# INVENTORY

## PART REQUESTS – ISSUE STOCK ITEMS

1. Depending on your company configuration, the initial part requests may need to be **authorised** by a technical or service manager before stores will receive the request and the stock can be issued.
2. **Part Issue Notes** and **Delivery Notes** are crucial in **good business practice**.
  - i. **Issue Notes** are evidence of a physical outbound movement of items from the company warehouse to another location. They result in a decrease of items in a warehouse. These notes are internal documents signed by both the storeman and the delivery person (or technician).
    - **Issue Note Scenario:** The storeman will give the delivery person (or technician) the issued items and the Issue Note which they will both sign. Thus stock is recorded as going out by the storeman (1st signature) and is now in the hands of the delivery person (2nd signature) who will take it to the customer. Both signatures ensure that all parties take responsibility for their part in the process and that stock is accounted for.
  - ii. **Delivery Notes** are evidence of the receipt of items from the delivery person (or technician) to the recipient (Customer). They contain details such as the type and quantity of the items delivered. It is imperative to keep records of this document in case there is a discrepancy between what is expected by the recipient (customer)

and what is actually received **e.g.** there could be a shortage of items received or some items may be damaged. These notes are external documents signed by the recipient (customer) and the deliverer. It is good practice to have 2 copies of a Delivery Note - one for your company and one for the recipient (customer).

- **Delivery Note Scenario:** The delivery person (or technician) will arrive at the customer's location. The items being delivered will be checked by the customer for the expected quantity and quality. The delivery person and the customer will sign the Delivery Note with any comments if necessary **i.e.** comment if there is a short-fall or if an item is damaged. The delivery person will bring this document back to the storeman who will match it to the issue note. If there is a problem later and the customer claims not to have received the items, the storeman can check the signed Delivery Note. This document protects both the delivery person and the customer.

**Note:** If you are using the Stock Batch Tracking option, make sure you select the correct Batch Number for C-Class (non-serialised) items, when issuing stock. For more details, refer to [Inventory: Stock Batches](#).

Open Windows 09 Jan 2018

- Select the **Status**.
  - This should be set to **New Request**.

The screenshot displays the 'Part Requests for the Site - BPO: Version 2.1.0.43 - Example Company' window. The interface includes a menu bar with options like Home, Equipment and Locations, Contract, Finance and HR, Inventory, Maintenance and Projects, Manufacturing, Procurement, Sales, Service, Reporting, and Utilities. Below the menu is a toolbar with icons for Add, Edit, Delete, Back, Save Layout, Workspaces, Requisition, Issue, Transfer, Note, Change Whse, Remap Part, and Create Part. A dropdown menu for the 'State' column is open, showing the following options:

State	Name
N	New Request
PR	Requisition raised
PO	Order Raised
GR	Goods Received
OT	Other 1
FN	Other 2

The main table below the dropdown has the following columns: DodNo, SourceType, State, Reference, Priority, PartCode, PartDesc, CustomerName, PartType, and Quantity. The table contains multiple rows of data, including items like 'Network cable', 'SP19-12 Colour ...', 'SP19-12 Black T...', 'Lens', 'Drum', 'Zn Paper', 'Cyan toner SP2020', 'Black toner SP2020', 'Drum', 'Drum for SP1717', 'Apple Juice Inc', 'Black toner SP2020', 'A4 Paper', 'A4 Cardboard B...', 'A4 Clear Platc C...', and 'Black toner SP2020'.

## Single Part Request Issue linked to an Invoice

- Click on the **row selector** in front of the **single part request** that you wish to issue stock for.
  - You will note that this request is not linked to a work order but a single part request linked to an invoice.

Either,

- Click on **Issue**

As this is a single part request not linked to a work order, the system will take you directly to the **Add New Part Issue** screen

- **Reference Type:** This will auto populate with the reference type linked to this part request - in this example, an OTC Sales Invoice.
- **Item:** This will auto populate with the reference number of the reference type linked to this part request - in this example, Invoice **INV000426**.
- **Receiver:** This will auto populate with the person currently logged on to the system. You can click on the drop-down arrow and select an alternative person, if required.
- **Issue Date and Time:** This will auto populate with the current date and time.

- **Date:** You can either type in or click on the drop-down arrow and use the calendar function to select an alternative date if required.
- **Time:** You can either type in or use the directional arrows to select an alternative time if required.
- **Comments:** Type in a comment relevant to this part issue, if required.

