

LOCATIONS

FUNCTIONAL LOCATIONS – ADDITIONAL DATA

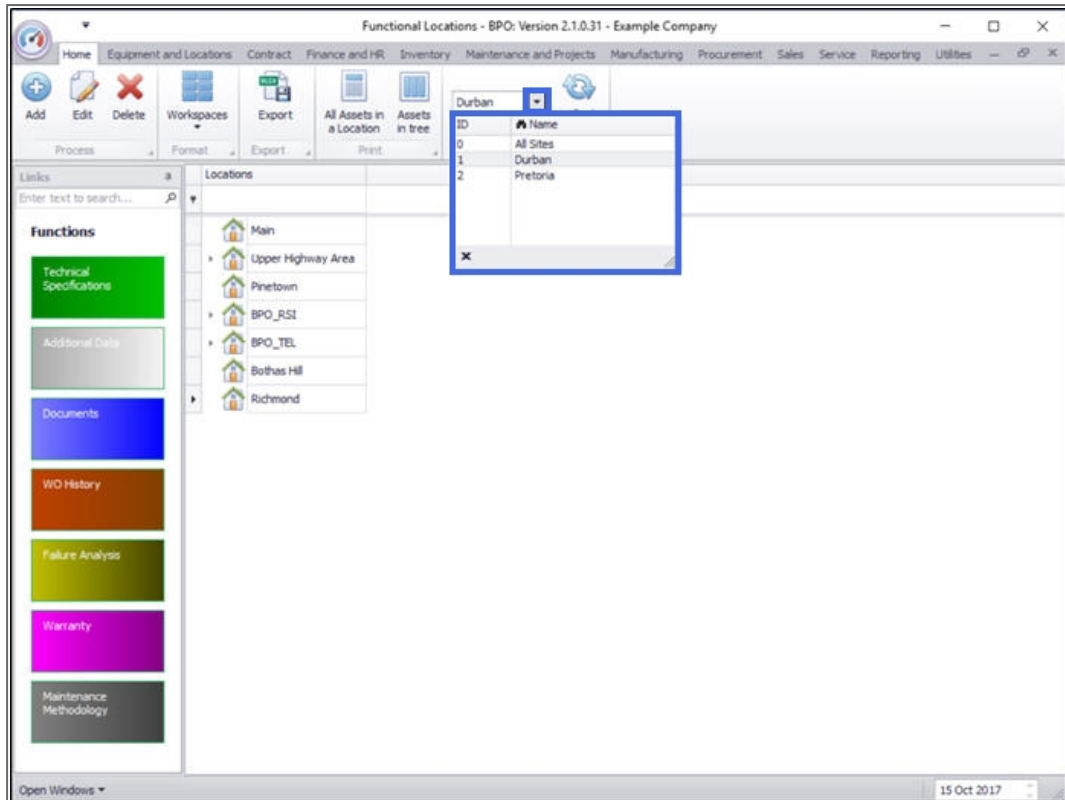

Ribbon Access: *Equipment / Locations* > *Functional Locations*

1. The *Functional Locations* screen will be displayed.

SELECT THE SITE

- The *Site* filter will be set according to your company configuration.
- You do not need to select a specific site, however if you wish to narrow your filter parameters, you can click on the *drop-down arrow* and select a particular site from the list.
 - [For a detailed handling of this topic refer to Site Selection.](#)

