

ACCOUNTS

ACCOUNT DRIVERS - PRODUCTION - NON SERIALISED FINISHED GOODS

An accounts driver is an event that will check the transaction you are busy with on Nucleus Service and verify whether there is a financial effect to be posted to Nucleus Accounts or Sage Evolution. Refer to the <u>Account Driver</u> <u>Introduction</u> manual for more information.

The example below is based on the Non-Segmented 'Base' General Ledger.

PRODUCTION - NON SERIALISED FINISHED GOODS (PADJ)

After a Production Run, the cost of the manufactured goods is cleared from Manufacturing Work in Progress and posted to the Stock Control Account.

TRANSACTION POSTING
