

# **REPORTS DASHBOARD**

## **INTRODUCTION TO REPORTS DASHBOARD**

**BPO Reports Dashboard** is a standalone application that graphically displays critical business information onto a dashboard which can be viewed graph-ically in real time.

"Dashboards are easy to read, real time user interface, which shows a graphical presentation of the current status and historical trends of key performance indicators to enable informed decisions. Dashboards can be broken down according to role and are either strategic, analytical, operational, or informational"

"Dashboard software is any computerized tool designed to simplify complex data sets, reveal patterns, and provide users with a way to monitor business performance at a glance. Modern dashboards use data visualization to improve the user experience of traditional business intelligence."

**BPO Reports Dashboard** should be used in conjunction with Windows **BPO\_ DashboardRefreshService**. This service will periodically refresh the dashboard with the most current data related to the Dashboard's reports.

Users can use pre-defined system reports and or add new reports that are tailor made to meet their report requirements. Users can also clone reports to create different views.

Security rights must be configured per group that requires access.

Access: Reports Dashboard Icon > Log In

The *Reports Dashboard* application will open.

### **TOOLBAR OPTIONS**

The *Reports Dashboard* toolbar gives you the following options:

#### 1. System Reports:

- This will display a list of all pre-defined (default) reports in the *Dashboards Panel*. Clicking on this button will either:
  - close or
  - restore the Dashboards Panel.)

#### 2. New Report:

• This button enables you to create new reports.

#### 3. Dashboards:

• Initially, this panel will display pre-defined (default) system reports. As new reports are added, it will also display the new dashboard reports.

### **REPORT CATEGORIES**

- The *Dashboards* panel displays all the Report Category <u>titles</u> e.g. Call Centre, Meters, Contracts. Clicking on a title will expose the underlying 'active' reports.
- If there are no linked 'active' reports for a Category, that Report Category will not be displayed in the Dashboards panel.
