

# INVENTORY

## PART BUILD UP

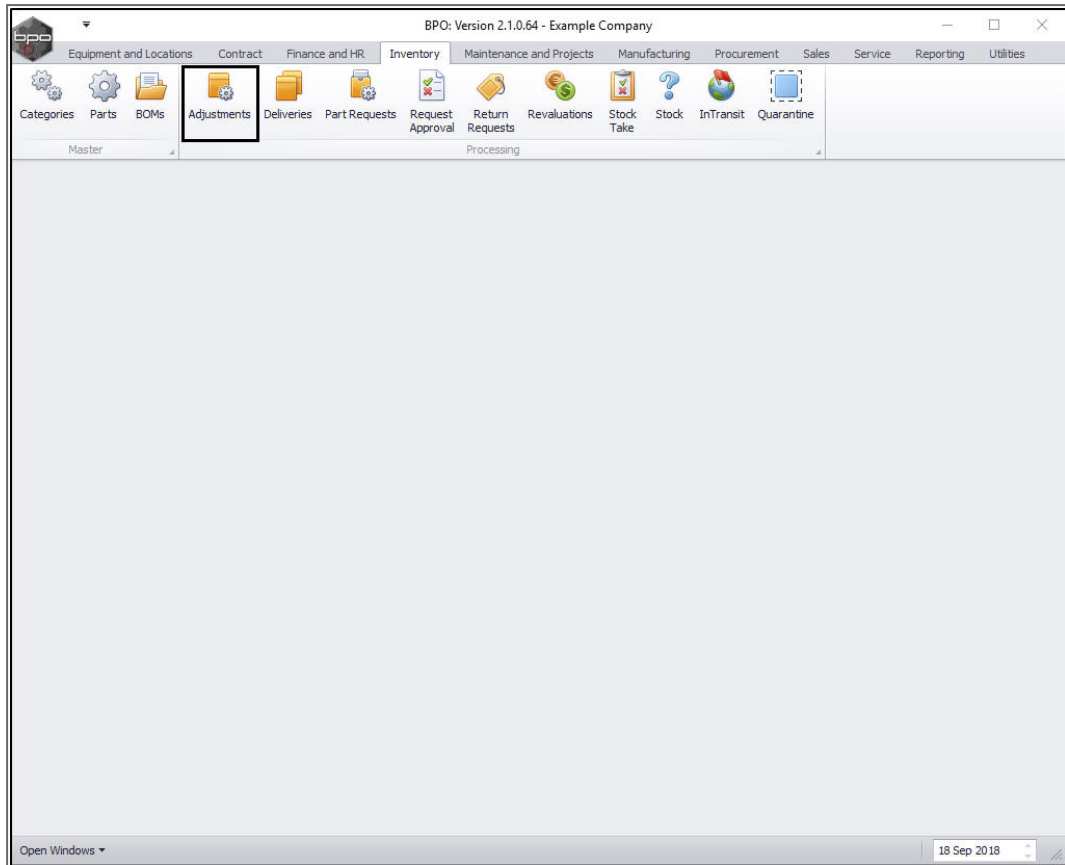

The 'Part Build Up' process will, within one transaction, adjust:

- The unit parts **out** of stock (e.g. A4 Plastic Cover, A4 Cardboard Backing, A4 Note Paper)
- The whole unit **into** stock (e.g. A4 Architects Drawing Book)
- If you are using the Stock Batch Tracking option, make sure to select the Batch Number for C-Class (non-serialised) items when adjusting stock. For more details, refer to [Inventory: Stock Batch Tracking](#).

---

**Ribbon Access:** *Inventory > Adjustments*

---

- The **Adjustment Requests** listing screen will be displayed.
- Select the **Site**.
  - In this image **Durban** has been selected.

Open Windows 18 Sep 2018

The **Add new Adjustment Request** screen will be displayed.

## NEW ADJUSTMENT REQUEST DETAILS

- **Reason Code:** Click on the drop-down arrow and select from the list, the code you wish to link to this request.
- **Requestor:** This will auto populate with the person currently logged on to the system. You can click on the drop-down arrow and select from the list, an alternative person if required.
- **Contra Account:** Click on the search icon and select from the *Select a contra account for this adjustment*

pop up screen, the account you wish to link this adjustment to.

