

# SALES STUDIO CONFIGURATION

## ADD NEW 'IS MUTUALLY EXCLUSIVE GROUP' SALES PACKAGE

Sales Packages are a combination of items that can be added to a quote by adding the Sales Package as an 'item'. These packages or bundles give your customers an opportunity to choose your products and / or services grouped with their specific needs in mind. The ability to then add, remove or edit products from these packages can make the end result even more satisfying to your customer.

Checking a Sales Package as '**Is Mutually Exclusive group**' in Sales Studio, sets both the *Minimum Allowed* and *Maximum Allowed* fields to **1** with the effect that only a <u>single</u> line item in that particular Sales Package can be selected on the quote and selecting any 1 line will <u>deselect</u> other lines.

You can also link 'Is mutually exclusive group' packages to *other* Sales Packages. For example, a 'Basic Copier Sales Package' may include:

- the choice of 1 **Copier** (from a '*mutually exclusive*' group of 3 types of copier)
- the choice of 1 Drum (from a '*mutually exclusive*' group of 3 types of drum)
- the choice of 1 Black Toner (from a '*mutually exclusive*' group of 3 types of black toner)

In this instance **3** x '*Is mutually exclusive group*' packages would be set up:

- i. A Copier package (with a selection of 3 copiers types to choose from)
- ii. A **Drum** package (with a selection of 3 *drum types* to choose from)
- iii. A **Toner** package (with a selection of 3 *toner types* to choose from)

Help v2.5.1.4 - Pg 1 - Printed: 27/06/2024

**Note**: Mutually exclusive groups do <u>not</u> allow mandatory items. You are able to select <u>any 1</u> of the items from each package but <u>only</u> 1.

**Note 2**: '<u>Is mutually exclusive</u>' Packages can be added to Min / Max Allowed Sales Packages, if required. (See <u>Combination Packages</u>)

**Ribbon Access:** Sales Studio > Configuration > Sales Packages

#### **ADD NEW SALES PACKAGE**

- 1. The *Sales Packages* listing screen will open.
- 2. Here you can view a list of all the <u>current</u> Sales Packages on the system.
- 3. Click on Add.

#### THE SALES PACKAGE MAINTENANCE SCREEN

- 1. The *Sales Package Maintenance: Add a new product package* screen will open.
- 2. You will note 3 *Processing* buttons:
  - i. **Save**: When you have finished adding all the new package details, click here to save your changes.
  - ii. Save Copy: This is covered is the linked Save Copy manual.
  - iii. Cancel: Click here to cancel / remove any changes you have made in this screen. You will be *prompted* to confirm that you wish to discard the changes. Select '*Yes*' to return to the Sales Packages listing screen or '*No*' to remain in this screen to continue adding details.

#### ADD NEW SALES PACKAGE INFORMATION

In this example, we will begin by setting up the 'Is mutually exclusive group' *Copier* package

- 3. Start by adding the new Sales Package *text* information:
  - **Package Code**: Type in a code in for this new package.
  - **Description**: Type in a word description of the new package.
  - **Comments**: Type in a comment regarding this package with perhaps more information about what the package includes.
- 4. **Tax**: Click on the drop-down arrow and select from the list, the correct tax code for this package.
- 5. <u>Link an image</u> to this new package.

Note: <u>All</u> of the Package information fields (3,4 and 5)are mandatory fields[\*].

#### SELECT NEW SALES PACKAGE TYPE

- 1. Once you have entered the new package information,
- 2. Move across to the package *type* section.
- 3. Currently there are **2** package types:
  - i. Is mutually exclusive group
  - ii. Min / Max Allowed
- 4. In this example, we are setting up an '*Is mutually exclusive group*' copier package.
- You will note that prior to this selection, both the *Minimum* and *Max-imum Allowed* quantities are set to **0**.

#### **PACKAGE DETAILS**

- 1. The *Package Details* data grid will now populate with the selected part details.
- 2. The columns explanations are as follows:
  - i. **Item Type Description**: The type or group that this item belongs to e.g. Parts, Service, Warranty.
  - ii. Item Code: The unique code for this item that is used across all BPO systems.
  - iii. Line Item Description: The text description of the item. This field <u>is</u> editable.
  - iv. Item Description: The text description of this item (uneditable).
  - v. Is Mandatory: Select this check box if this item *cannot* be deselected on the quote. (Mutually exclusive groups *do not allow* mandatory items, so this field will <u>not</u> be applicable in this particular process.)
  - vi. **Is Primary**: Select this check box if this item is the *primary* item in the Sales Package.

- vii. Min Quantity: Minimum number of this item that can be selected,0 means no minimum. (see Note\*)
- viii. **Max Quantity**: Maximum number of this item that can be selected, 0 means no maximum. (see **Note**\*)

Note\*: Checking a Sales Package as '*Is mutually exclusive group*' sets both the Minimum Allowed and Maximum Allowed to **1** with the effect that only a single line item in the Sales Package can be selected on the quote and selecting any line deselects the other lines, therefore you cannot have a Min / Max level set.

- ix. **Quantity**: The default number of this item added to the quote.
- x. Item Order: The order in which this item was selected and will appear on the quote. This can be <u>edited</u> using the Up and Down arrows in the first column of the row.
- xi. **Suppress Price on Print**: Select to ensure this item will not be printed on the quote
- xii. **Suppress On Print**: Select to ensure this item <u>price</u> will not be printed on the quote

This differs from a '*Min / Max Allowed*' Sales Package where <u>more than 1</u> <u>item</u> in the package can be selected. In the next manual we are going to set up a <u>Min / Max Allowed Sales Package</u> combined with a 'mutually exclusive' package so that the comparison between the 2 different package types can be examined.

MNU.165.002
