

CONTRACT

EDIT ITEM METER CHARGES

A contract **item meter** can be edited when the contract is in the **Active** state.

Certain amendments made to the contract item **meter**, will trigger the contract to be moved back to the **Released** state, in order for the contract to be checked and re-**Approved**. An email will then be sent to all users who have the rights to authorise this contract.

These are the changes involved that will trigger the re-approval process:

- If the **Billing Customer** on an Item Fee or Item **Meter** is changed.

Other changes made to the meters to a contract, will **not** trigger the re-approval process.

Ribbon Select **Contract > Contracts**

The **Contract Listing** screen will be displayed.

Select the Site

Your employee user record should be linked to a default site. In this case, the site will auto populate with this default, otherwise the site must be manually selected.

Another site can be selected, if required, and if you have the security rights to access the site.

If **All Sites** displays here, then you do not have a default site configured on your user record, and need to select the required site.

Upon opening, this screen will default to the **Active** status, listing all the **Active** contracts for the selected site.
