

# INVENTORY

## PART BUILD UP

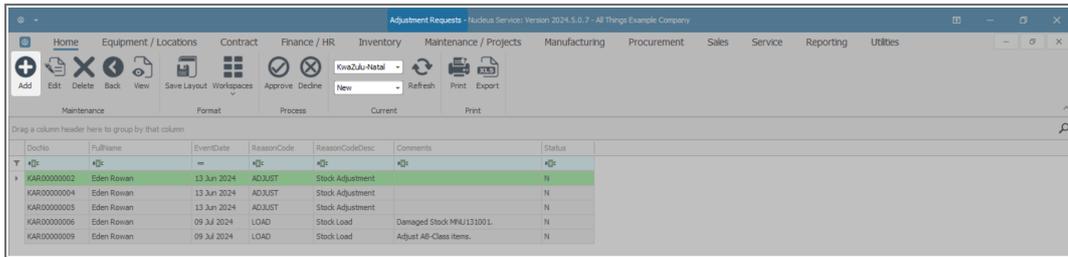

The 'Part Build Up' process will, within one transaction, adjust:

- The unit parts **out** of stock (for example, A4 Plastic Cover, A4 Cardboard Backing, A4 Note Paper).
- The whole unit **into** stock (for example, A4 Architects Drawing Book).
- If you are using the Stock Batch Tracking option, make sure to select the Batch Number for **C-Class** (non-serialised) items when adjusting stock. For more details, refer to [Inventory: Stock Batch Tracking](#).

### Ribbon Select **Inventory > Adjustments**

- The **Adjustment Requests** listing screen will be displayed.
- Select the **Site**.
  - In this image **KwaZulu-Natal** has been selected.
- The **State** filter will default to '**New**' upon opening, this does not need to be changed in order to continue with this process.
- Click on **Add**.

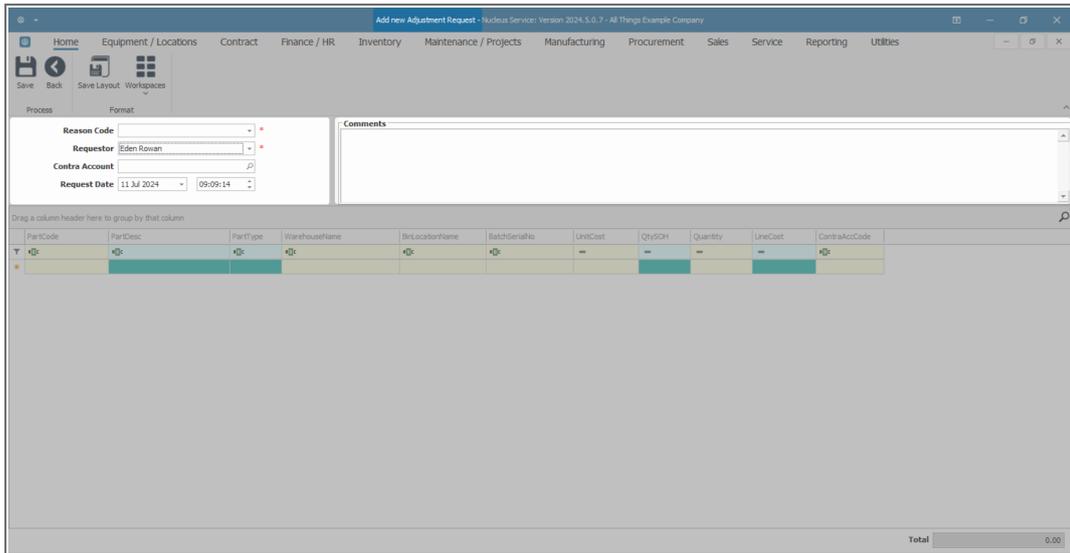

DocNo	FullName	EventDate	ReasonCode	ReasonCodeDesc	Comments	Status
KAR00000002	Eden Rowan	13 Jun 2024	ADJUST	Stock Adjustment		N
KAR00000004	Eden Rowan	13 Jun 2024	ADJUST	Stock Adjustment		N
KAR00000005	Eden Rowan	13 Jun 2024	ADJUST	Stock Adjustment		N
KAR00000006	Eden Rowan	09 Jul 2024	LOAD	Stock Load	Damaged Stock MNU131001.	N
KAR00000009	Eden Rowan	09 Jul 2024	LOAD	Stock Load	Adjust AB-Class Items.	N

- The **Add new Adjustment Request** screen will be displayed.

## NEW ADJUSTMENT REQUEST DETAILS

- **Reason Code:** Click on the drop-down arrow and select from the list, the code you wish to link to this request.
- **Requestor:** This will auto populate with the person currently logged on to the system. You can click on the drop-down arrow and select from the list, an alternative person if required.
- **Contra Account:** Click on the search icon and select from the **Select a contra account for this adjustment** pop up screen, the account you wish to link this adjustment to.
- **Request Date and Time:** This will auto populate with the current date and time.
  - **Date:** You can either type in or click on the drop-down arrow and use the calendar function to select the date.
  - **Time:** You can either type in or use the directional arrows to select the time.
- **Comments:** Type in a comment related to this part knock down, if required.

