

SERVICE

INTRODUCTION TO CALL CLOSURE EXCEPTIONS

The **Call Closure Exceptions** screen is a new screen (in BPO2) ¹ that displays the list of Close Call Exceptions returned by the (Auto Close Call Service) ², with the corrective action. You can easily access the call, as well as the call related functions and transaction tiles. These exceptions can then be processed on BPO, and once flagged as processed, the call can then either be closed manually or left to be auto closed by the Close Call Service.

The **Call Closure Exceptions** are as follows:

- New part requests requires approval (where approval is required).
- Open part requests need to be actioned.
- Open sub contracts need to be received.
- Invoices need to be printed.
- Credit notes need to be authorised.
- Loan unit out against the call.
- Non billable serialized stock issues.
- Meters attached with no readings captured (where meter reading required is yes)
- Open warranty claims have not been processed.
- Unreviewed hours (where TimeReview flag is Yes)
- Items to Invoice:

¹BPO2 v2.5.1.3 or higher.

²v3.0.0.1

- Part requests
- Travel
- Warranties
- Sub-contracts
- Services
- Work expense
- Labour