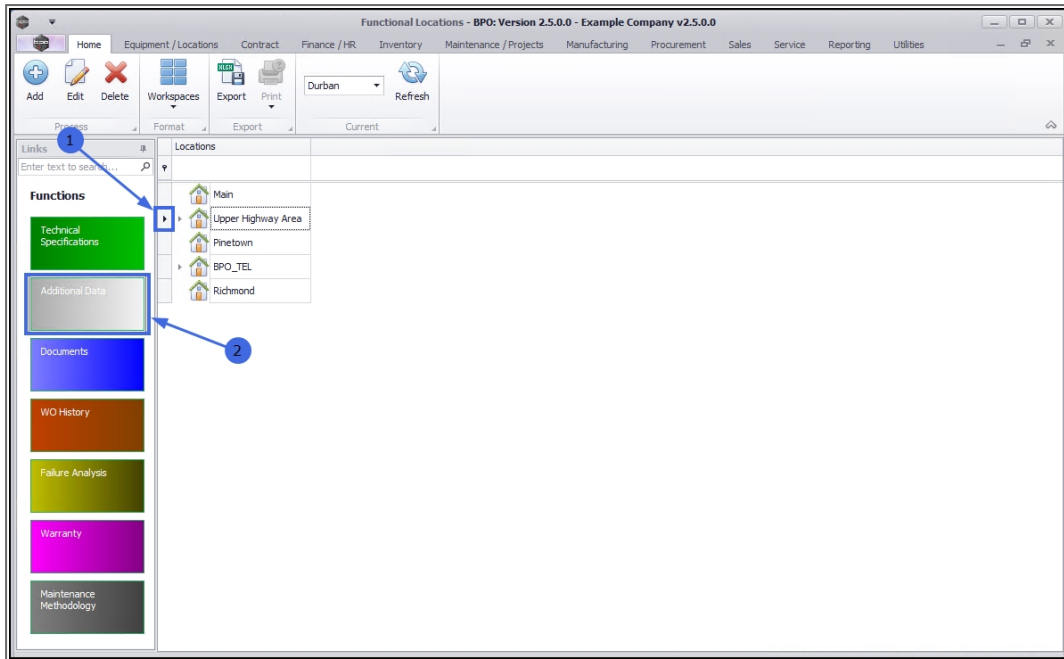

SELECT LOCATION

Select the **row** of the location where you wish to access the linked **additional data**.

MAIN LOCATION DATA

1. If you wish to access the additional data of a **main** location, select the **row** of that main location. In this example **Upper Highway Area** is a main location.
2. Click on the **Additional Data** tile.

SUB-LOCATION DATA

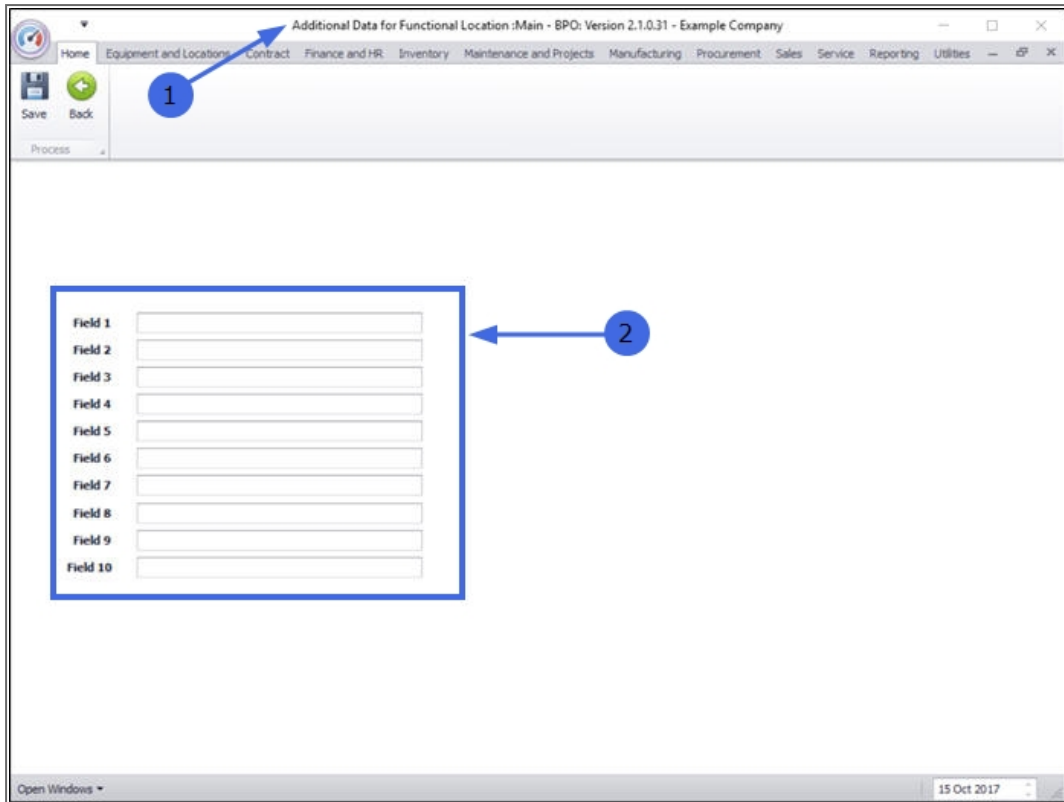

1. If you require access to the additional data for a **sub-location**, ensure that you **expand** the main (parent) location to be able to view and select the row of that sub-location.
2. In this example, **Hillcrest** and **Kloof** are sub locations of Upper Highway Area.
3. When you have selected the right location, click on the **Additional Data** tile.