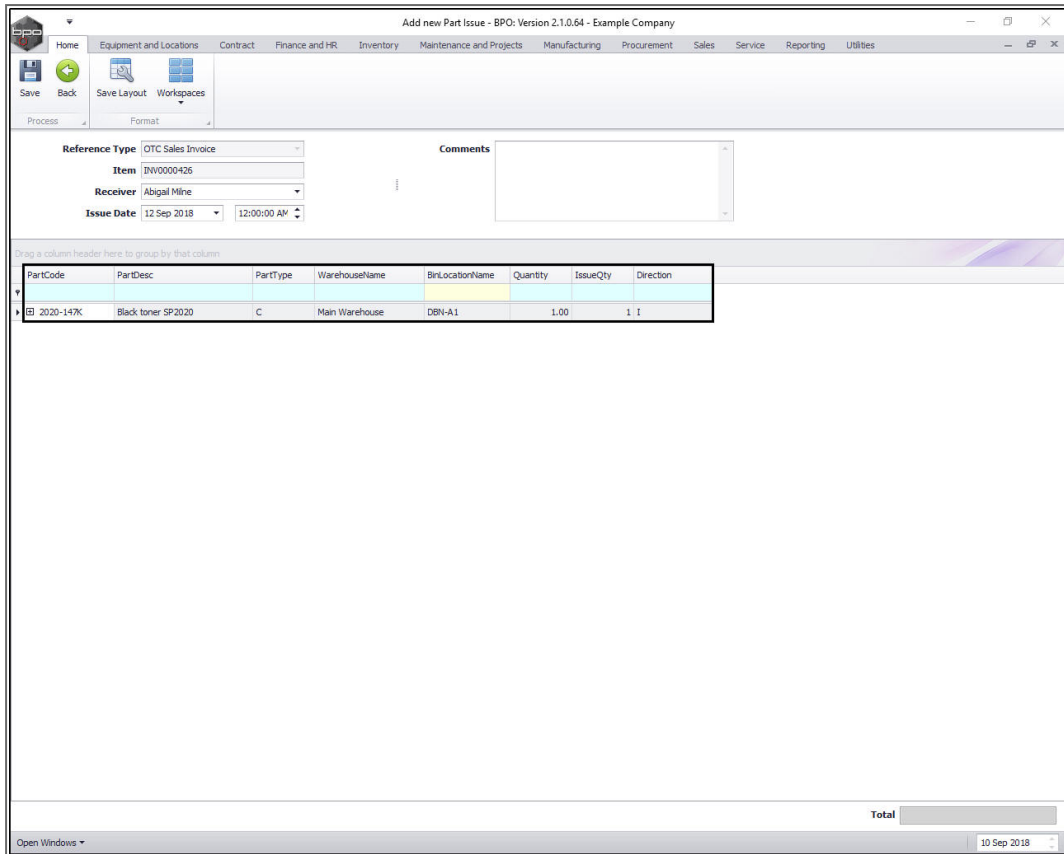

PartCode	PartDesc	PartType	WarehouseName	BinLocationName	Quantity	IssueQty	Direction
2020-147K	Black toner SP2020	C	Main Warehouse	DBN-A1	1.00	1 I	

Move down the screen to the **Parts** data grid.

- **Part Code:** This will auto populate with the selected Part Code.
- **Part Description:** This will auto populate with the selected Part Description.
- **Part Type:** This will auto populate with the selected Part Type.

- **Warehouse Name:** This will auto populate with the warehouse selected on the initial part request.
- **Bin Location Name:** This will auto populate with the **default** bin location linked to the warehouse above.
- **Quantity:** This will populate with the quantity requested on the initial part request.
- **Issue Qty:** This will populate depending on the part type:
  - **A-Class and B-Class Items:** The Issue Qty text box will populate with **0** as you need to manually select the unique serial number of the A or B-Class item to be issued.
  - **C-Class Items:** The Issue Qty text box will populate with the quantity requested on the initial part request that can be issued out from the default warehouse **if there is stock available** in this warehouse.
    - **Note 1:** If the Issue Qty does not equal the Quantity due to short stock then you will either need to [request an inter-warehouse transfer](#) to bring these items into the default warehouse or you will need to follow the process to [procure](#) stock.
    - **Note 2:** You can issue partial quantities by selecting an issue quantity that is less than the requested quantity.
- **Direction:** This will auto populate with **I** - Issue.

PartCode	PartDesc	PartType	WarehouseName	BinLocationName	Quantity	IssueQty	Direction
2020-147K	Black toner SP2020	C	Main Warehouse	DBN-A1	1.00	1.00	I

## Part Issue C-Class items

- The **Issue Qty** text box will auto populate with the quantity requested on the initial part request that can be issued out from the default warehouse (if there is stock available in this warehouse) but you can edit this.
- Click on the **Expand** button in front of the part code.

- The **Issues** frame will be expanded. This will give more detail regarding the stock in the warehouse:
  - i. the Batch Numbers of the items (if Batch tracking is used)
  - ii. the average unit cost of the items (C-Class items only)
  - iii. the available stock quantity (the amount of the item currently in the warehouse bins)
- In this frame, you can now select to issue the part from a specific stock batch number if your company is using the **Stock Batch Tracking option**.
- **Part Code:** This column will populate with the part code of all the stock batches linked to this **part definition** if batch tracking is enabled.

- You will note that **substitute parts** will also be listed in this frame whether batch tracking is enabled or not. Remember, for a substitute item to be displayed, a substitute part should be already linked to the requested part.
- In this example [1] points to Part Code **1020-147K**. This is listed as it is linked as a substitute for Part Code **2020-147K**.
- **Part Description:** This column will auto populate with the corresponding part code description.
- **Model No:** This column will populate with the model no of each part code stock batch if applicable.
- **Part Type:** This column will populate with the part type of each part code stock batch.

The screenshot shows the SAP 'Add new Part Issue' window. At the top, there are navigation tabs: Home, Equipment and Locations, Contract, Finance and HR, Inventory, Maintenance and Projects, Manufacturing, Procurement, Sales, Service, Reporting, and Utilities. Below the tabs is a toolbar with 'Save', 'Back', 'Save Layout', and 'Workspaces'. The main form area includes fields for 'Reference Type' (OTC Sales Invoice), 'Item' (ZNV0000426), 'Receiver' (Abigal Milne), and 'Issue Date' (12 Sep 2018). A 'Comments' field is also present.

Below the form is a table with the following columns: PartCode, PartDesc, PartType, WarehouseName, BinLocationName, Quantity, IssueQty, and Direction. The table contains one row with the following data:

PartCode	PartDesc	PartType	WarehouseName	BinLocationName	Quantity	IssueQty	Direction
2020-147K	Black toner SP2020	C	Main Warehouse	DBN-A1	1.00	1	I

Below this table is an 'Issues' table with the following columns: PartCode, PartDesc, ModelNo, PartType, WarehouseName, BinLocationName, BatchSerialNo, AverageUnitCost, StockQty, RequestQty, Quantity, and Direction. The table contains 11 rows of data:

PartCode	PartDesc	ModelNo	PartType	WarehouseName	BinLocationName	BatchSerialNo	AverageUnitCost	StockQty	RequestQty	Quantity	Direction
2020-147K	Black toner SP2020		C	Main Warehouse	DBN-A1		499.99	191.00	1.00	1	I
2020-147K	Black toner SP2020		C	Main Warehouse	DBN-A1	147	499.99	468.00	1.00	0	I
2020-147K	Black toner SP2020		C	Main Warehouse	DBN-A1	147K-20170605	499.99	603.00	1.00	0	I
2020-147K	Black toner SP2020		C	Main Warehouse	DBN-A1	20170731	499.99	2.00	1.00	0	I
2020-147K	Black toner SP2020		C	Main Warehouse	DBN-A1	65478	499.99	2.00	1.00	0	I
2020-147K	Black toner SP2020		C	Main Warehouse	DBN-A1	AB555001	499.99	1.00	1.00	0	I
2020-147K	Black toner SP2020		C	Main Warehouse	DBN-B1		450.00	150.00	1.00	0	I
2020-147K	Black toner SP2020		C	Main Warehouse	DBN-B1	147K-20170605	450.00	205.00	1.00	0	I
1020-147K	Toner Black		C	Main Warehouse	DBN-A1		391.41	30.00	1.00	0	I

A red circle labeled '1' points to the first row of the 'Issues' table. At the bottom right of the window, there is a 'Total' field and a date field showing '10 Sep 2018'.

