW A LINKED DOCUMENT

The View feature allows you to view and edit the content of the linked document.

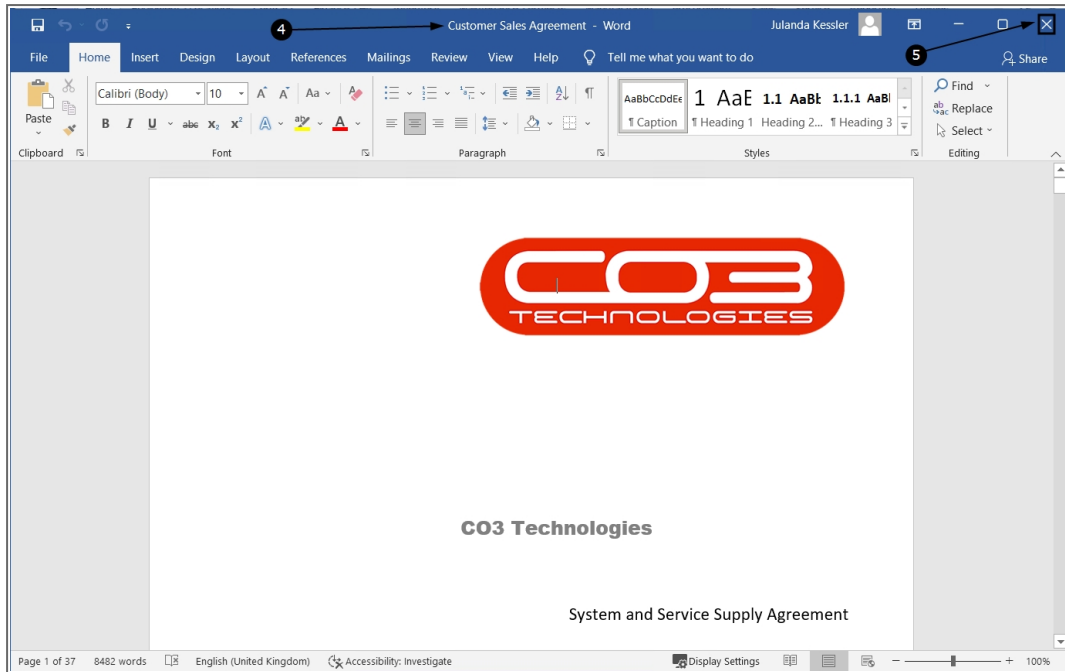

1. From the **Instruction Documents** listing screen.
2. Click in the **row** of the document you wish to view.
3. Click on **View**.

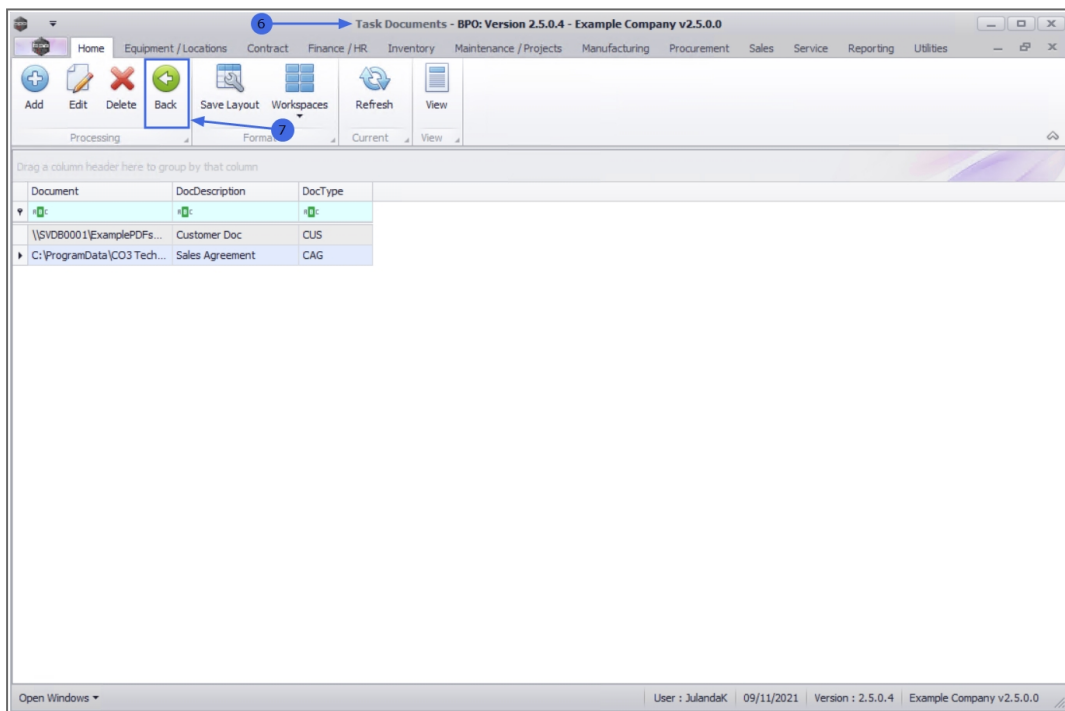

Short cut key: **Right click** to display the **All groups** menu list. Click on **View**.

4. The document will open in the **software format** that it was created in, e.g Microsoft Word or Excel.
 - The example has a Microsoft Word document.
 - Make the necessary changes and **save** the document in Microsoft Word.
5. **Close** Word or Excel.

6. You will return to the **Instruction Documents** screen.
7. Click on **Back** to return to the Instructions listing screen.
