INTRODUCTION TO TIME REVIEW

Time review enables managers to allocate **regular** time logged by employees as **SLA** or **non billable** time. For example, if an employee books **4** hours against a work order, and the manager knows that the task should only require **2** hours to complete, then the manager can allocate **2** hours as Billable or **SLA** hours and the remaining **2** hours as **Non Billable** hours in the Time Review screen.

The <u>Time Review flag</u> must be set to **Yes** in **Configurator**.

Ribbon Access: Service > Time Review

- 1. The **Time Review** listing screen will be displayed.
- 2. This screen is divided into 2 sections:
 - The Work Orders frame and the
 - SLA frame.
- 3. The Work Order frame displays all work orders with time records.
- 4. The **SLA** frame displays all <u>contract inclusions</u> linked to an item on the selected work order.

SLA FRAME

When you click on a Work Order with Parts and Craft Inclusions linked to the work order, the details will display in the SLA frame.

- Although all contract inclusions linked to an item on a selected work order will be displayed in the *SLA* section, only craft inclusions (*CRFT*) are affected by time review.
- The information displayed in the *SLA* section can also be viewed in the *Call* screen - *SLAs* tab and the Contract Balances screen. In the Contract Balances screen, only *SLA* information for craft inclusions is displayed.