- **Warehouse Name:** This column will populate with the **default stock warehouse** linked to each batch number.
- **Bin Location Name:** This column will populate with the bin location of each batch number.
  - If there is stock in more than one bin of the default warehouse, then each bin that contains the requested stock will be listed here.
- **Batch Serial No:** This column will populate with each batch number linked to this part code.
- **Average Unit Cost:** This column will populate with the weighted average cost. This is calculated over multiple batches, within the same bin location.
- **Stock Quantity:** This column will populate with the stock quantity of each batch available in each bin location.

Add New Part Issue - BPO: Version 2.1.0.64 - Example Company

Total

- The system will automatically issue a part from the **first batch** in the list.

## Select a Part from an Alternative Batch

- You can select to issue from an **alternative** batch if required.
- Click in the **Quantity** text box.

The screenshot shows the 'Add new Part Issue' window in BPO: Version 2.1.0.64. The interface includes a menu bar, a toolbar with 'Save', 'Back', 'Save Layout', and 'Workspaces', and a form for 'Reference Type' (OTC Sales Invoice), 'Item' (INV0000427), 'Receiver' (Abigail Mine), and 'Issue Date' (12 Sep 2018). Below the form is a table with columns: PartCode, PartDesc, PartType, WarehouseName, BinLocationName, Quantity, IssueQty, and Direction. A sub-table titled 'Issues' is expanded, showing a list of items with columns: PartCode, PartDesc, ModelNo, PartType, WarehouseName, BinLocationName, BatchSerialNo, AverageUnitCost, StockQty, RequestQty, Quantity, and Direction. The first row in the 'Issues' table is highlighted, and the 'Quantity' cell (1) is selected with a mouse cursor. A 'Total' field is visible at the bottom right of the table area.

PartCode	PartDesc	PartType	WarehouseName	BinLocationName	Quantity	IssueQty	Direction
2020-147K	Black toner SP2020	C	Main Warehouse	DBN-A1	1.00	1	I

1020-147K	Toner Black		C	Main Warehouse	DBN-A1		391.41	30.00	1.00	0	I

- Either type in or use the directional arrows to set the quantity to **0**.

- Click in the **Quantity** text box in the row of **alternative batch number** that you wish to issue this part from.
- Either type in or use the directional arrows to type in the quantity requested from the alternative batch number.
  - **Note 1:** The system will prevent you from issuing more than the total quantity on the request item. (An **Error** message box will pop up)
  - **Note 2:** The system will prevent you from issuing more than the Stock Quantity. (An **Error** message box will pop up)
  - **Note 3:** You can select from more than one batch. For example if **5** toners have been requested. You can select **2** from one batch and **3** from an alternative batch.

Report Generation

Do you want to print the delivery note S100000784?

Yes No

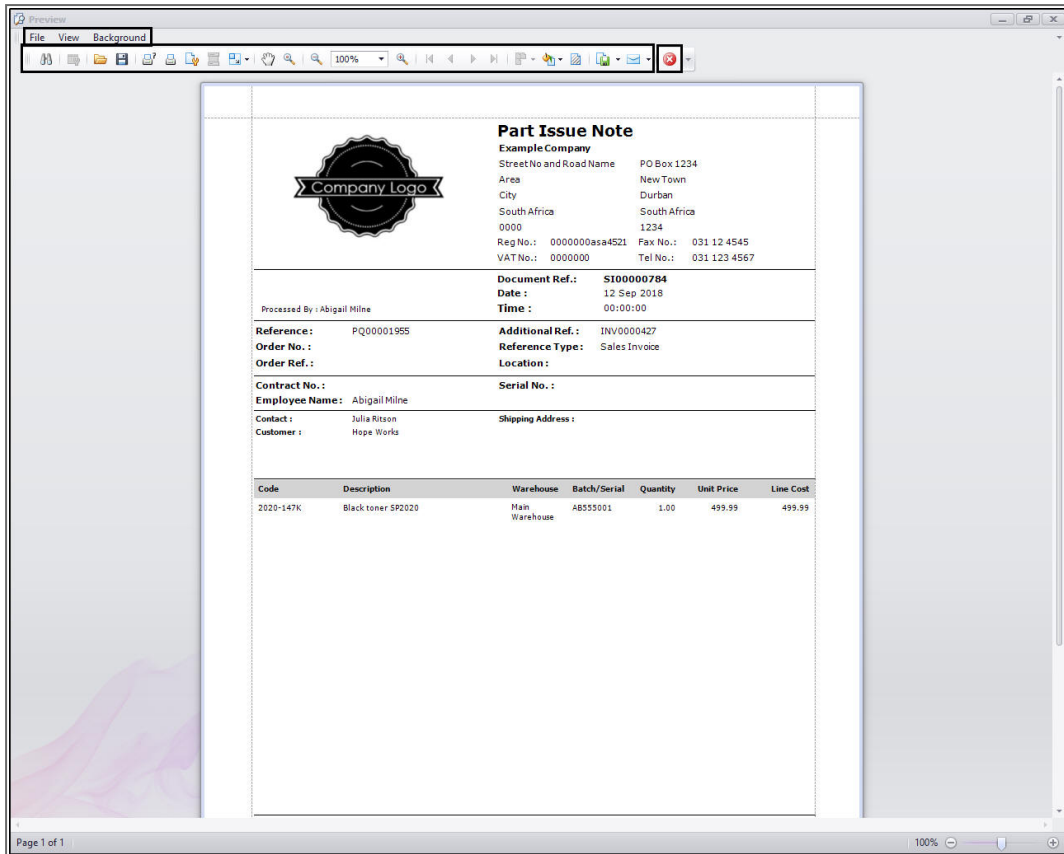

Total 499.99

Open Windows | 10 Sep 2018

- The **Report Preview** screen for the **Delivery Note** will pop up first.
- From here you can **View, Print, Export** or **Email** the Delivery Note.
- **Close** the Report Preview screen when done.

- You will then see the **Part Issue Note Report Preview** screen.
- From here you can **View, Print, Export** or **Email** the Issue Note.
- **Close** the Report Preview screen when done.

