

# INVENTORY

## PART REQUESTS - CREATE PART

The **Create Part** functionality is no longer available in BPO2.

This feature was essentially a precursor to creating a **new** part code.

It allowed the person logging the part request to request a new part which was not yet registered in the Part Listing screen. The store person, who received the request for this new part, would then log the full details of the new part in the Part listing screen and stock of this new part would be requisitioned.

---

### Ribbon Access: *Inventory* > *Part Requests*

---

1. The **Part Requests for the Site** listing screen will display.
2. The **Create Part** button is inactive (greyed out) for *all* Sites and States.

Part Requests for the Site - BPO: Version 2.5.0.4 - Example Company v2.5.0.0
