## **INTRODUCTION TO CALL ADMINISTRATION**

The Call Administration screen is part of the Extended Call Centre - Version Compatibility<sup>1</sup>

Extended Call Centre mode has been introduced, which can be used for larger customer-user bases. When using the **Calls Lite** mode only be primarily used for logging, releasing, and assigning calls and the **Call Administration** screen aids in call processing.

#### Call Centre Mode

Extended Call Centre - Version Compatibility<sup>2</sup>

Two screens have been added for <u>SLA Management</u> and <u>Call Closure Excep</u><u>tions</u>. to assist with call screen performance enhancements and to have dedicated screens where these functions are managed.

In addition, an Extended Call Centre mode has been introduced, which can be used for larger customer-user bases where Call processing functionality has been split into two screens: Calls Lite and <u>Call Administration</u> Introduction topics. The Calls Lite is a simplified Call screen with increased performance enhancements.

For smaller customer-user bases, the original Call Listing screen can be used, with some modifications for speed gains.

<sup>1</sup>BPO2 v2.5.1.3 or higher. <sup>2</sup>BPO2 v2.5.1.3 or higher.

## **PROCESS ACTION BUTTONS**

- <u>Close</u> a call when there are no further outstanding items on the call. Closed calls can only be viewed in the All status and cannot be re-opened once they have been closed.
- <u>Complete</u> a call once a technician has completed the required work. Outstanding admin work, like updating or Invoicing the call, can still be done.
- <u>Hold</u> will place a call on hold when work needs to be stopped while a customer issue is being resolved. The SLA monitor will be "paused" until the call has been released from hold.
- <u>Pending</u> differs from hold, in that work will be stopped to resolve an internal company issue, such as unavailability of stock. The SLA Monitor will continue to run for calls in this status.
- <u>Release</u> a call that has been placed on hold or pending. The call will move back to the New status where it can be re-assigned.
- <u>Reinstate</u> a call that has been closed. The call will move back to New status where it can be re-assigned.