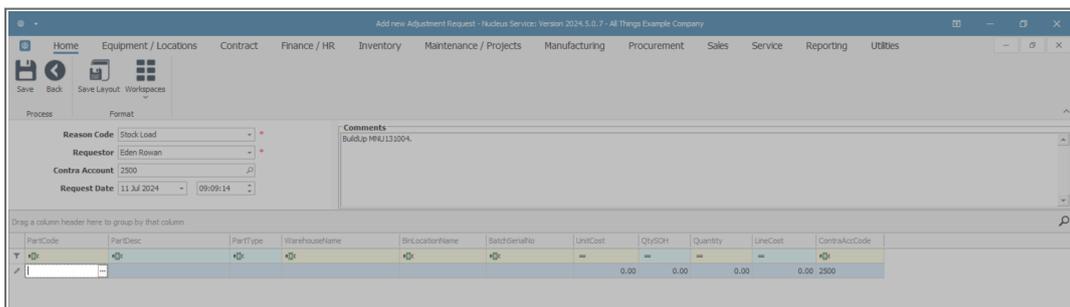

## SELECT FIRST UNIT PART TO BE ADJUSTED OUT OF STOCK

In the Parts data grid:

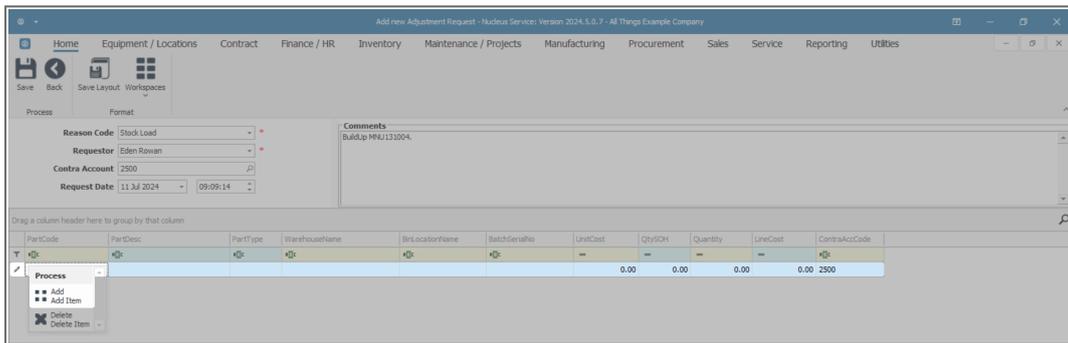

### Method 1

- Click in the **Part Code** text box. (As you click in this field, the **Contra Account Code** text box will populate with the previously selected **Contra Account Code** made in the Adjustment Request Details frame. (This can be changed per item line).
- An **Ellipsis** button will be revealed.
- Click on this button to display the **Select a part** pop-up screen.