EDIT DATA FIELDS

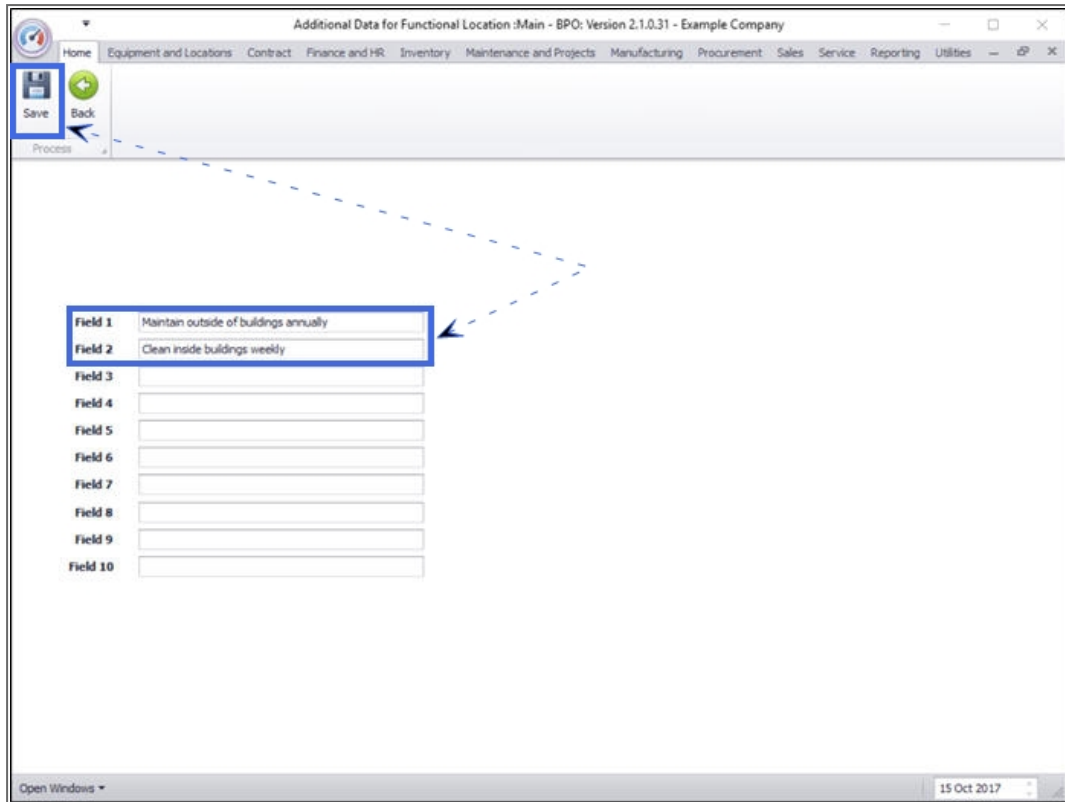

1. The ***Additional Data for Functional Location: []*** screen will open.
2. Type additional details in the fields as required.

Note: These additional data labels (e.g. Field 1, Field 2 etc.) can be re-named as per your company requirements.