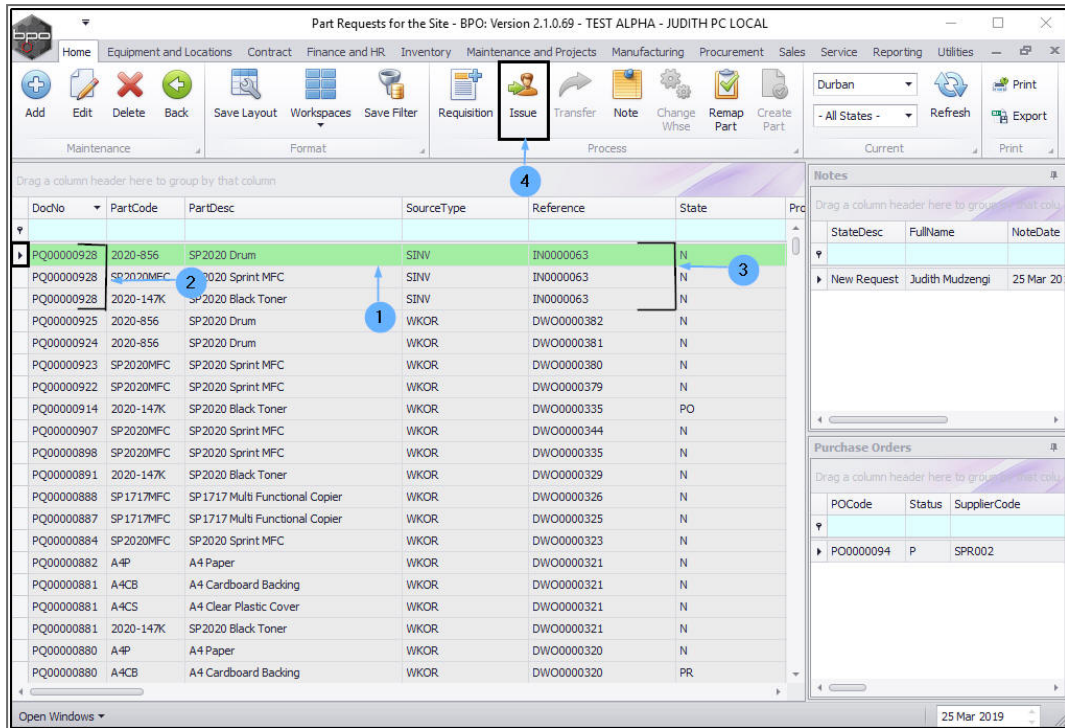

You will return to the **Part Requests for the Site** listing screen.

## MULTIPLE PART REQUEST ISSUE LINKED TO AN INVOICE

In this example, you can see

1. The row selector has highlighted **1** item (**SP2020 Drum**) from the part request **PQ00000928**.
2. There are **3** items linked to this part request.
3. All three items on this part request are linked to one invoice **INV0000063**.
4. Click on **Issue**.

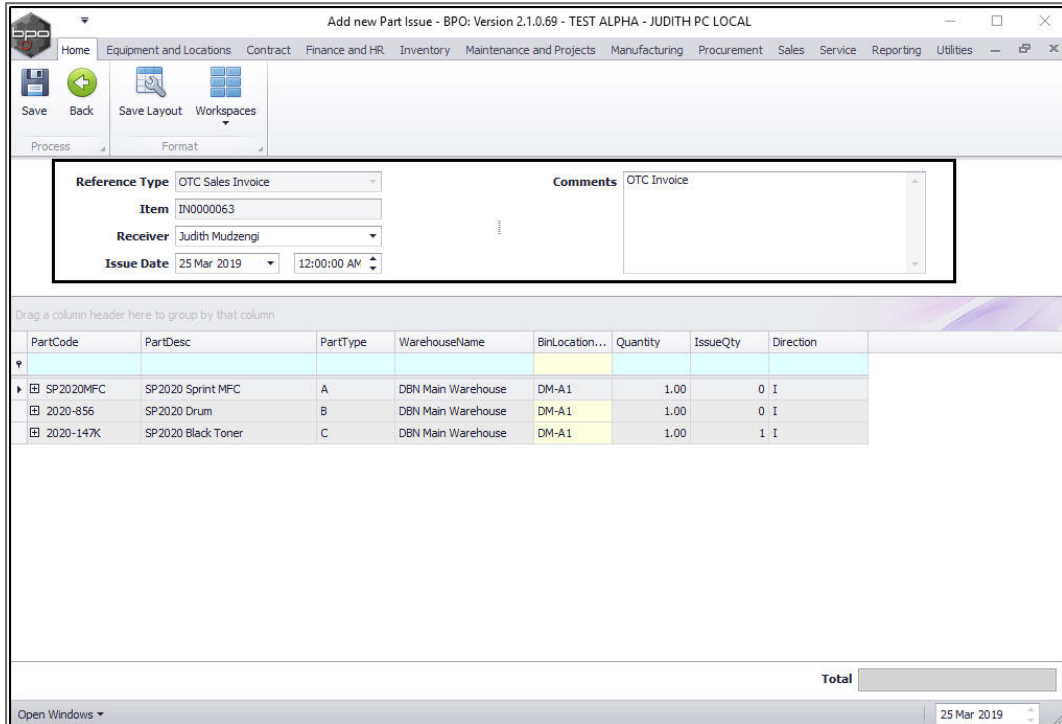

As this is a multiple part request linked to a Sales Order, not linked to a Work Order, the system will take you directly to the **Add New Part Issue** screen.

- **Reference Type:** This will auto populate with the reference type linked to this part request - in this example, an OTC Invoice.
- **Item:** This will auto populate with the reference number of the reference type linked to this part request - in this example, Invoice: **INV0000063**.
- **Receiver:** This will auto populate with the person currently logged on to the system. You can click on the drop-down arrow and select an alternative person, if required.
- **Issue Date and Time:** This will auto populate with the current date and time.
  - **Date:** You can either type in or click on the drop-down arrow and use the calendar function to select an alternative date if required.

- **Time:** You can either type in or use the directional arrows to select an alternative time if required.
- **Comments:** Type in a comment relevant to this part issue, if required.

PartCode	PartDesc	PartType	WarehouseName	BinLocation...	Quantity	IssueQty	Direction
SP2020MFC	SP2020 Sprint MFC	A	DBN Main Warehouse	DM-A1	1.00	0	I
2020-856	SP2020 Drum	B	DBN Main Warehouse	DM-A1	1.00	0	I
2020-147K	SP2020 Black Toner	C	DBN Main Warehouse	DM-A1	1.00	1	I

Move down the screen to the **Parts** data grid. You will see that the system has pulled across all the items linked to the part request, even though only the one item line was selected.

- **Part Code:** This will auto populate with the selected Part Code (s) of the all the items linked to the part request.
- **Part Description:** This will auto populate with the selected Part Description(s) of the all the items linked to the part request.
- **Part Type:** This will auto populate with the selected Part Type(s) of the all the items linked to the part request..
- **Warehouse Name:** This will auto populate with the **default** stock warehouse.