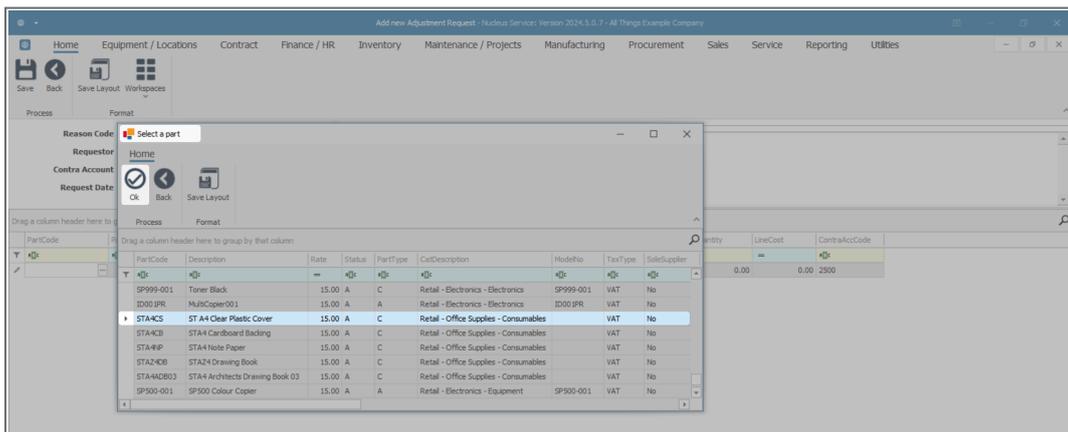

## Method 2

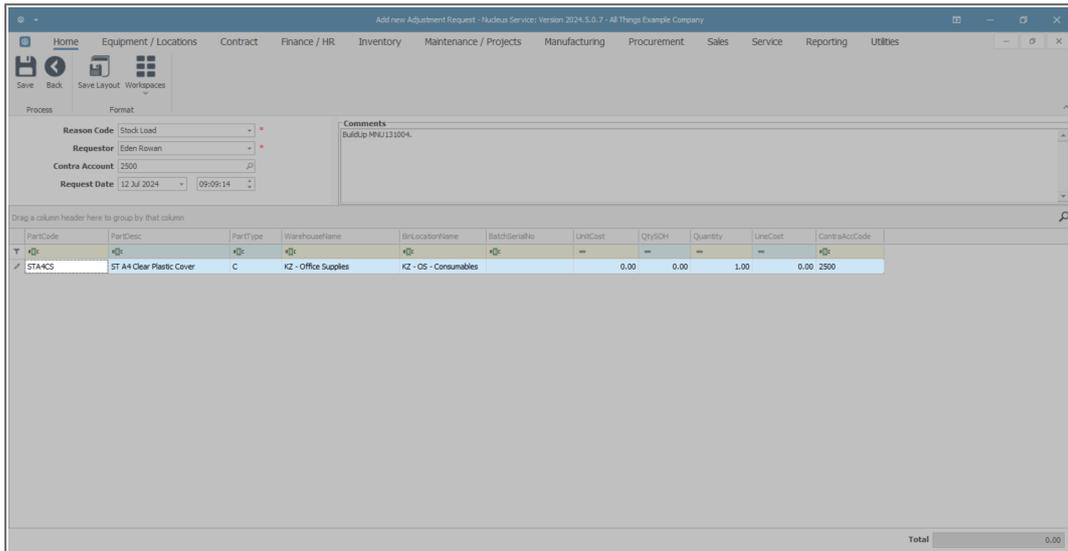

- In the **Parts / Items** frame, **right click** anywhere in a **row** of this data grid. (As you click in this field, the **Contra Account Code** text box will populate with the previously selected **Contra Account Code** made in the Adjustment Request Details frame. (This can be changed per item line).
- A **Process** menu will pop up.
- Click on **Add - Add Item** to display the **Select a part** pop-up screen.

- In the **Select a part** pop-up screen, select the **row** of the **part/item** that you wish to adjust **out** of stock.
  - In this image, an **A4 Clear Plastic Cover** is to be adjusted **out** of stock.
- Click on **Ok**.

- The row will now populate with the selected **Part Code** details.

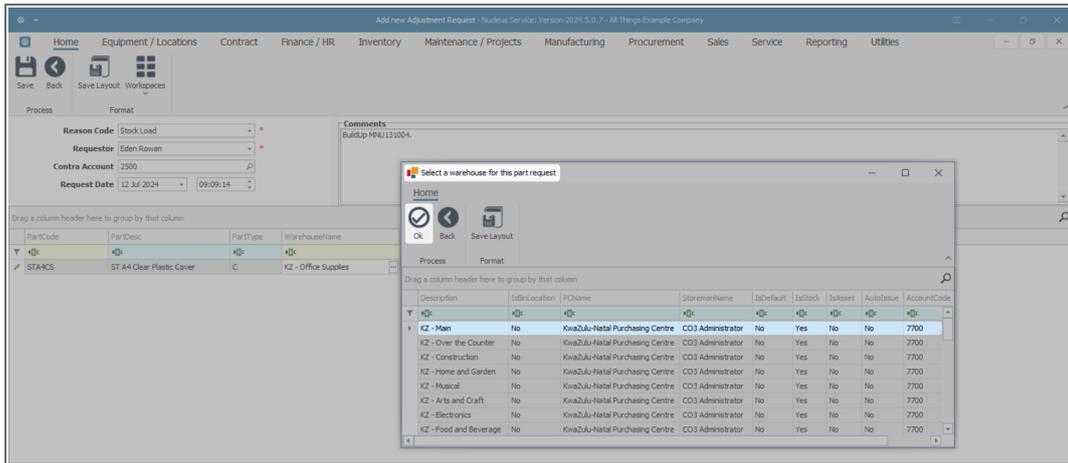

## SELECT WAREHOUSE

If the item selected is linked to a [default warehouse](#) then the **WarehouseName** field will auto-populate with that warehouse name. (This can be changed.) If the item is not linked to a default warehouse then you can select one.

Follow this process to select an alternative **Warehouse Name**:

- Click in the **Warehouse Name** text box to reveal an **ellipsis** button.
- Click on this button.
- The **Select a warehouse for this part request** screen will pop up.
- Select the **row** of the **Warehouse** that you wish to adjust this item out of.
  - In this image, **KZN Main** has been selected.
- Click on **Ok**.

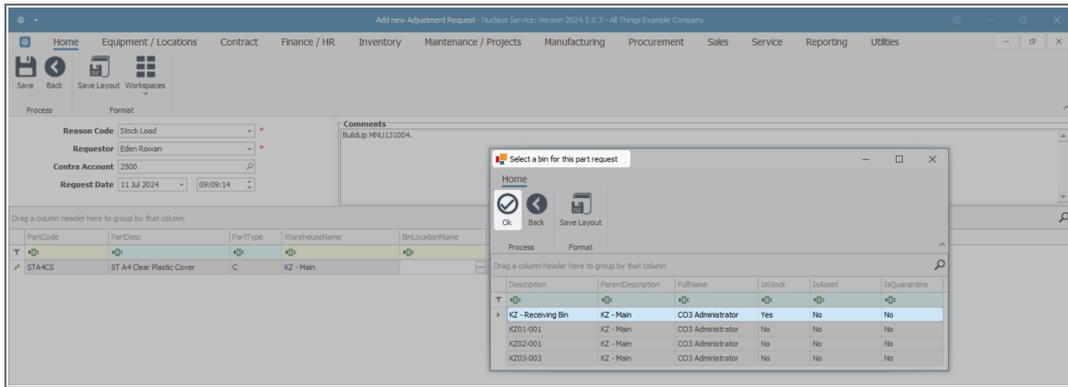

## SELECT BIN LOCATION

If the item selected is linked to a **default bin** location in the default warehouse, then this field will now auto-populate with that bin location name. (This can be changed.) If the item is not linked to a default bin then you can select one.