- **Request Date and Time:** This will auto populate with the current date and time.
  - **Date:** You can either type in or click on the drop-down arrow and use the calendar function to select the date.
  - **Time:** You can either type in or use the directional arrows to select the time.
- **Comments:** Type in a comment related to this part knock down, if required.

Open Windows 18 Sep 2018

- **Part Code:** This will now populate with the selected item's part *code*.
- **Part Description:** This will now populate with the selected item's part *description*.
- **Part Type:** This will now populate with the selected item's part *type*.
- **Warehouse Name:** If the item selected is linked to a **default warehouse** then the Warehouse Name field will auto-populate with that warehouse name. (This can be changed.) If the item is not linked to a default warehouse then you can select one.
- **Bin Location Name:** If the item selected is linked to a **default bin** location in the default warehouse, then this

field will now auto-populate with that bin location name. (This can be changed.) If the item is not linked to a default bin then you can select one.

- **Batch Serial No :** Once the bin location field is populated, BPO will select the item from the first batch in this bin location. If this first batch is 'un-numbered' then this field will look blank (as in this image).
- **Unit Cost:**
  - With **C-Class** items, weighted average cost is calculated over multiple batches, within the same bin location, therefore the Unit Cost will populate as the ***Bin Location Name*** is selected.
  - With **A** or **B-Class** items, only once the ***serial no.*** is selected, will the Unit Cost field populate as each serial no. is priced individually.
- **Qty SOH:**
  - With **C-Class** items, this text box will populate with the current Stock on Hand quantity of the C-Class item in the selected ***Bin Location***.
  - With **A** or **B-Class** items, this field will only populate once the ***serial no*** has been selected and will always populate with **1** as only one A or B-Class item can be selected at a time.
- **Line Cost:** This will populate with the sum of the Unit Cost x Quantity. This will be a ***minus*** figure as you are adjusting this unit part ***out*** of stock.

- **Contra Acc Code:** This will populate with the **Contra Account** selected in the Adjustment Request Details frame. (You can select an alternative code, if required, for individual items).

## SELECT BIN LOCATION

- Click in the **Bin Location Name** text box to reveal an ellipsis button.
- Click on this button.

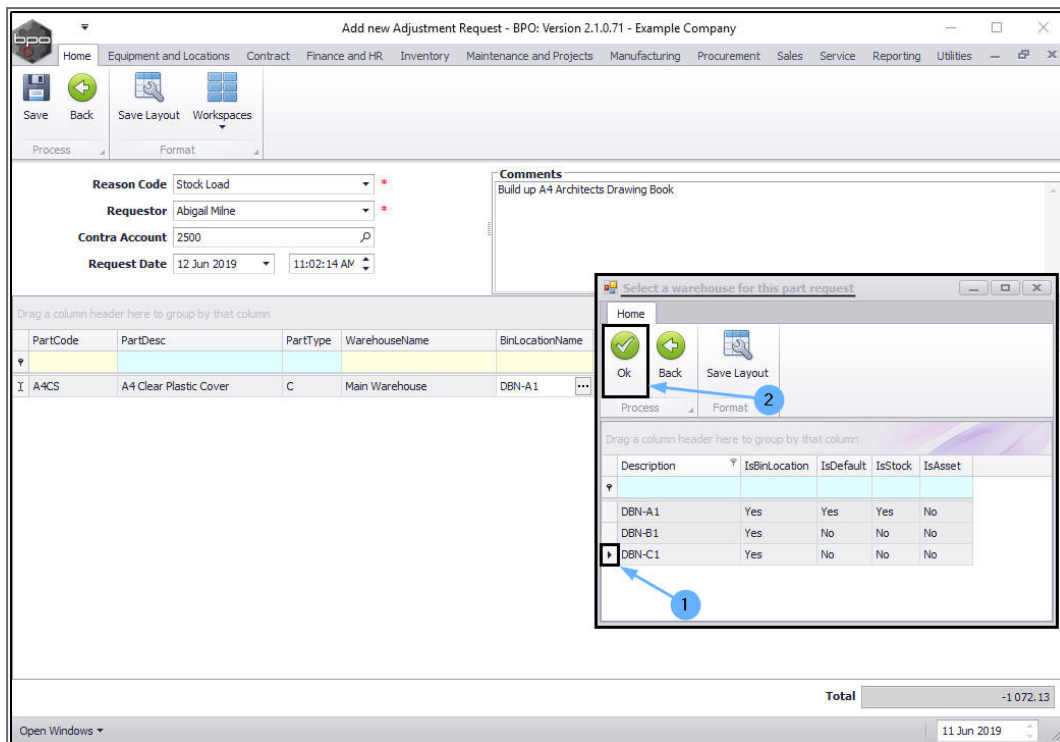

PartCode	PartDesc	PartType	WarehouseName	BinLocationName	BatchSerialNo	UnitCost	QtySOH	Quantity	LineCost	ContraAccCode
I A4CS	A4 Clear Plastic Cover	C	Main Warehouse	DBN-A1		12.38	78.00	1.00	-953.34	2500
<b>Total</b>									-953.34	

