

PROCUREMENT

PURCHASE REQUISITIONS – CLONE REQUISITION

Purchase requisitions that originated from the [Stock Status](#) screen can now be cloned. This will enable you to effectively generate or copy purchase requisitions primarily for bulk stock replenishment orders.

Version Compatibility

- BPO2 v2.4.0.10 or later.

Ribbon Select *Procurement > Requisitions*

The *Purchase Requisition Listing* screen will be displayed.

Select the Site Your employee user record should be linked to a default site. In this case, the site will auto populate with this default, otherwise the site must be manually selected. Another site can be selected, if required, and if you have the security rights to access the site. If **All Sites** displays here, then you do not have a default site configured on your user record, and need to select the required site.

Upon opening, this screen will default to the **New** status.

- Select the **row** of the *Purchase Requisition* that you wish to process.