Follow this process to select an alternative **Bin Location Name**:

- Click in the **Bin Location Name** text box to reveal an **ellipsis** button.
- Click on this button.
- The **Select a bin for this part request** screen will pop up. This screen will contain details of the **bins** that you can choose from within this warehouse.
- Select the row of the **bin** location.
  - In this image, bin location **KZN - Receiving Bin** has been selected.
- Click on **Ok**.

**Note:** If there is only **1** bin linked to the warehouse, as you click on the ellipsis button, the **Bin Location Name** text box will populate with that one particular bin name and the '**Select...**' screen will not pop up.

## SELECT BATCH/SERIAL NUMBER

Once the bin location field is populated, Nucleus Service will select the item from the first batch in this bin location. If this first batch is 'un-numbered' then this field will be blank.

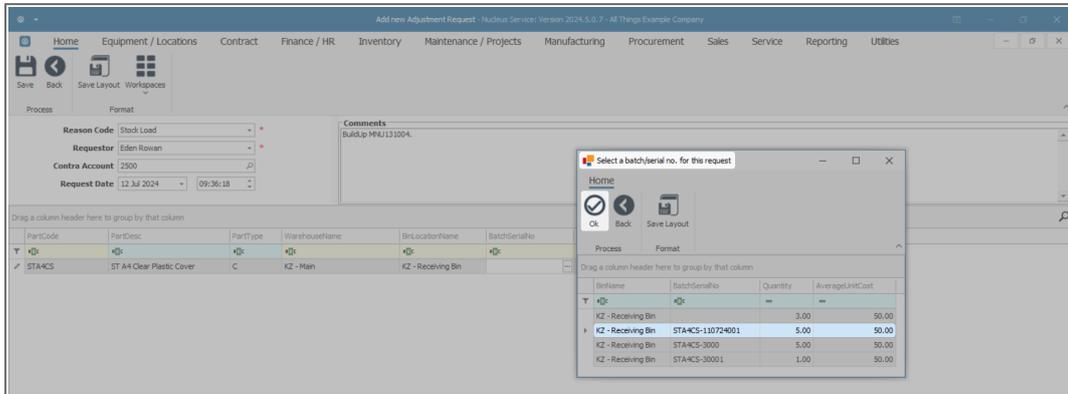

Follow this process to select a **Batch/Serial Number**:

- Click in the **BatchSerialNo** text box.
- An **ellipsis** button will be revealed.
- Click on this button.
- The **Select a batch//serial no. for this request** screen will pop up.
- Select the **row** of the **batch/serial number** that you wish to adjust.
- Click on **Ok**.

If this is an **A-Class** or **B-Class** item that is being adjusted out of store then this becomes the **Serial No** column for A/B-Class items - so search for the correct serial number if this is a serialised item.

If this a **C-Class** item being adjusted out of store, and you are using **Stock Batch Tracking**, then you will need to select the correct batch that you wish to adjust the **C-Class** item out of.

If you are not using Stock Batch Tracking, then the **BatchSerialNo** text box can remain blank.

As the above text boxes populate, you will notice the following fields will adjust:

## UNIT COST

- With **C-Class** items, weighted average cost is calculated over multiple batches within the same bin location, therefore the **Unit Cost** populates as the **Bin Location Name** is selected.
- With **A** or **B-Class** items, only once the **Serial No.** is selected, will the **Unit Cost** field populate as each serial no. is priced individually.

## QUANTITY STOCK ON HAND

- You will note that the **QtySOH** (Quantity Stock on Hand) amount has adjusted to what stock is available in the selected batch.
- With **C-Class** items, this text box will populate with the current Stock on Hand quantity of the **C-Class** item in the selected **Bin Location**.

