

# PROJECTS

## PROJECTS - LOG TRAVEL

If you want to keep track of travel done by a technician, you can log this on the project.

The travel logged on a project will not be billed. The system previously used the 'billable' flag in order to invoice travel. However, travel is now billed via 'Travel Radii' or 'Travel Zones' - which will check the contract / asset configuration to see whether travel should be billed or not.

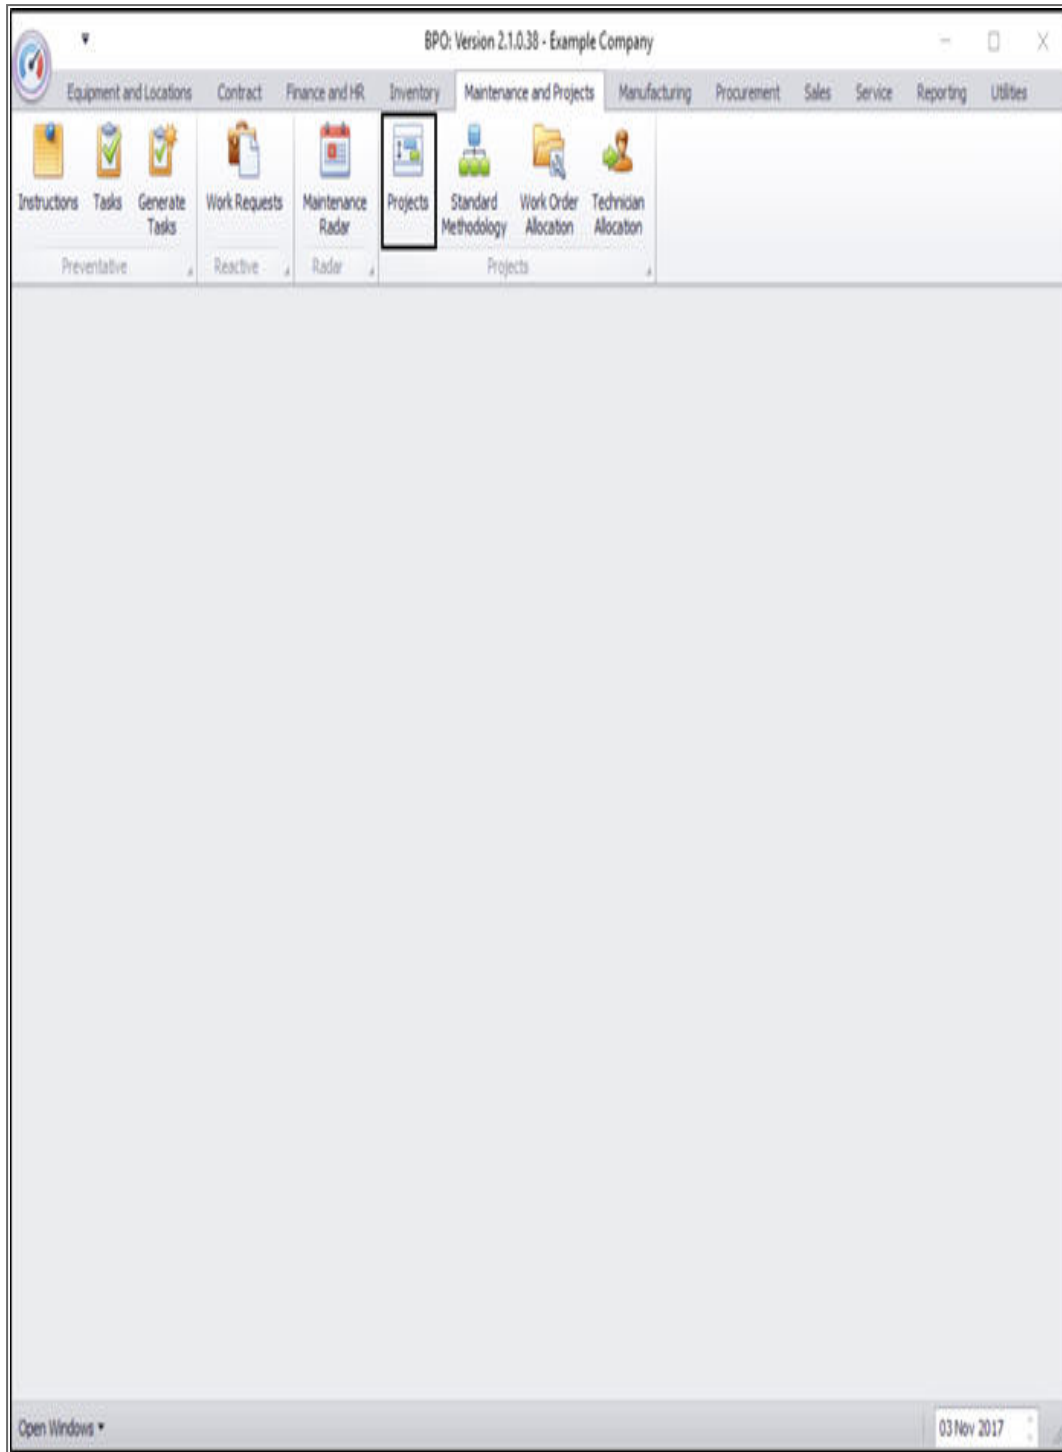

Travel can also be added to an invoice separately. **Travel Radii** must be set up correctly.

If you cannot link travel to the project due to the message: 'No items to select from', then an **Expense Allocation**, **Expense Type**, and Travel Rate must be configured.

---

***Ribbon Access:*** *Maintenance/ Projects > Projects*

---

The ***Project Listing*** screen will be displayed.

- Select the **site**.
  - In this image **Durban** has been selected.

The screenshot shows the 'Project Listing' window for 'BPO: Version 2.1.0.38 - Example Company'. The interface includes a menu bar, a ribbon with various project management tools, and a main table of project data. A dropdown menu is open over the 'Durban' site selection, with 'Open' selected.
