CONTRACTS

CONTRACT EXPIRY – CLOSE CONTRACT

For expired contracts that remain active, you have the ability to buy back serial numbers that have been selected, if the selected items are customer assets.

Buy Back Requests

If there are serial numbers to buy back then the Buy Back Request maintain screen will be displayed for you to edit and save the details as needed. At that point the contract status will change to End of Contract and will be pending closure approval.

If there are Buy Back Requests created, they will be pending approval for processing the Buy Backs. If the closure request is cancelled then the buy-back requests will also be cancelled. The acceptance of the buy-backs will be contingent upon the closure request being approved.

Internal Asset Return Requests

For the closure of a contract where an internal asset is selected, the contract status will change to End of Contract and a work order will be created to process the return upon approval of the closure request.

Ribbon Select Contract > Contract Expiry

The **Contract Expiry Management** screen will be displayed.

Select the Site

Your employee user record should be linked to a default site. In this case, the site will auto populate with this default, otherwise the site must be manually selected.

Another site can be selected, if required, and if you have the security rights to access the site.

If **All Sites** displays here, then you do not have a default site configured on your user record, and need to select the required site.

Upon opening, this screen will default to the **Expired** status, listing all the serial numbers on contracts that have expired, indicating the state of the serial number. The expiry date is based on the contract start date + contract period.

You can view all contracts, regardless of expiry date, by selecting the **All** status.

The screenshot shows the 'Expiry Management Screen' interface. At the top, there is a navigation bar with various menu items like Home, Equipment / Locations, Contract, Finance / HR, Inventory, Maintenance / Projects, Manufacturing, Procurement, Sales, Service, Reporting, and Utilities. Below this is a toolbar with icons for Close Contract, Purchase to Lease, Lease to Purchase, Save Layout, Workspaces, Export, Refresh, and Current. A dropdown menu is open, showing 'Durban' and 'Expired' options. The main area contains a table with the following columns: Marked, State, ContractNo, SerialNo, LocationDesc, ContractType, ContractTypeDesc, CustomerCode, CustomerName, OrderNo, StarDate, EndDate, and Period. The table lists various contracts, including those with states like 'Awaiting Sell Off Request Approval' and 'Awaiting Buy Back Request Approval'. The status 'Expired' is highlighted in the dropdown menu.

CLOSE CONTRACT

Select the Site

Your employee user record should be linked to a default site. In this case, the site will auto populate with this default, otherwise the site must be manually selected.

Another site can be selected, if required, and if you have the security rights to access the site.

If **All Sites** displays here, then you do not have a default site configured on your user record, and need to select the required site.

The Expiry Status filter is set to **Expired** by default. This filter can be changed to view **All** contracts.

- Select the contract that you need to close. Only one line need be selected where multiple items exist on the contract.

- Click on the **Close Contract** button. *Note* that this button will be greyed out if there are pending Buy Back or Sell Off requests for the selected contract.

- Type in the reason for the contract closure.
- Click on the **Save** button.

 Refer to **"Contract Closure Approval"** on page 1 for more information relating to Approving or Declining this Contract Closure.

BUY BACK ITEMS

If customer assets exist on the contract, you will have the option to buy back these items.

- A message box will come up, asking: **Do you want to buy back items on this contract?**
- Select **Yes**

The screenshot shows the 'Expiry Management Screen' with a list of contracts. A dialog box titled 'Buy Back' is open, asking 'Do you want to buy back items on this contract?' with 'Yes' and 'No' buttons.

- A list of available serial numbers that can be bought back (customer assets) will display.
- Select 1 or multiple items, as required.

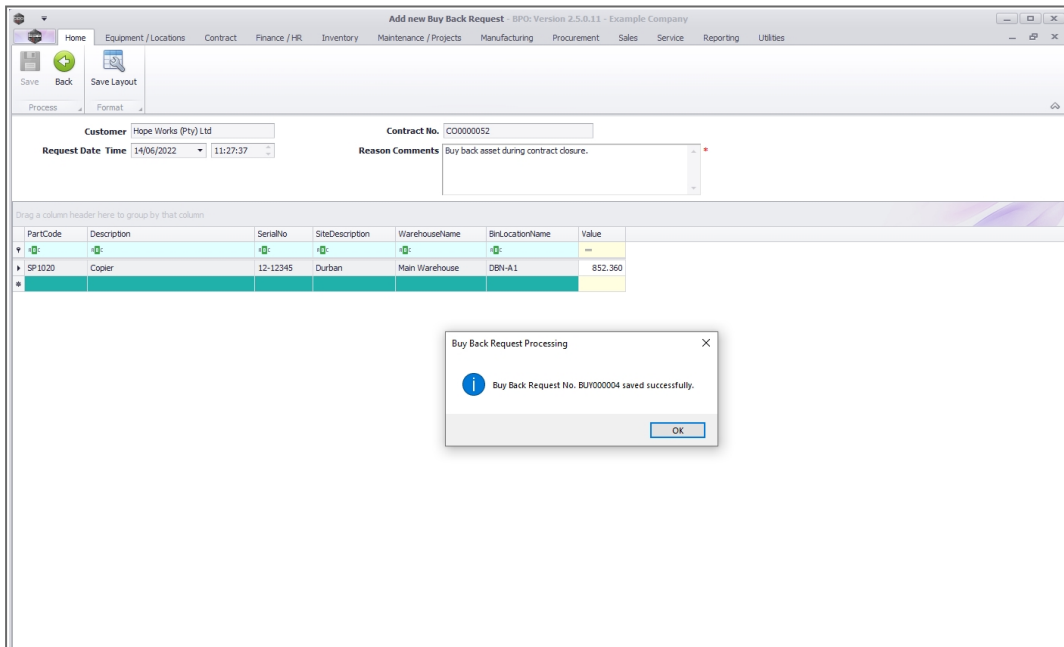

The screenshot shows the 'Expiry Management Screen' with a dialog box titled 'Select Items for Buy Back processing' open. The dialog box contains a table with columns for 'Marked', 'PartCode', 'Description', 'SerialNo', and 'Value'.

Marked	PartCode	Description	SerialNo	Value
<input checked="" type="checkbox"/>	SP1020	Copier	12-12345	852.36

- Update each item with the buy back **Value**.
- Click on the **Save** button.

- A message box will come up, noting: **Buy Back Request No ... saved successfully.**

- The contract status will updated to **End of Contract**, and must be approved in order to complete the closure process.

Refer to "[Contract Closure Approval](#)" on page 1 for more information relating to Approving or Declining this Contract Closure.
