

SALES STUDIO CONFIGURATION

DELETE QUOTE DEFAULT ITEMS

Default items are items that are set up to be added to all new quotes.

These are items that a company requires to be quoted **every single time**, and therefore need to be linked automatically, so that the salesman does not need to remember to add them. For example, a company may require a consultation fee and a site inspection fee to be included in every sales quote.

Although these items pull through to each new quote, each item can be individually **removed** from each quote or **edited**, if required.

Follow the process below to **delete a** quote default item.