- **Bin Location Name:** This will auto populate with the **default** bin location linked to the default warehouse.
- **Quantity:** This will auto populate with the quantity requested on the initial part request.
- **Issue Qty:** This will populate depending on the part type:
  1. **A-class Items:** The Issue Qty text box will populate with **0** as you need to manually select the unique serial number of the A Class item to be issued.
  2. **B-class Items:** The Issue Qty text box will populate with **0** as you need to manually select the unique serial number of the B-Class item to be issued.
  3. **C-class Items:** The Issue Qty text box will populate with the quantity requested on the initial part request that can be issued out from the default warehouse **if there is stock available** in this warehouse.
    - **Note 1:** If the Issue Qty does not equal the Quantity due to short stock then you will either need to **request an interwarehouse transfer** to bring these items into the default warehouse or you will need to follow the process to **procure** stock.
    - **Note 2:** You can issue partial quantities by selecting an issue quantity that is less than the requested quantity.
- **Direction:** This will auto populate with **I** - Issue.

PartCode	PartDesc	PartType	WarehouseName	BinLocation...	Quantity	IssueQty	Direction
SP2020MFC	SP2020 Sprint MFC	A	DBN Main Warehouse	DM-A1	1.00	0	I
2020-856	SP2020 Drum	B	DBN Main Warehouse	DM-A1	1.00	0	I
2020-147K	SP2020 Black Toner	C	DBN Main Warehouse	DM-A1	1.00	1	I

## PART ISSUE - A OR B-CLASS ITEMS

- Click on the **Expand** button in front of the A / B-Class item Part Code.

Add new Part Issue - BPO: Version 2.1.0.69 - TEST ALPHA - JUDITH PC LOCAL

Open Windows | 25 Mar 2019

1. The **Issues** frame for this A / B-Class item will be expanded.
2. **Average Unit Cost** is set to **0**. This will only populate when the user selects the unique **serial** number of the A or B-Class item to be issued out.
3. **Stock Qty** is set to **0**. This will only populate with **1** when the user selects the unique **serial** number of the A or B-Class item to be issued out.
4. **Request Qty** is set to **1**. Only **1serialised** item can be selected per line e.g. if your requested quantity is 2, then 2 lines will be displayed, each with a Request Quantity of 1.
5. **Quantity** is set to **0**. This will only populate with **1** when the user selects the unique **serial** number of the A or B-Class item to be issued out.
6. Click in the **Batch Serial No** text box.

- An **ellipsis** button will be revealed.
- Click on this button to display the **Select a serial no. for this issue** pop up screen.

- Click on the **row selector** in front of the serial number of the item that you wish to issue out.
- Click on **Ok**.

1. The **BatchSerialNo** text box will populate with the selected serial number.
2. **Average Unit Cost:** This will now populate with the cost of the selected A or B-Class item to be issued out.  
**Stock Quantity:** This will now populate with **1**.  
**Quantity:** This will now populate with **1**.
3. Collapse the A / B-Class item **Issues** frame when you have finished editing / viewing it.

- A **Part Issue Processing** message will be displayed telling you;
  - **Part Issue [ ] saved successfully.**
- Click on **OK**.

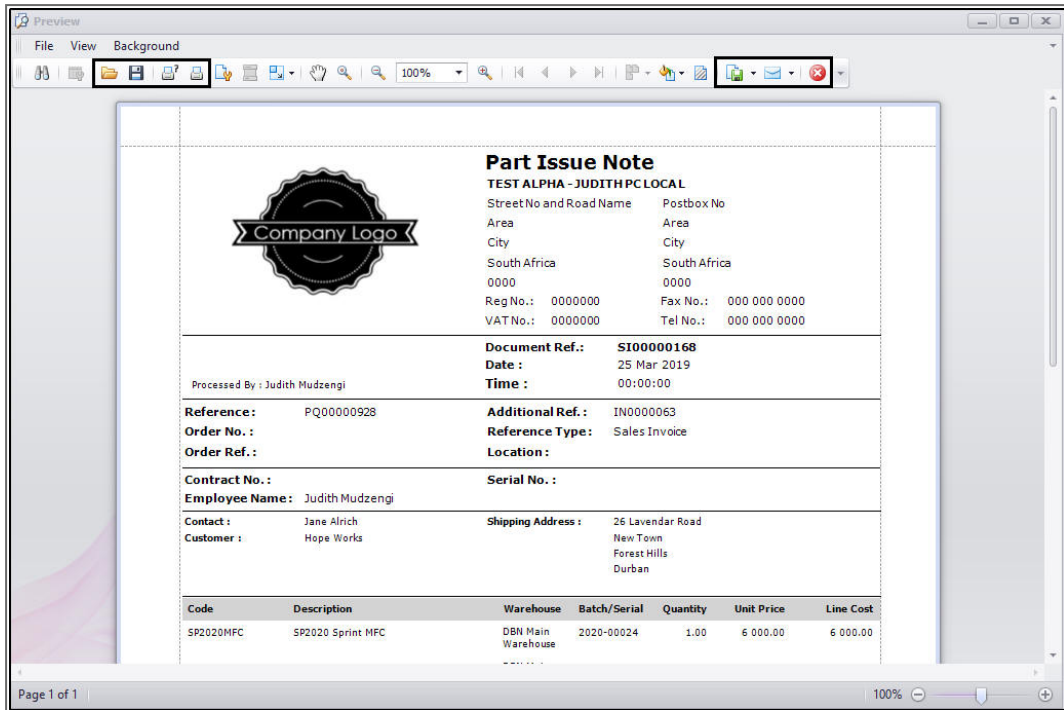

## PRINT PART ISSUE NOTE

- A **Report Generation** message will be displayed asking you;
  - **Do you want to print the part issue [ ]?**
- Click on **Yes** if you want to print the part issue report and **No** if you do not want to print the part issue report.
- For the purpose of this manual, **Yes** was selected.

PartCode	PartDesc	PartType	Wa	Qty	Direction
SP2020MFC	SP2020 Sprint MFC	A	DBI	1	I
2020-856	SP2020 Drum	B	DBI	1	I
2020-147K	SP2020 Black Toner	C	DBI	1	I

 At the bottom right, a 'Total' field shows '6 450.32'. The status bar at the bottom indicates 'Open Windows' and the date '25 Mar 2019'.

- The **Part Issue Note** will be displayed.
- You can **View, Print, Save and Email** this note.
- Click on **Close** to exit this report.

