BPO MConnect - **Version 1.0.3.0** and up

- For all clients using MConnect, please ensure that the sp_bpoGet_MCON_CTRTCurrentMeterPeriod sproc has been rolled out. It was from the v1.0.3.0 upgrade which was missing from the server.

Files in:

\Implementations\CO3_Releases\Applications\BPO_MConnect\x_Fixes

---

3.0.1.0 (08.10.2018 4:07 PM)

Version Compatibility:

- Compatible with BPO_RSI, BPO_TEL and BPO2.

New Functionality

- Increased capacity of JSON to handle more data.
- Created separate installers for x86 and x64 PC's.
- BPOv2 compatibility

- Handles the additional ProcessFlag field in tblCTRTUnprocessedMeters.
- Requires BPO2 registry settings for saved Service environments. eg. Computer\HKEY_LOCAL_MACHINE\SOFTWARE\CO3\BPO\Services
- (For BPO_RSI or BPO_TEL installations the Services branch will need to be imported from Computer\HKEY_LOCAL_MACHINE\SOFTWARE\CO3\BPO_RSI\Services)
