MAINTENANCE

GENERATE TASKS

The task generator will create work orders for tasks that are due, up until the **Generate Until**specified.

Depending on the task setup, the system will generate the work orders as follows:

- Stand-alone work order¹ which can manually be linked to an existing project or call, if required.
- Create a call and underlying work order².
- Create a project and underlying work order³.

The date of the work order generated will be the scheduled **due date** of the task . (The Maintenance Radar will set the call and work order date to the date run).

This may differ depending on;

- whether the task is configured to allow tolerance and a tolerance percentage is set, or
- if the asset / location generation methodology is configured to not include public holidays and / or weekends or specifies a specific day of the week, or a specific week of the year.

Ribbon Access: Maintenance / Projects > Generate Tasks

 1 Create Project on Generation and Create Call flags not set.

²Create Call flag is set.

³Create Project on Generation flag is set.

- 1. The Scheduled Activities Generation screen will be displayed.
- 2. Select the **Site** you wish to generate scheduled activities for by clicking on the down **arrow** to display the site list.
 - The example has **Durban** selected.

Open Windows 🔻				L	Jser : JulandaK	27/05/2021	Version : 2.5.0.0	Example Compa	any v2.5.0.	0

SCHEDULE THE ACTIVITIES

• Generate until: Click in the text box to type in , or click on the down **arrow** to use the calendar function to select the date this scheduled activity generation needs to continue until, e.g. today, a week, month or year from now.

- Assigned By: This field will auto populate with the person currently logged on to the system. Click on the down **arrow** to select an alternative employee from the list, if required.
- Condition Tolerance¹ (%): Click in the text box to **type** in the tolerance (<u>in percentage value</u>) within which the task can be performed, without affecting the next due execution point. This can be left as 0 (zero).
- Only Contract Items: Click in the check box if you wish this scheduled activity generation to only apply to contract items.
- Extrapolation Period (days): Click in the text box to type in the number of days into the future to generate time-based tasks.
 When it is set to 0 (zero), tasks will be generated up until the current day. Set a value to generate future time-based tasks, e.g. prepare and schedule maintenance required for the week ahead.
- **Process Tolerance (%)**²: Click in the text box to **type** in the tolerance (<u>in percentage value</u>) within which the task can be performed without affecting the next due execution point. This field can be left as 0 (zero).

GENERATE WORK ORDERS

4. Click on the Generate Work Orders button.

¹The condition tolerance is related to the maintenance methodology for meter-based tasks.

²The Process Tolerance is related to the maintenance methodology for Time Based tasks.