## PRINT DELIVERY NOTE

- A **Report Generation** message will be displayed asking you;
  - **Do you want to print the delivery note [ ]?**
- Click **Yes** if you want to print the delivery note and **No** if you do not want to print on the delivery note.
- For the purpose of this manual, **Yes** was selected.
  - **Note:** This pop up message might be displayed within the **Part Issue Note** screen or **Add new Part Issue** screen.

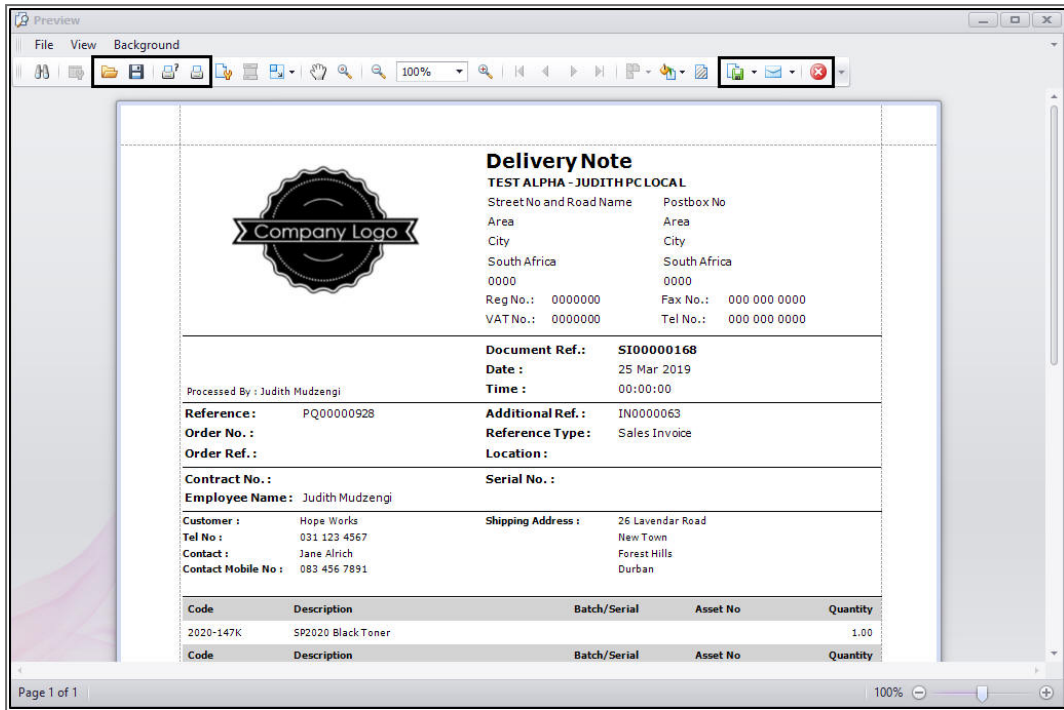

The screenshot shows the 'Add new Part Issue' window in BPO software. The window title is 'Add new Part Issue - BPO: Version 2.1.0.69 - TEST ALPHA - JUDITH PC LOCAL'. The interface includes a menu bar with options like Home, Equipment and Locations, Contract, Finance and HR, Inventory, Maintenance and Projects, Manufacturing, Procurement, Sales, Service, Reporting, and Utilities. Below the menu is a toolbar with buttons for Save, Back, Save Layout, and Workspaces. The main form contains fields for Reference Type (OTC Sales Invoice), Item (IN0000063), Receiver (Judith Mudzengi), and Issue Date (25 Mar 2019, 12:00:00 AM). A Comments field contains 'OTC Invoice'. Below the form is a table with columns for PartCode, PartDesc, PartType, Qty, and Direction. A 'Report Generation' dialog box is overlaid on the table, asking 'Do you want to print the delivery note SI00000168?' with 'Yes' and 'No' buttons. The table data is as follows:

PartCode	PartDesc	PartType	Qty	Direction
SP2020MFC	SP2020 Sprint MFC	A	1	I
2020-856	SP2020 Drum	B	1	I
2020-147K	SP2020 Black Toner	C	1	I

At the bottom right of the window, a 'Total' field shows '6 450.32'. The status bar at the bottom indicates 'Open Windows' and the date '25 Mar 2019'.

- The **Delivery Note** will be displayed.
- You can **View, Print, Save, Email** this note.
- Click on **Close** to exit this report.

