# CONTRACT

## CONTRACTS - ADD (PRE V2.3.0.0)

In BPO2 you can create either a **service** contract or a **rental** contract.

Service Contract: Machine sold to customer outright or via a fin-

ance house.

• A New Deal Sale must be completed in order to create this contract.

**Rental Contract:** In-house rental (machine owned by company).

• New Deal Rental must be completed in order to create this contract.

**Ribbon Access:** Contract > Contracts

The Contract Info panel will expand.

- **Contract No:** The contract number is generated by the system (where configured in the Contract Type set up).
- **Contract Type:** Click on the drop-down arrow and select the Contract Type e.g., Prepaid Contract.
- **Start Date:** This will auto populate with the current date but you can click on the drop-down arrow and use the calendar function to select an alternative date.
- End Date: This will auto populate 5 years from the start date but you can click on the drop-down arrow and use the calendar function to select an alternative end date if required.
- **Period:** Either type in or use the arrow indicators to select the period of the contract (life span of the contract).
- **Period Type:** Select the period type (measure relating to the lifespan), e.g., 60 <u>months</u>.
- **Department:** Click on the drop-down arrow and select the department.
- **Contract Manager:** Click on the drop-down arrow and select the contract manager.
- **Salesman:** Click on the drop-down arrow and select the salesman.
- Aggregate Billing: Click on this check box if the customer will receive aggregate billing.
- **Hide Fee Detail:** Select this option if you don't want to show individual contract invoice fee amounts.
  - Note: If this is an evergreen contract, set your end date to 31/12/2999

Customer Info	Contract Info Billing Info									

The **Billing Info panel** will be expanded.

- Note: Some of these details will auto populate but they can be changed as explained below.
- **Billing Cycle:** Click on the drop-down arrow and select the billing cycle (billing frequency, e.g., monthly).
- **Billing Period:** This is the financial period in which billing will first begin. Type in or use the arrow indicators to select the period number (e.g., January = 11).
- **Billing Day:** Type in the day that the customer will be billed (e.g., on the 25th of each billing cycle).

#### NOTE ON BILLING DAY

- The Billing Day can be used if you are billing different contracts on different days or can be used as a filter in the Contract Billing screen. The Billing Day is limited to 31. You can type in the day that the customer will be billed (e.g., on the 25th of each billing cycle) else leave as 0.
- **Escalation Type:** Search for and Select an escalation type (usually percentage is used).
- **Escalation Amount:** Type in the escalation amount, depending on the escalation type selected (e.g., 10 if the escalation should be 10%).
- **Escalation Period:** Type in the financial month at which the system should escalate the contract.
  - Note: If this escalates on the anniversary of the contract, then use the same financial period as the billing period
- **Currency:** The system will auto populate with the currency already set up on the customer but you can click on the drop-down arrow and select an alternative currency if required.

- Note: For foreign currency contracts, all fee and meters charges must be set up in the currency selected e.g., type in the Dollar amount if the currency is USD.
- **Exchange:** Type in the exchange rate.
- Tax Rate: Type in the tax rate.

## **ITEM FEES FRAME**

The Item Fees frame displays Contract Item Fees that have been set up.

### Add Item Fee

- Marked: Click on the check box in this column in front of the Fee Type and Fee Description to be charged
  - In this image **N** Insurance has been selected as an example.
- **Charge Amount:** Type in or use the arrow indicators to select the fee amount.
- Account Code: This will auto populate with the account code linked to this fee item.
- **COS Account Code:** Type in the cost of sale account code where this fee should be posted to.
- **Invoice Description:** Type in the description to be used for this fee on the invoice.
- **Start Date and End Date:** These will auto populate according to the contract start date and end date selected in the Contract Info panel. You can click on the drop-down arrow and use the calendar function to select an alternative start and end date if required.
  - Note: Take note that the contract fee will only bill from the <u>start</u> date, and will stop billing at the <u>end</u> date.
- **Period & Period Type:** These fields will auto populate according to the contract start and end date recorded in the Contract Info panel. You can click on the text boxes and either type in or use the drop-down arrows to select an alternative period and period type if required.

- **Billing Cycle:** This will auto populate according to the contract billing cycle recorded in the Billing Info panel. You can click on the text boxes and either type in or use the drop-down arrow to select an alternative billing cycle if required.
- **Billing Period:** This will auto populate according to the contract billing period recorded in the Billing Info panel. You can click on the text boxes and either type in or use the drop-down arrow to select an alternative billing period if required.
- Escalation Period: This will auto populate according to the escalation period recorded in the Billing Info panel. You can click on the text boxes and either type in or use the drop-down arrow to select an alternative escalation period if required.

• The Item Meters frame displays all linked meters, minimum billing and meter usage charges.

Read this Important Note on Min Billing and Meter Charge Setup

- If you are not going to bill meters then this is fine. If you are complete the contract set up (you can link the meters afterwards) then follow these 2 steps:
  - 1. Assign the meter to the machine
  - 2. Add the meter charges to the contract

- **Marked:** Click on the check box in front of the name of the first Meter to be billed on this contract.
  - In this image the **Mono** meter has been selected as an example.
- **Start Reading:** Type in the start reading of the meter.
- **Reading Date:** Click in this text box to display the calendar function, use this to select the reading date.
- **Min Billing:** Type in the minimum billing amount (in Rand value).
- **Min Quantity:** Type in the minimum quantity (the copies that are included in the minimum billing amount).
- Account Code: Type in the sales account code for these meter charges to post to.
- **COS Account Code:** Type in the cost of sale account code where this fee should be posted to.

#### Add Meter Levels

#### Read this Important Note on Min Billing and Meter Charge Setup

- Scroll left to return to the Marked column.
- **Right click** in the **row** of the **item** you wish to **add** a **meter level** to.
  - In this image the **Mono** meter has been selected.
- A **Process** menu will pop up.
- Click on **Add** Add a level.

•				Edit Charge	level								
				Delete the	charge .								
			1										

• The Meter Charges frame will be expanded.

- Note: For this mono meter, there is already a minimum billing set up of a R250 charge for the first 1000 copies. BPO calculates the usage charges by first calculating the minimum billing set up. This means the first line in the Meter Charges matrix looks incorrect as the From Quantity is static at 0 but it is actually reading from the minimum billing set up. In this example it will read the meter from 1001.
- From Quantity: This is the number from which this charge will be effective.
  - As the first (minimum billing level) is up to and including 1000, this level will start counting from 1001.
- **Finance Amount:** This will only be populated if backto-back finance is used, and the finance house is financing part of the meter charge.
- Unit Charge: Type in the unit charge for the meter (charge per copy when Minimum Quantity is exceeded).

- A **second level** has now been added to the Meter Charges matrix.
  - From Quantity: Type in or use the arrow indicators to select the number of copies from which this charge will be effective.
  - **Finance Amount:** This will only be populated if backto-back finance is used, and the finance house is financing part of the meter charge.
  - Unit Charge: Type in the unit charge for the meter (charge per copy).
    - Repeat this process to add more meter charges as required.

## Add Item Inclusions

- **Right click** anywhere in a **row** of the **Item Inclusions** frame.
- A **Process** menu will pop up with the following options:
  - Part: Add Part Inclusion
  - BOM: Add BOM Inclusion
  - Craft: Add Craft Inclusion
  - Service: Add Service Inclusion
  - Delete: Delete Inclusion

#### **Add Part Inclusion**

• Click on **Part** - Add Part Inclusion (individual part issued to a call that will not be billed).

- An Input Validation message box will pop up asking;
  - Are you sure you want to add a part inclusion to this
    - item [ ]?
- Click on Yes.