The **Select a warehouse for this part request** screen will pop up. This screen will contain details of the **bins** that you can choose from, within the previously selected warehouse.

- Click on the row selector in front of the **Description** of the alternative bin location.
  - In this image, bin location **DBN-C1** has been selected.
- Click on **Ok**.

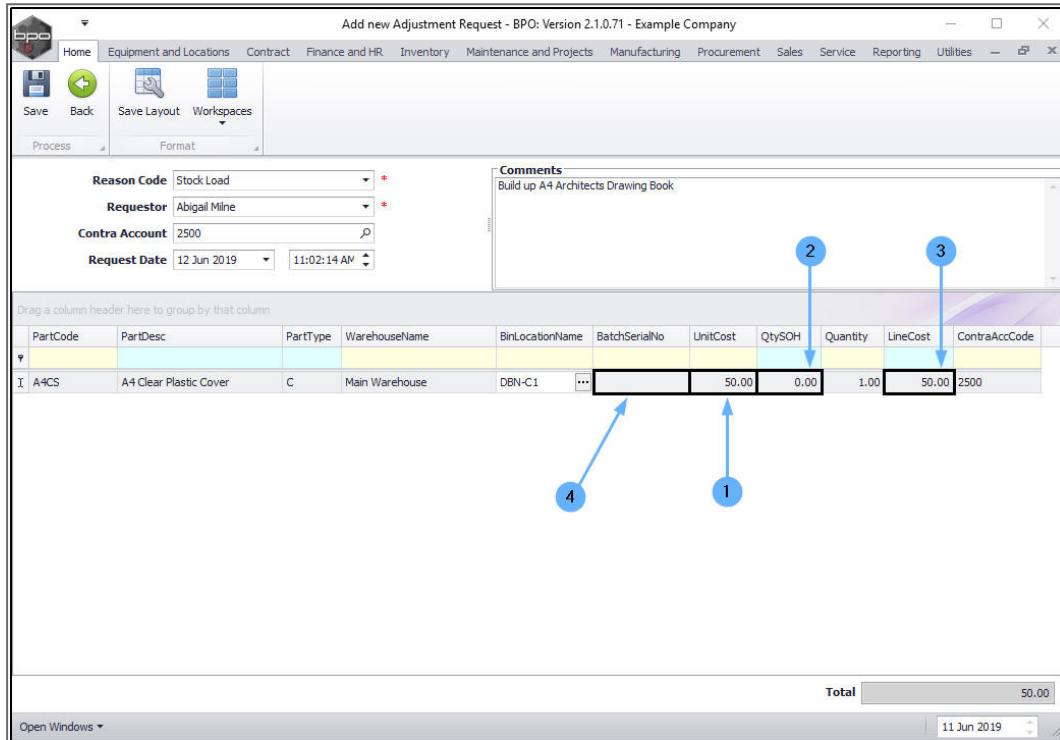

**Note:** If there is only **1** bin linked to the warehouse, as you click on the ellipsis button, the **Bin Location Name** text box will populate with that one particular bin name and the '**Select...**' screen will not pop up.

**Note:** As the **Bin Location** text box populates, you will notice the following fields will adjust:

1. **Unit Cost:** With **C-Class** items, weighted average cost is calculated over multiple batches, within the same Bin Location, therefore the **Unit Cost** will populate as the Bin Location Name is selected. With **A** or **B-Class** items, only once the serial no. is selected, will the **Unit Cost** field populate. As each serial no. is priced individually.
2. **Qty SOH:** This text box will populate with the current **Stock on Hand** quantity of the **C-Class** item in the selected Bin Location. With **A** or **B-Class** items, this field will only populate once the **serial no** has been selected and will always populate with **1** as only one A or B-Class item can be selected at a time.