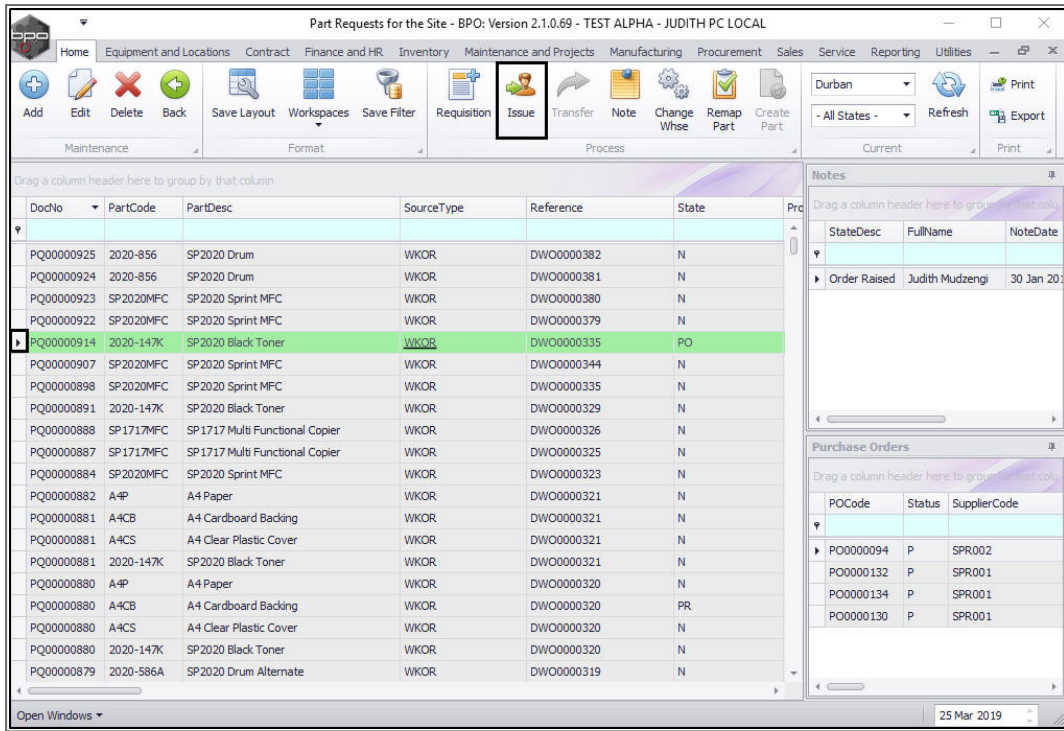

## PART REQUESTS LINKED TO A WORK ORDER

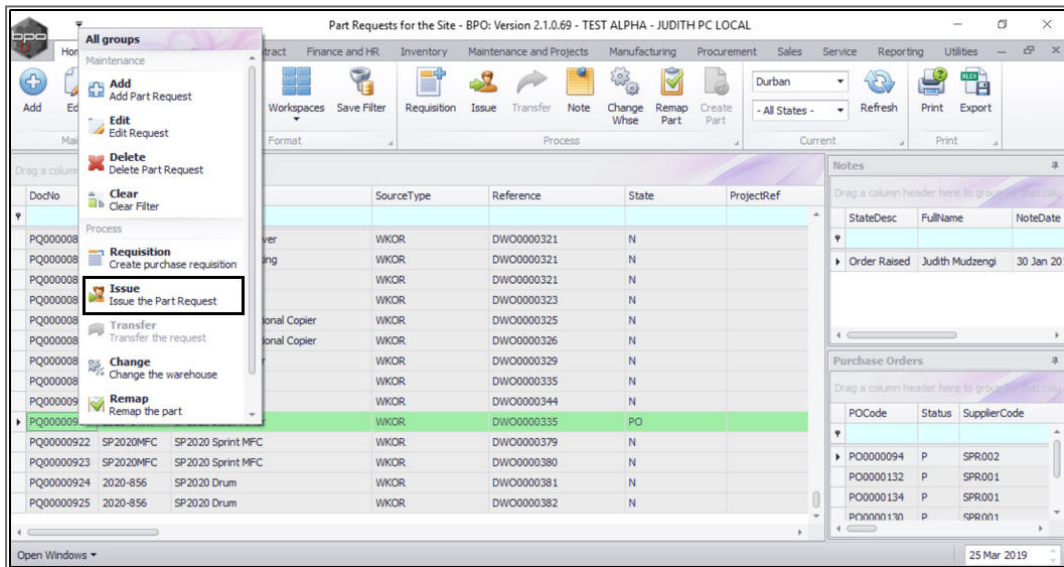

### PART REQUEST ISSUE LINKED TO A WORK ORDER

- Click on the **row selector** in front of the part request linked to a Work Order that you wish to issue stock for.
- You can either click on **Issue**.

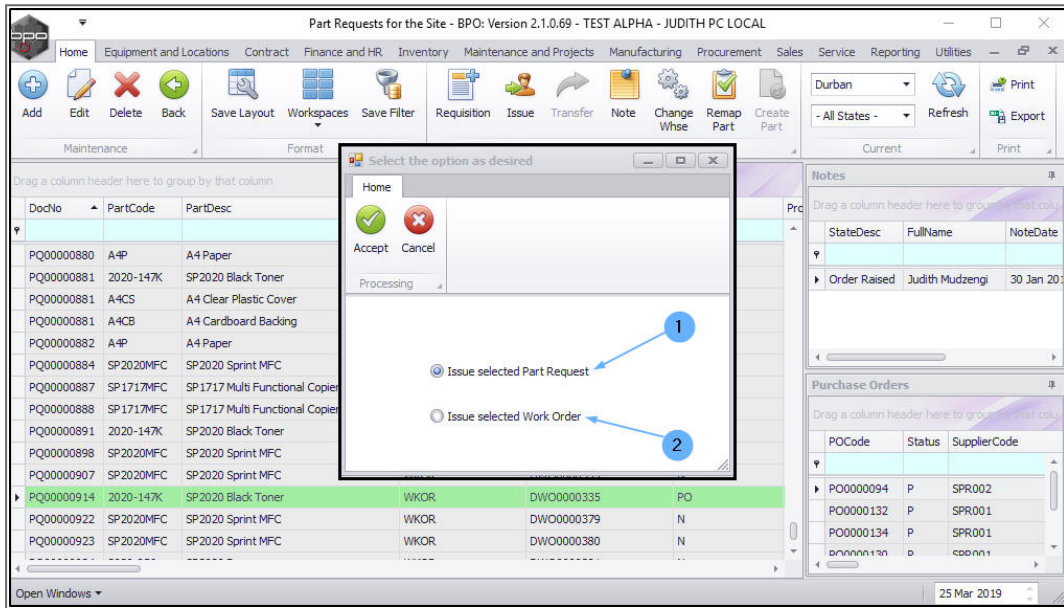

- or you can **right click** and select **Issue** from the menu.

- As this part request is linked to a Work Order, a **Select the option as desired** screen will pop up with **2** options:

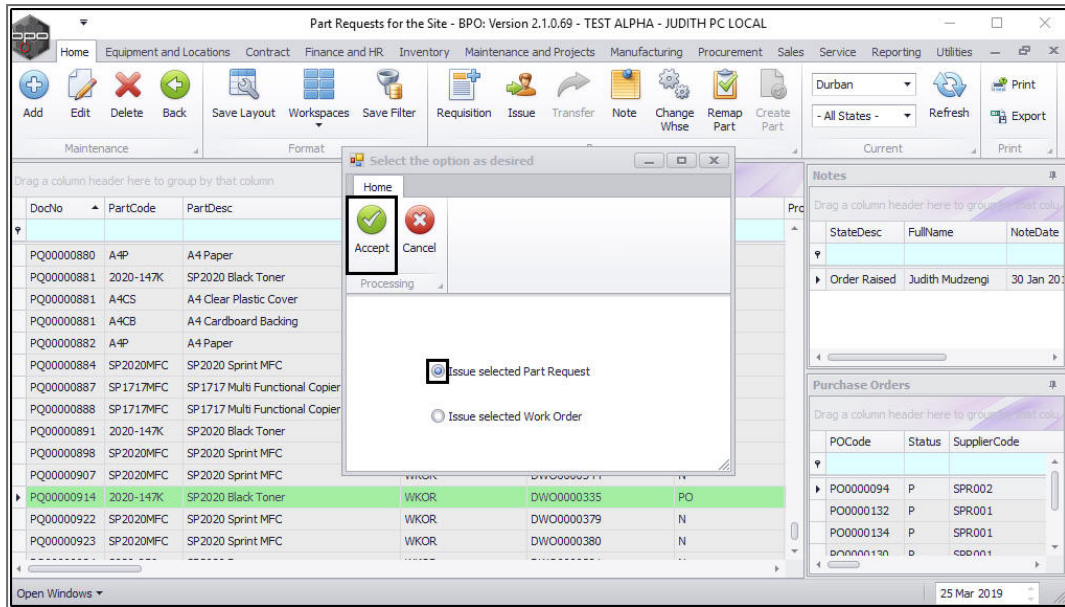

- Issue selected *Part Request*
- Issue selected *Work Order*

1. Select the **Part Request option** if you only want to issue the initially selected part request.
2. Select the **Work Order option** if you want to issue all part requests linked to this work order.