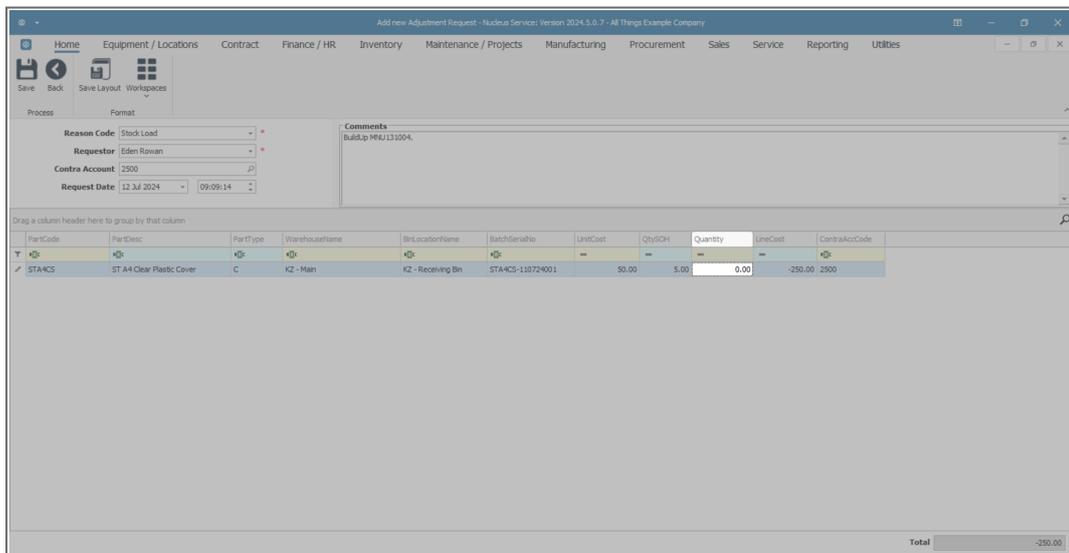

- With **A** or **B-Class** items, this field will only populate once the **serial no** has been selected and will always populate with **1** as only one **A** or **B-Class** item can be selected at a time.

## LINE COST

- This will populate with the sum of the **Unit Cost** x **Quantity**. This will be a **minus** figure as you are adjusting this unit part **out** of stock.

## SELECT QUANTITY

- In this example, we will be '**building up**' one A4 Architects Drawing Book. We will be adjusting the individual parts **out** of stock. Therefore the (end) **Quantity** (in stock) amount of this part must be changed.
- Click in the **Quantity** field.

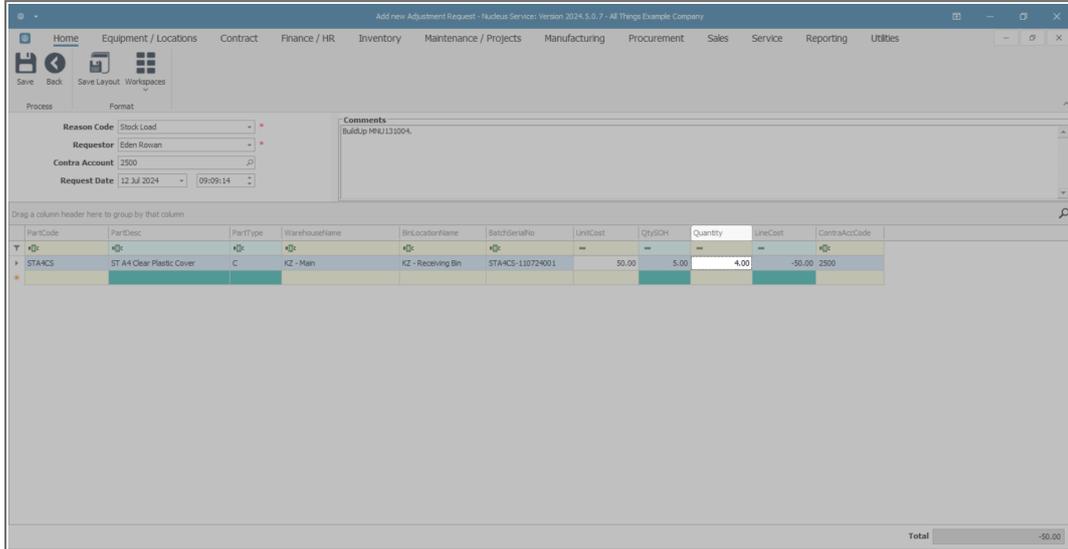

PartCode	PartDesc	PartType	WarehouseName	BinLocationName	BatchSerialNo	UnitCost	QtyOnH	Quantity	LineCost	ContraAccCode
STA-KCS	ST-A4 Clear Plastic Cover	C	KZ - Main	KZ - Receiving Bin	STA-KCS-110724011	50.00	5.00	0.00	-250.00	2500
<b>Total</b>									-250.00	

- Either type in or use the arrow indicators to select the quantity - this will be the quantity of this part that is required to make up

the **whole unit**.

- In this example, the sum will be: **Quantity Stock on Hand: (5)** - the adjusted **out** quantity **(1)** = the total **end** quantity (in stock) = **(4)**.

## **ADD REMAINING UNIT PARTS TO BE ADJUSTED OUT OF STOCK**

- If a **new row** has not yet appeared in the data grid, click on the last text box in the row and press **Enter** on your keyboard.
- Click in the **Part Code** text box of the new row to display the **ellipsis** button.
- Repeat the [Select the First Unit Part to be Adjusted Out of Stock](#) process until you have all the parts that make up the whole unit, listed in the data grid.

Reason Code: Stock Load  
Requestor: Eden Rowan  
Contra Account: 2500  
Request Date: 12 Jul 2024 09:09:14

Comments: Build up MWU131004.

PartCode	PartDesc	PartType	WarehouseName	BinLocationName	BatchSerialNo	UnitCost	QtySOH	Quantity	LineCost	ContraAccCode
ST A4CS	ST A4 Clear Plastic Cover	C	KZ - Main	KZ - Receiving Bin	STA4CS-110724001	50.00	5.00	4.00	-50.00	2500
						0.00	0.00	0.00	0.00	2500

Total: -50.00

- In this example, **A4 Cardboard Backing, A4 Note Paper** have been added to the list.

Reason Code: Stock Load  
Requestor: Eden Rowan  
Contra Account: 2500  
Request Date: 12 Jul 2024 09:09:14

Comments: Build up MWU131004.

