

# ACCOUNTS

## ACCOUNT DRIVERS - STOCK REVALUATIONS - INCREASE

An accounts driver is an event that will check the transaction you are busy with on Nucleus Service and verify whether there is a financial effect to be posted to Nucleus Accounts or Sage Evolution. Refer to the [Account Driver Introduction](#) manual for more information.

The example below is based on the Non-Segmented 'Base' General Ledger.

### STOCK REVALUATIONS - INCREASE (REVI)

Stock Revaluations will have financial impact on the Stock Control account. The revaluation suspense account holds the difference between the value of the stock before and after revaluation.

#### TRANSACTION POSTING

---

Dr/Cr	Description	Debit Amount	Credit Amount
Dr	Revaluation suspense	100	
Cr	Stock		100

## TRANSACTION SETUP

Dr/C-r	Entry description	Item target account	Value Type	Ignore Segment	Account code	Segment 1 Not used	Segment 2 Not used
