CONTRACTS

INTRODUCTION TO CONTRACT EXPIRY

For expired contracts that remain active, you have the ability to buy back serial numbers that have been selected, if the selected items are customer assets.

THE CONTRACT EXPIRY LISTING SCREEN

Ribbon Select **Contract** > **Contract Expiry**

The **Contract Expiry Management** screen will be displayed.

Select the Site

Your employee user record should be linked to a default site. In this case, the site will auto populate with this default, otherwise the site must be manually selected.

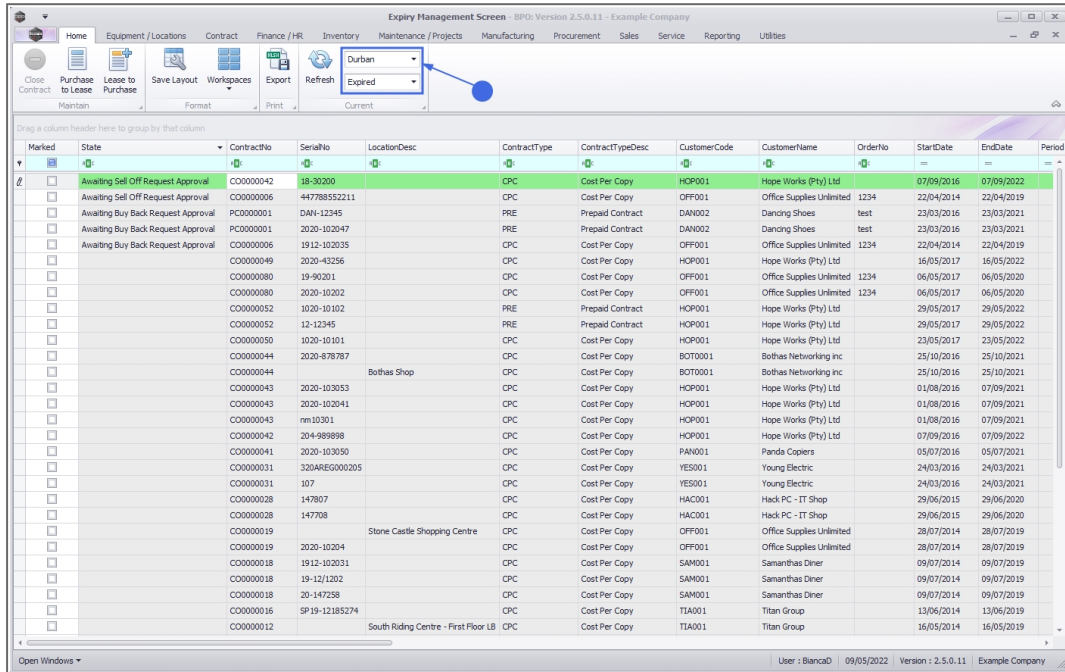

Another site can be selected, if required, and if you have the security rights to access the site.

If **All Sites** displays here, then you do not have a default site configured on your user record, and need to select the required site.

Upon opening, this screen will default to the **Expired** status, listing all the serial numbers on contracts that have expired, indicating the state of the

serial number. The expiry date is based on the contract start date + contract period.

You can view all contracts, regardless of expiry date, by selecting the **All** status.

THE CONTRACT EXPIRY RIBBON ACTION BUTTONS

The ribbon **action** buttons will be available (bold) or unavailable (greyed out) depending on the status selection, and security right access level. The following functionality is available from this screen:

MAINTAIN BUTTONS