PartCode	PartDesc	PartType	WarehouseName	BinLocationName	BatchSerialNo	UnitCost	QtySOH	Quantity	LineCost	ContraAccCode
ST A4CS	ST A4 Clear Plastic Cover	C	KZ - Main	KZ - Receiving Bin	STA4CS-110724001	50.00	5.00	4.00	-50.00	2500
ST A4CB	ST A4 Cardboard Backing	C	KZ - Main	KZ - Receiving Bin	STA4CB-110724002	50.00	5.00	1.00	-200.00	2500

Total: -587.50

## QUANTITIES OF ADDITIONAL ITEMS

- **A4 Clear plastic Cover:**
  - In this example, the sum is: **Quantity Stock on Hand: (5)** - the adjusted **out** quantity **(1)**

therefore the total end **Quantity** (in stock)  
= (4).

- **A4 Cardboard Backing:**

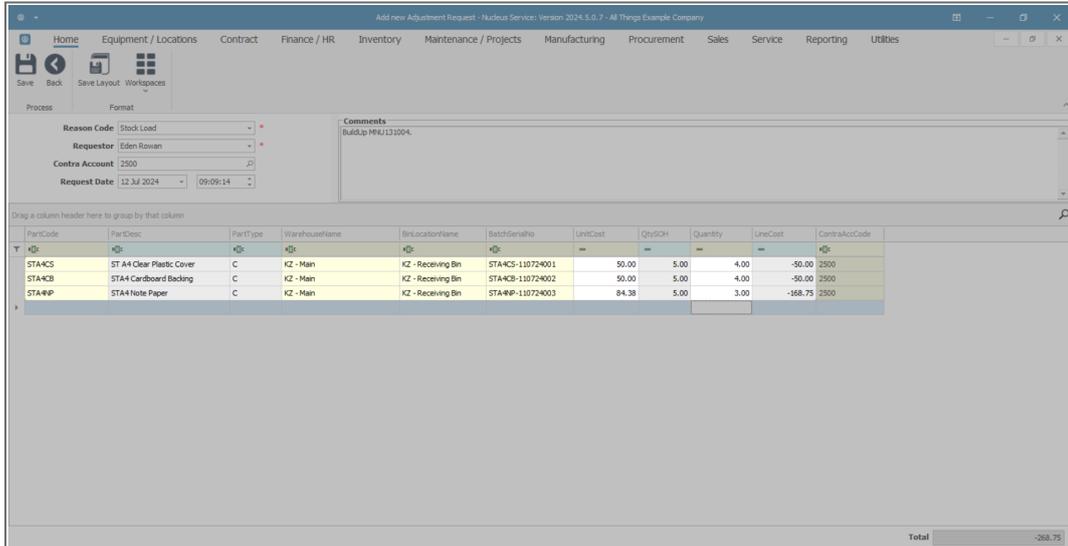

- In this example, the sum is: **Quantity Stock on Hand: (5)** - the adjusted **out** quantity (1) therefore the total end **Quantity** (in stock) = (4).

- **A4 Note Paper:**

- In this example, the sum is: **Quantity Stock on Hand: (5)** - the adjusted **out** quantity (2) therefore the total end **Quantity** (in stock) = (3).

- **Summary:** To build up the whole unit (the Architect's Drawing Book) the parts required are:

- **1** x A4 Clear Plastic Cover
- **1** x A4 Cardboard Backing
- **2** x A4 Note Paper

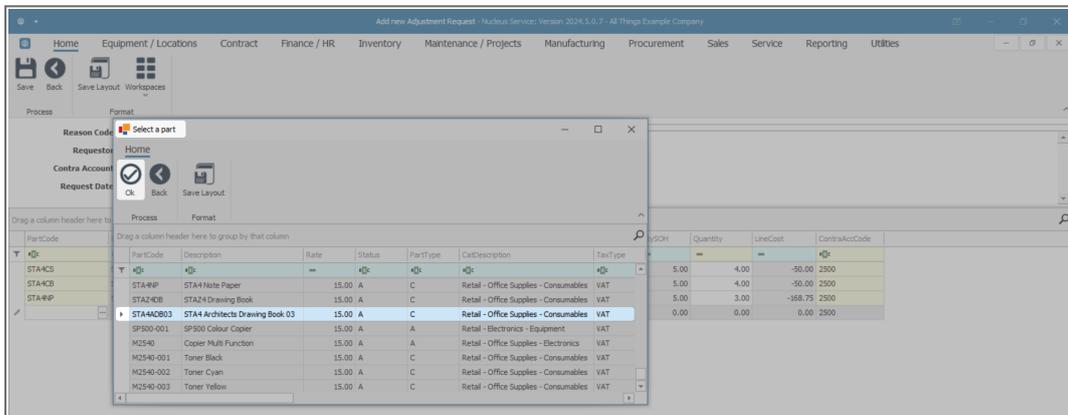

PartCode	PartDesc	PartType	WarehouseName	BinLocationName	BatchSerialNo	UnitCost	QtySOH	Quantity	LineCost	ContraAccCode
STA#CS	ST A4 Clear Plastic Cover	C	KZ - Main	KZ - Receiving Bin	STA#CS-110724001	50.00	5.00	4.00	-50.00	2500

STA#NP	STA4 Note Paper	C	KZ - Main	KZ - Receiving Bin	STA#NP-110724003	84.38	5.00	3.00	-168.75	2500

Total -268.75

## SELECT THE WHOLE UNIT TO BE ADJUSTED INTO STOCK

You now need to add the whole unit item that is to be adjusted into stock:

- Click in the **Part Code** column to bring up the **ellipsis** button.
- Click on this button to bring up the **Select a part** pop-up screen.
- Select the **whole unit** in this screen.
- Click on **Ok**.