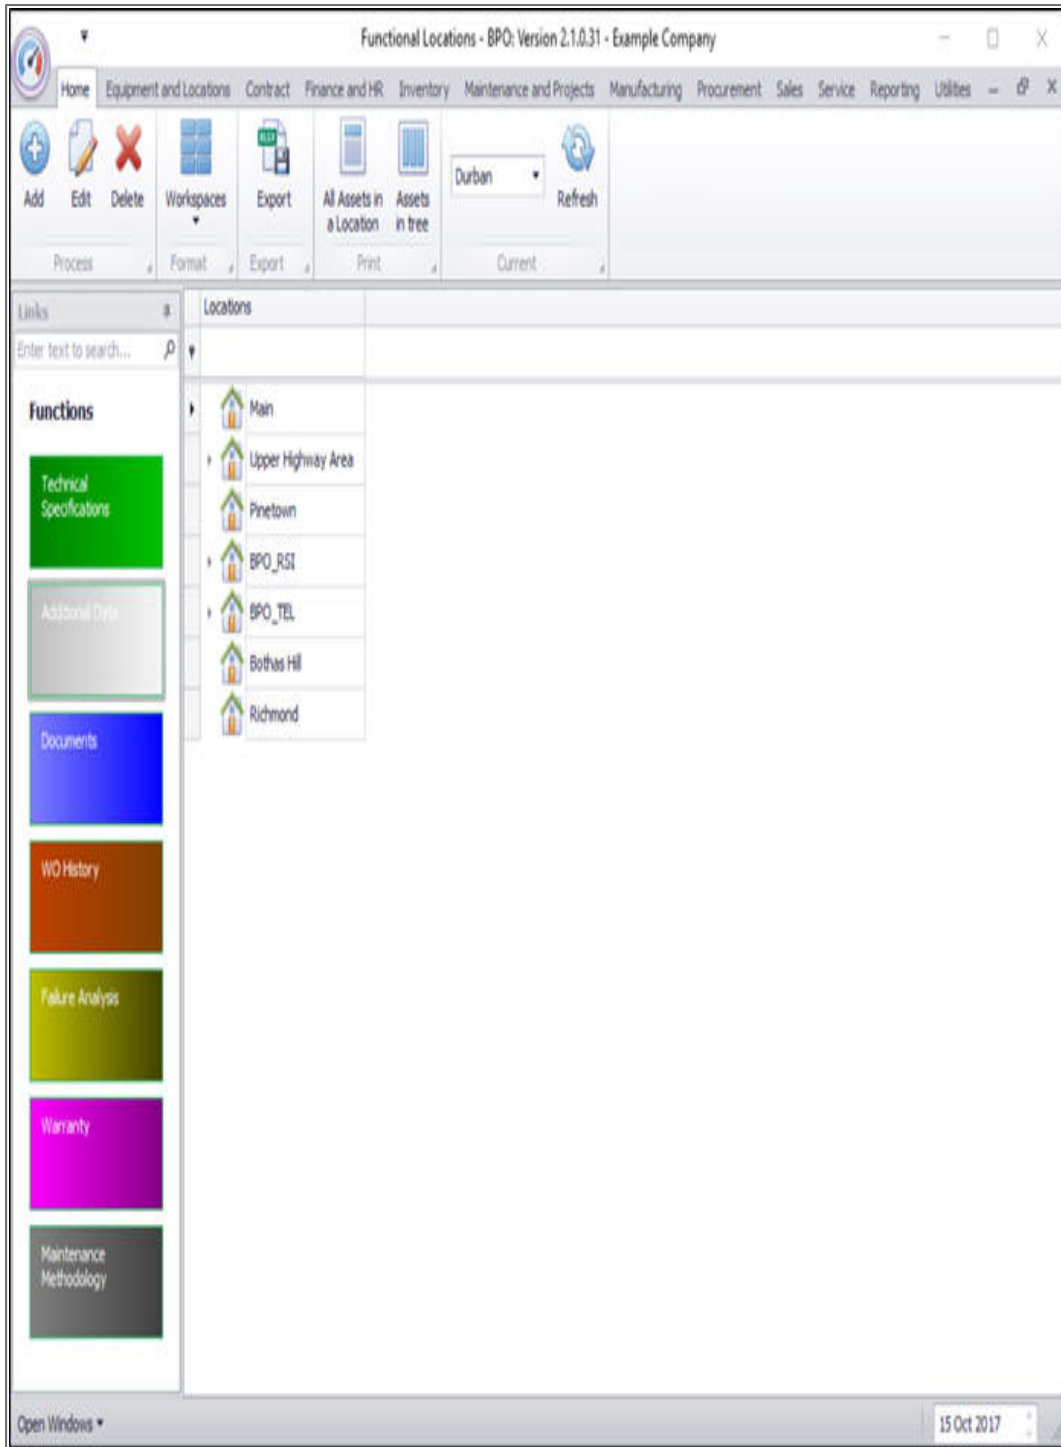

SAVE DATA

- When you have finished updating the relevant fields for the location, click on **Save**.

- The additional data will be saved and you will return to the **Functional Locations** screen.
