Open Windows 26 Apr 2018

- **Right click** anywhere in a **row** of the **Codes** data grid.
- A **Process** menu will pop up.
- Click on **Add** - Add New Code.

The screenshot shows the 'Static Data - BPO Configurator' application interface. The main window displays a table of static data with columns: Description, TableName, FieldName, Size, and UserDefinable. Below this, a 'Codes' data grid is visible, containing columns: Code, CodeDescription, CodeType, Status, and SortOrder. A 'Process' dialog box is open over the 'Codes' grid, showing options to 'Add New Code' and 'Delete Code'. The 'Codes' grid shows three rows of data:

Code	CodeDescription	CodeType	Status	SortOrder
1	Full Payment COD	1	A	1
12	12 Months	0.13	A	2
6	6 Months	0.17	A	3

- The **final row** in the **Codes** data grid will now be '**activated**'.
- The **Code Type**, **Status** and **Sort Order** columns will now be populated.

Open Windows 26 Apr 2018

- **Code:** Click in this text box and type in a *code* specific for this new sales quote payment term.
- **Code Description:** Click in this text box and type in a *description* for this new sales quote payment code.

- **Code Type:** This can remain as *None*.
- **Status:** This will auto populate with **A** - Active.
- **Sort Order:** Click in this text box and either type in or use the arrow indicators to select the sort order for this new sales quote payment code.
 - **Note:** The *sort order* is the order in which this will appear in the sales quote payment code drop-down list in BPO2. If each sales quote payment code has the number **1**, then the drop-down list will usually default to an alphabetical order in BPO2. If, as in the next image, it is numbered **4**, then it

will appear **4th** in the drop-down list in BPO.

- When you have finished adding the new sales quote payment code details, press **Enter**.
- An **Update** message box will appear, asking;
 - **Are you sure you want to save changes to this code?**
- Click on **Yes**.

The screenshot shows the 'Static Data - BPO Configurator' interface. The main table lists various static data items with columns for Description, TableName, FieldName, Size, and UserDefinable. A 'Codes' frame is open, displaying a table of codes. A confirmation dialog box is overlaid on the Codes frame, asking 'Are you sure you want to save changes to this code?' with 'Yes', 'No', and 'Cancel' buttons.