3. **Line Cost:** This will populate with the sum of the Unit Cost x Quantity. This will be a *minus* figure as you are adjusting this whole unit item *out* of stock.
4. **Batch Serial No:** Once the bin location field is populated, BPO will select the item from the first batch in the system. If this first batch is un-numbered then this field will look blank (as in this image). You can select from an alternative batch.

## QUANTITIES OF ADDITIONAL ITEMS

### 1. A4 Clear plastic Cover:

- In this example, the sum is: **Quantity Stock on Hand: (5)** - the adjusted **out** quantity (1) therefore the total end **Quantity** (in stock) = (4).

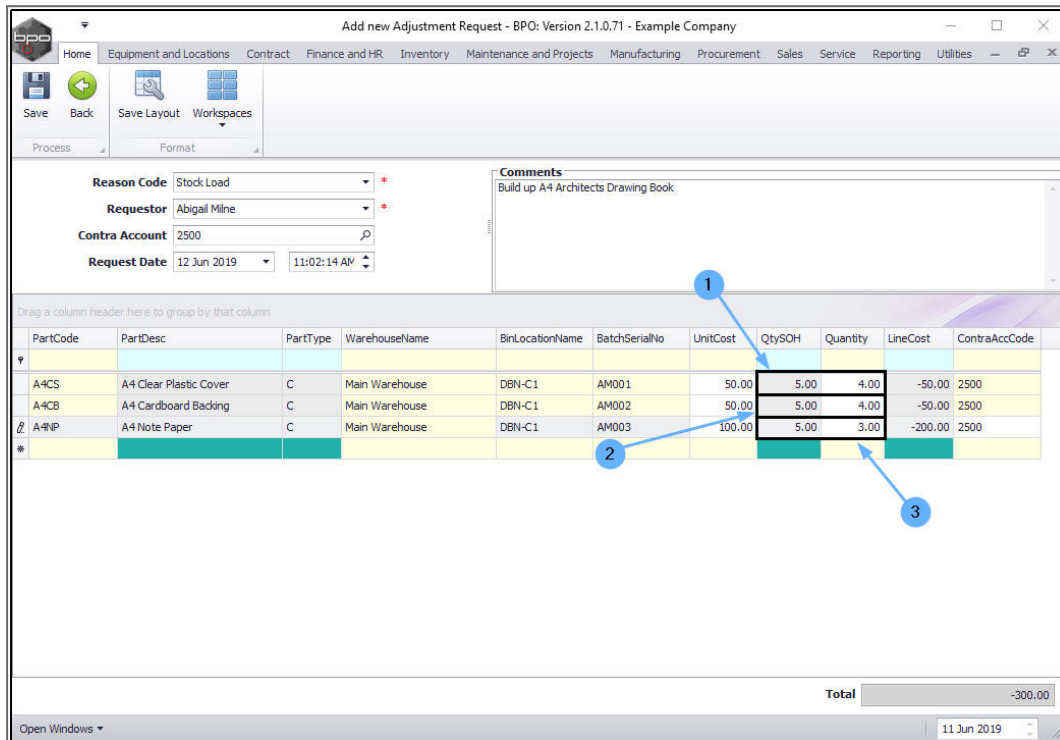

### 2. A4 Cardboard Backing:

- In this example, the sum is: **Quantity Stock on Hand: (5)** - the adjusted **out** quantity (1) therefore the total end **Quantity** (in stock) = (4).

### 3. A4 Note Paper:

- In this example, the sum is: **Quantity Stock on Hand: (5)** - the adjusted **out** quantity (2) therefore the total end **Quantity** (in stock) = (3).

- **Summary:** To build up the whole unit (the Architect's Drawing Book) the parts required are:
  - 1 x A4 Clear Plastic Cover
  - 1 x A4 Cardboard Backing
  - 2 x A4 Note Paper

Total: -300.00

Open Windows 11 Jun 2019

## WHOLE UNIT COST

- Click in the Unit Cost field and either type in or use the arrow indicators to select the unit cost of the whole unit.

**Important Note:** The **Line Cost** for the **unit parts** you are writing out of stock and the **total unit** you are writing into stock should be the counteract each other exactly.

Total: -300.00

Open Windows 11 Jun 2019

In this example, you can see;

1. The line cost for the unit parts is **(-300)** and the total unit being written into stock **(300)** will balance each other out.
2. This will result in the Total being **0.00**.
