

PROCUREMENT

APPROVE SUPPLIER INVOICE

This will process the Supplier Invoice financial transaction via the [SINV driver](#) to the linked Financial System.

Once approved, if there are any issues with the invoice, a [Supplier Debit Note](#) will need to be raised against it. This Supplier Debit Note will **reverse** the Supplier Invoice.

Ribbon Select *Procurement > Invoices*

The **Supplier Invoices Listing** screen will be displayed.

Select the Site

Your employee user record should be linked to a default site. In this case, the site will auto populate with this default, otherwise the site must be manually selected.

Another site can be selected, if required, and if you have the security rights to access the site.

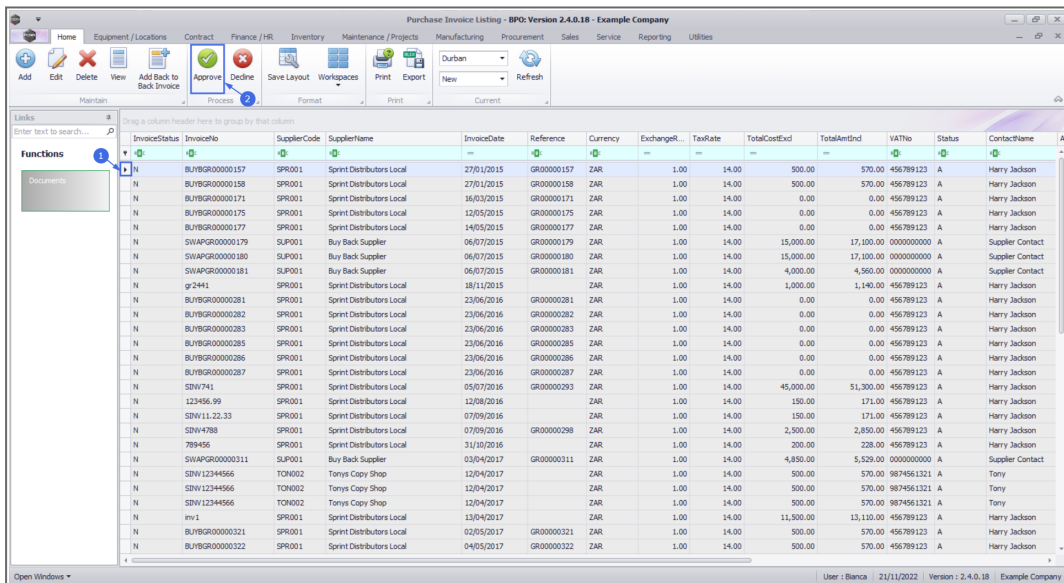

If **All Sites** displays here, then you do not have a default site configured on your user record, and need to select the required site.

Upon opening, this screen will default to the **New** status.
