### **PROJECTS - PROGRESS REPORT**

In order to correctly track your progress via the Project Progress Report, there are a few things to consider and keep track of:

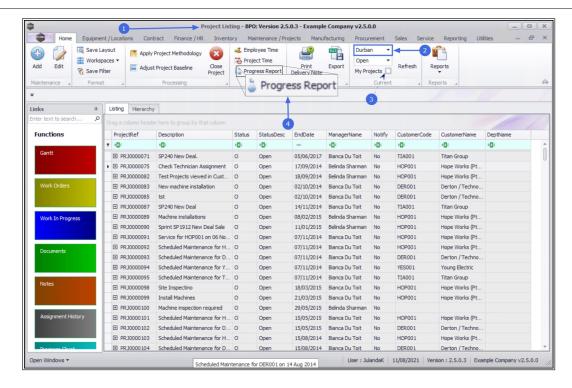

• Work Order Required Craft details need to be configured on each work order within the project.

**Ribbon Access:** Maintenance / Projects > Projects

- 1. The *Project Listing* screen will be displayed.
- 2. Select the *Site* where the project can be located.
  - The example has *Durban* selected.
- 3. The Progress Report can include all projects or Projects My Projects only.
- 4. Click on *Progress Report*.

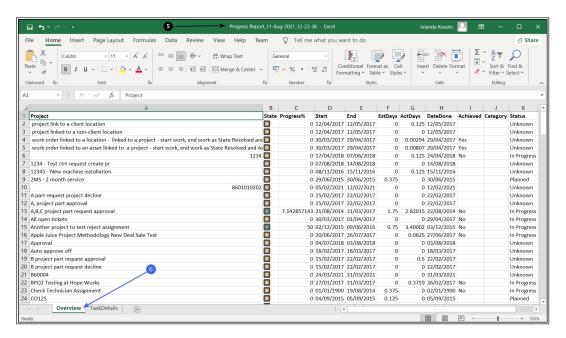

- 5. Give the system a few minutes to generate and exported the Progress Report to *Microsoft Excel*.
- 6. In the *Overview* tab, you will see a list of <u>all projects</u> from the project list screen, with the following information:
  - Project: A description of the project.
  - State: An indicator of the project progress.
    - Yellow Planned (not yet started)
    - Green In Progress
    - Red Done
  - Progress%: This is a percentage of the project completed, based on completed work orders within the project.
  - Start: Project Start Date.
  - End: Project End Date.
  - EstDays: Total Estimated Days based on the estimated hours for all work orders within the project, configured

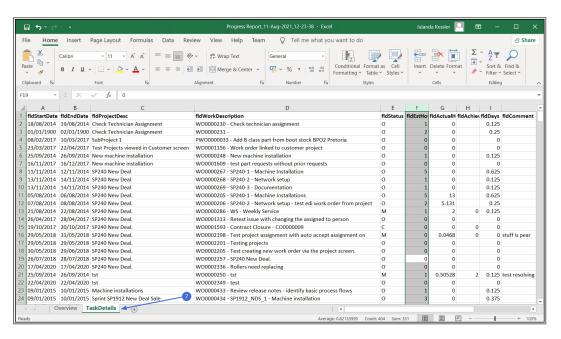

on the Work Order Schedule tab > Required Crafts section.

- ActDays: Actual Days represent the total labour time as booked on underlying project work orders.
- Date Done: Completion date of the project.
- Achieved: An indicator of whether the project was completed at, or within the estimated time.
- **Status:** Determines the status for the project as still being Planned, In Progress or Done.

- 7. Click on the *Task Details* tab to view all the work orders within these projects.
  - The **Status** details in the report show you whether a work order is:
    - Open (O)
    - Completed (M) or
    - Closed (C)

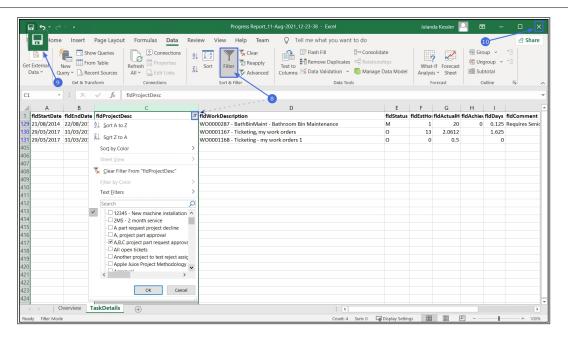

- **EstHours:** (Estimated Hours) is pulled directly from the Work Order Schedule > Required Crafts details on the work order.
- Actual Hours: The total labour time booked on the work order will pull through.
- Achieved: This field will only pull through information on completed and closed work orders.
- Days: T his column displays the labour time as a conversion in days for longer running work orders and projects.
- **Comment:** T his column displays the rectification comment as updated on the work order when completed.

#### **FILTER BY PROJECT**

- 8. Insert a *filter* to view specific project information.
- 9. Click on *Save* to save a copy of the report to the Server.
- 10. Close Microsoft Excel to return to BPO.