- The row will now populate with the selected **Part Code** details.

## SELECT WAREHOUSE AND BIN LOCATION FOR WHOLE UNIT

- Select the **Warehouse** and **Bin Location** for this whole unit.

PartCode	PartDesc	PartType	WarehouseName	BinLocatorName	BatchSerialNo	UnitCost	QtySOH	Quantity	LineCost	ContraAccCode
STA4CS	ST A4 Clear Plastic Cover	C	K2 - Main	K2 - Receiving Bin	STA4CS-110724001	50.00	5.00	4.00	-50.00	2500
STA4CB	ST A4 Cardboard Bedding	C	K2 - Main	K2 - Receiving Bin	STA4CB-110724002	50.00	5.00	4.00	-50.00	2500
STA4WP	ST A4 Note Paper	C	K2 - Main	K2 - Receiving Bin	STA4WP-110724003	84.38	5.00	3.00	-168.75	2500
STA4Q803	ST A4 Architects Drawing Book 03	C				0.00	0.00	1.00	0.00	2500
<b>Total</b>									<b>-268.75</b>	

## WHOLE UNIT COST

- Click in the **Unit Cost** text box and either type in or use the arrow indicators to select the unit cost of the whole unit.

**Important Note:** The **Line Cost** for the **unit parts** you are writing out of stock and the **total unit** you are writing into stock should counteract each other exactly.

In this example, you can see:

- The line cost for the unit parts is **(-268.75)** and the total unit being written into stock **(268.75)** will balance each other out.
- This will result in the Total being **0.00**.

PartCode	PartDesc	PartType	WarehouseName	BinLocationName	BatchSerialNo	UnitCost	QtySOH	Quantity	LineCost	ContraAccCode
STA4CS	STA4 Clear Plastic Cover	C	K2 - Main	K2 - Receiving Bin	STA4CS-110724001	50.00	5.00	4.00	-50.00	2500
STA4CB	STA4 Cardboard Backing	C	K2 - Main	K2 - Receiving Bin	STA4CB-110724002	50.00	5.00	4.00	-50.00	2500
STA4WP	STA4 Note Paper	C	K2 - Main	K2 - Receiving Bin	STA4WP-110724003	84.38	5.00	3.00	-158.75	2500
STA4AD003	STA4 Architects Drawing Book 03	C	K2 - Main	K2 - Receiving Bin		268.75	0.00	1.00	268.75	2500
<b>Total</b>										0.00

## QUANTITY OF THE WHOLE UNIT

- This will default to **1**.
  - In this example, only **1** whole unit is being adjusted in so this can remain unchanged.

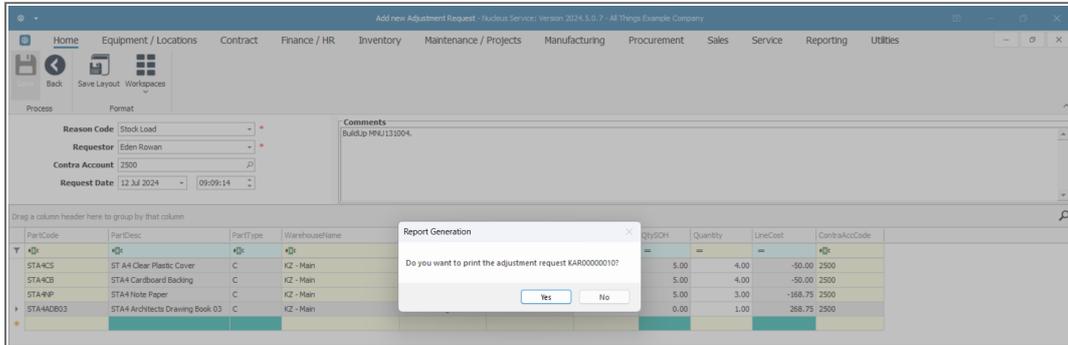

## SAVE ADJUSTMENT REQUEST

- Click on **Save**.

