- The Employee: Dependant Relationship **Codes** frame will be expanded.

- Here you can view a list of **employee dependant relationship types** currently on the system.

The screenshot shows the 'Static Data - BPO Configurator' application window. The main table displays various data types with columns for Description, TableName, FieldName, Size, and UseDefinable. The 'Employee : Dependant Relationship' entry is selected, and a 'Codes' dialog box is open, showing a list of codes with columns for Code, CodeDescription, CodeType, Status, and SortOrder. The 'ADULT' code is highlighted.

Description	TableName	FieldName	Size	UseDefinable

Code	CodeDescription	CodeType	Status	SortOrder
ADULT	Adult Dependant	None	A	1

- **Right click** anywhere in a **row** of the **Codes** data grid.
- A **Process** menu will pop up.
- Click on **Add** - Add New Code.

The screenshot shows the 'Static Data - BPO Configurator' application interface. The main window displays a list of data grids. The 'Employee : Dependant Relationship' grid is selected, and a context menu is open over it. The context menu has two options: 'Add' (Add New Code) and 'Delete' (Delete Code). The 'Add' option is highlighted.

Open Windows

02 May 2018

- **Code Type:** This can remain as **None**.
- **Status:** This will auto populate with **A** - Active.

- **Sort Order:** Click in this text box and either type in or use the arrow indicators to select the sort order for this new dependant relationship code.
 - **Note:** The *sort order* is the order in which this will appear in the dependant relationship code drop-down list in BPO. If each dependant relationship code has the number **1**, then the drop-down list will usually default to an alphabetical order in BPO. If, for example, it is numbered **2**, then it will appear **2nd** in the drop-down list in BPO.

Open Windows 02 May 2018

- When you have finished adding the new dependant relationship code details, press **Enter**.

- An **Update** message box will appear, asking;
 - ***Are you sure you want to save changes to this code?***
- Click on **Yes**.

The screenshot shows the 'Static Data - BPO Configurator' application window. The main table lists various static data items with columns for Description, TableName, FieldName, Size, and UserDefinable. The 'Employee : Dependant Relationship' row is selected. Below this table is a 'Codes' data grid with columns for Code, CodeDescription, CodeType, Status, and SortOrder. Two rows are visible: 'ADULT Adult Dependant' and 'CHILD Child Dependant'. A confirmation dialog box titled 'Update' is overlaid on the grid, asking 'Are you sure you want to save changes to this code?' with 'Yes', 'No', and 'Cancel' buttons.
