SERVICE

CALLS - RELEASE A CALL

Note that there are changes to the Call Centre screens due to the Call Centre Performance Enhancements rolled out in part of the Extended Call Centre - Version Compatibility¹. The functionality that is available to you may differ depending on the Call Centre mode configured and your user rights. For more information related to this, refer to the Call Centre Mode notes.

When work can commence for a call that has been on hold or pending, it can be released. The call will move back to the **New** status where it can be reassigned.

When the call is re-assigned, a new work order should be created.

Ribbon Select Service > Calls

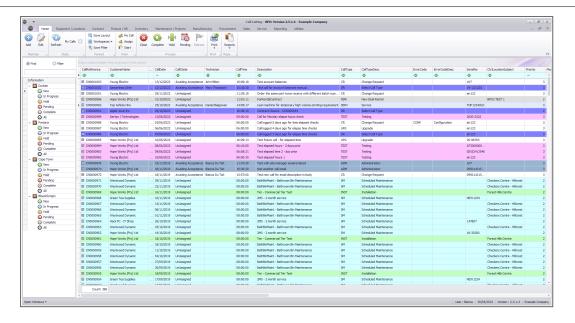

• The Call Listing screen will be displayed.

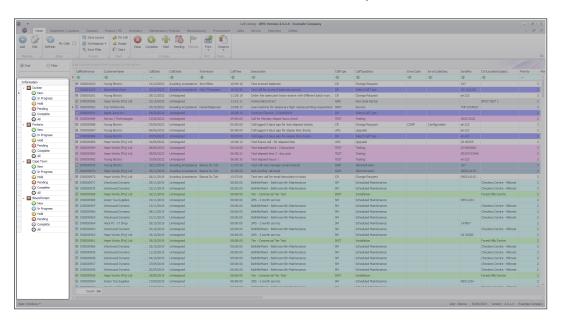

¹BPO2 v2.5.1.3 or higher

Calls - Release a Call

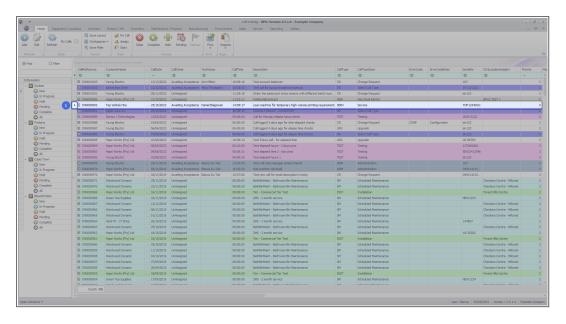

- The Calls are listed by **Site** and will display calls for the first Site listed.
- Click on the relevant **Site** for the calls you wish to view.

Note that call must be in either the Hold or Pending status to be released back to New.

• Select the Call you wish to work with.

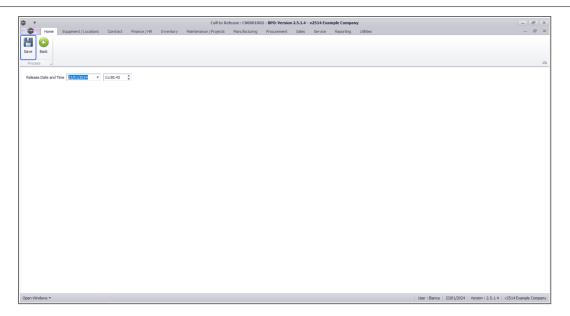

• Click on the Release button.

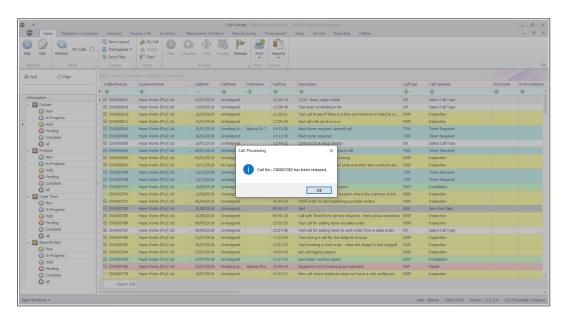

- The Call to Release: [call ref. number] screen will be displayed.
- Release Date and Time: This field will display the current date and time.
 - Date: Type in or click on the down arrow to use the calendar function to select an alternative date, if required.
 - **Time:** Type in or use the **arrow** indicators to select an **alternative time**, if required.
- When you have finished editing the date and time, click on **Save**.

Calls - Release a Call

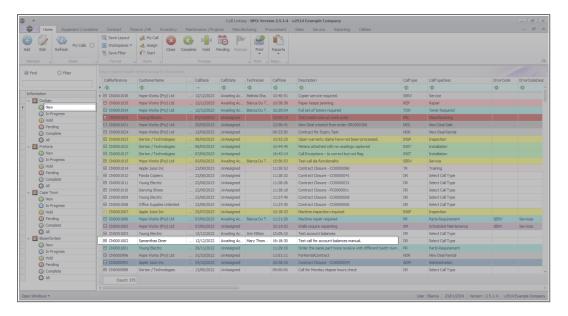

- You will return to the Call Listing screen where the status is set to New.
- When you receive the **Call Processing** message to confirm that;
 - Call No: [call ref. number] has been released.
- Click on **OK**.

 You will no longer be able to view the call in the Status you have released it from.

• Change the **Status** to **New**, to view the Call and to re-assign.