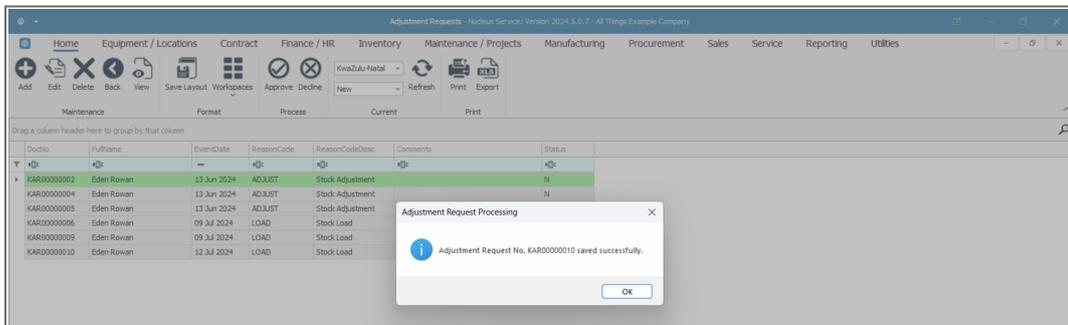

PartCode	PartDesc	PartType	WarehouseName	BinLocationName	BatchSerialNo	UnitCost	QtySOH	Quantity	LineCost	ContraAccCode
STA4CS	STA4 Clear Plastic Cover	C	K2 - Main	K2 - Receiving Bin	STA4CS-110724001	50.00	5.00	4.00	-50.00	2500
STA4CB	STA4 Cardboard Backing	C	K2 - Main	K2 - Receiving Bin	STA4CB-110724002	50.00	5.00	4.00	-50.00	2500
STA4WP	STA4 Note Paper	C	K2 - Main	K2 - Receiving Bin	STA4WP-110724003	84.38	5.00	3.00	-158.75	2500
STA4AD003	STA4 Architects Drawing Book 03	C	K2 - Main	K2 - Receiving Bin		268.75	0.00	1.00	268.75	2500
<b>Total</b>										0.00

## PRINT ADJUSTMENT REQUEST

- A **Report Generation** message box will pop up asking -
  - **Do you want to print the adjustment request [ ]?**
- Click on **Yes**.

- You will return to the **Adjustment Requests** listing screen.
- An **Adjustment Request Processing** message box will pop up asking -
  - **Adjustment Request No. [ ] saved successfully [ ]**.
- Click on **OK**.

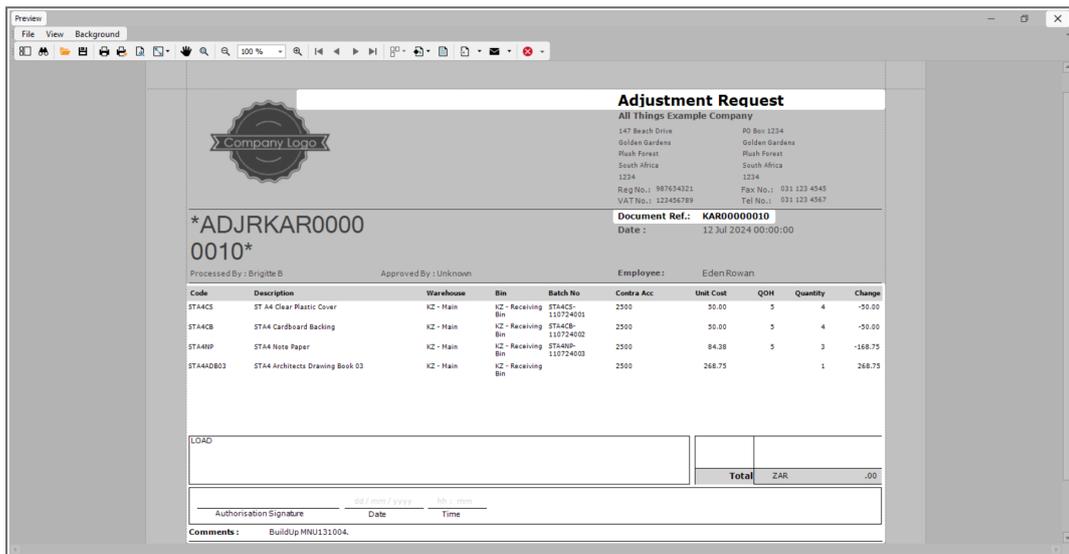

## REPORT PREVIEW

The **Report Preview** screen will open.

Here you can view the details of:

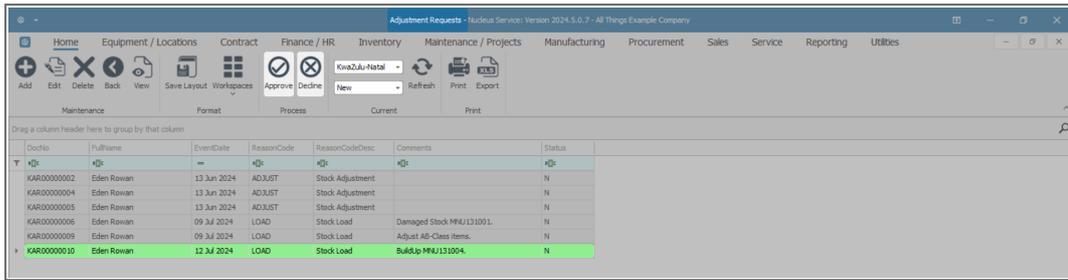

- The **unit parts** being adjusted out.
- The **whole unit** being adjusted in.
- The original **Stock on Hand Quantities**.
- The **Quantities** after the adjustment.
- The **Total** recorded as **0**.
- From this screen you can **View, Print, Email** or **Export** the adjustment report.
- **Close** the Preview screen when you are done.

## VIEW NEW ADJUSTMENT REQUEST

- You will return to the **Adjustments Request** screen.
- You can now view the new adjustment in the data grid.
- This request can now be Approved or Declined.

**Important Note:** This request must be **authorised** before the stock adjustment is complete.
