

STATIC DATA

STATIC DATA - CALLS: PENDING REASON CODE

Ribbon Access: Static Data> Static Data

- 1. The *Static Data* listing screen will be displayed.
- 2. Use the *filter row* or *scroll down* the list until you find the *Calls: Pend-ing Reason Codes* row.
- 3. Click on the *expand* icon to expand the *Codes* frame.
- 4. From here you can view a list of *call pending reasons* currently on the system.

- An available row for adding the pending reason code will display in the Codes data grid.
 - **Code:** Click in the text box to type in a code specific to the new call pending reason.
 - **Code Description:** Click in the text box to type in a description related to the code.
 - Code Type: This field will auto populate as *None* and may remain as is.
 - **Status:** The status field will auto populate with an **A** Active status.

- Sort Order¹: Click in the text box and to type in or use the arrow indicators to select the sort order for the new call pending reason code.
- 8. When you have finished adding the new call pending reason details,

press *Enter*.

9. You WILL receive the *Update* message to confirm;

• Are you sure you want to save changes to this code?

- 10. Click on Yes to save the code, or
 - Click on *No* to remove the information from the row, enabling you to add new hold reason code information.

¹The sort order is the order in which the pending reason code will appear in the drop-down list. If each pending reason code has the same number, e.g 0 or 1, then the drop-down list will default to an alphabetic order. If the sort order, is numbered, for example number 5, then the item will appear 5th in the drop-down list.

EDIT PENDING REASON

You can make changes to the *Code Description*, *Code Type* or the *Sort Order* of a Pending Reason Code.

- **Code Description:** Click in the field and replace the existing description with the new description, if required.
- **Code Type:** Click in the field to replace the existing code type with a new code type, if required.
- **Sort Order:** Click in the field to type in or use the arrow indicators to select a new sort order, if required.
- 1. When you have made the required changes, click anywhere on the Codes frame.

2. You will receive an *Update* message to confirm,

• Are you sure you want to save changes to this code?

- 3. Click on **Yes** to save the changes, or
 - Click on *No* to ignore the change and leave the code as is.
- 4. *Collapse* the Codes frame.
- 5. *Close* the screen when done.