## SINGLE PART REQUEST ISSUE ON WORK ORDER WITH MULTIPLE PARTS REQUESTS LINKED

- In the **Select the option as desired** screen,
- Click on **Issue selected Part Request**.
- Click on **Accept**.

The **Add new Part Issue** screen will be displayed.

- **Reference Type:** This will auto populate with *Work Order*.
- **Item:** This will auto populate with the linked *work order number*.
- **Receiver:** This will auto populate with name of the person currently logged on to BPO2. You can click on the drop-down arrow and select an alternative receiver if required.
- **Issue Date:** This will auto populate with the current date but you can click on the drop-down arrow and use the calendar function to select an alternative date if required.
- **Comments:** Type a relevant comment in this text box if required.

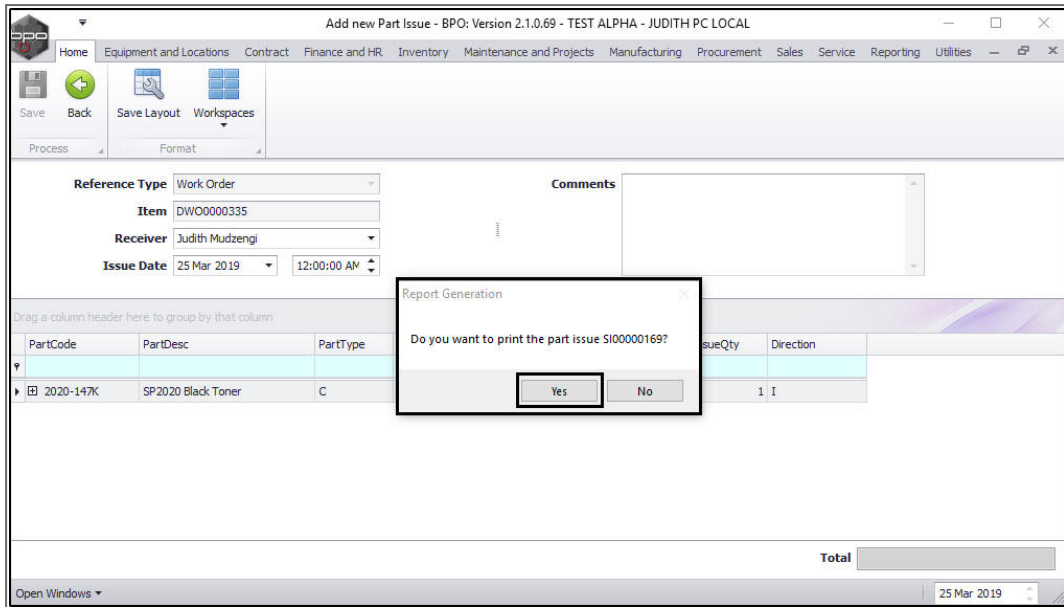

- The Parts data grid will contain only the part requested on the initially selected Part Request. For information on how to issue items, refer to [Part Issue - C class items](#) and [Part Issue - A / B class items](#).
- Check that all the part details are correct.
- Click on **Save**.

- A **Part Issue Processing** message will be displayed asking you;
  - **Part Issue No [ ] saved successfully.**
- Click on **Ok**.

- A **Report Generation** message box will pop up asking;
  - **Do you want to print the part issue [ ]?**
- Click on **Yes** if you want to print the part issue and **No** if you do not.
- For the purpose of this manual, **Yes** was selected.

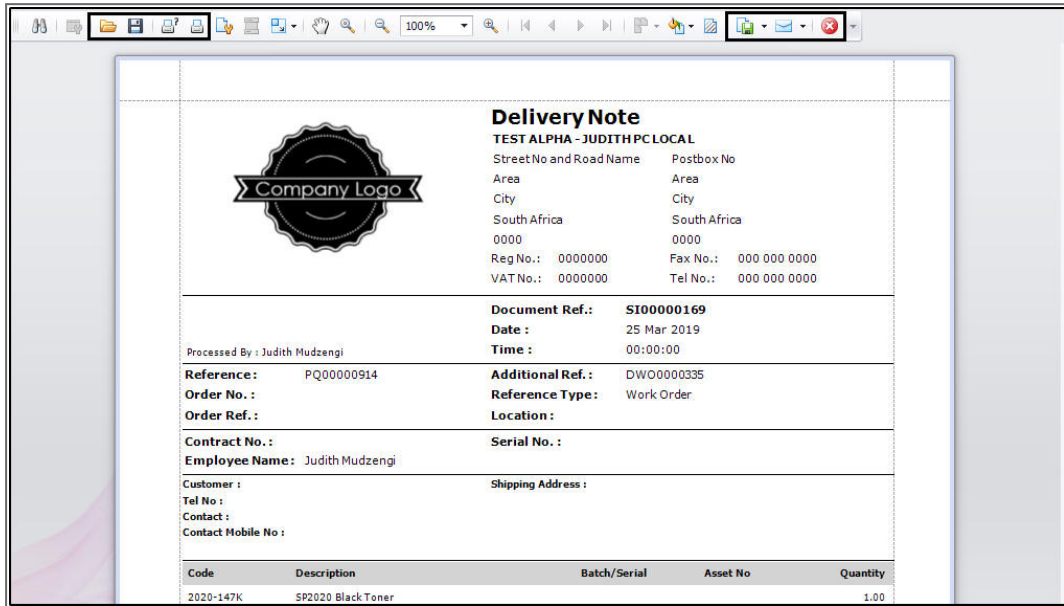

- The **Part Issue Note Preview** screen will be displayed.
- Within this screen, a **Report Generation** message box will pop up asking;
  - **Do you want to print the delivery note [ ]?**
- Click on **Yes** if you want to print the delivery note and **No** if you do not want to print the delivery note.
- For the purpose of this manual, **Yes** was selected.

- The **Delivery Note** will be displayed.
- You can **View, Print, Email, Save** this note.
- Click on **Close** to exit this screen.
