MAINTENANCE

TASKS - DIGITAL DOCUMENTS

Documents can be scanned in and then linked to a task instruction.

Remember that these documents need to be saved on the server in a shared folder.

Ribbon Access: Maintenance / Projects > Tasks

- 1. The **Tasks** list screen will be displayed.
- 2. Click on the **row** of the task you wish to link a digital document to.
- 3. Click on the **Documents** tile.

- 4. The Task Documents list screen will be displayed.
- 5. From this screen you can view a list of the documents (if any) that are linked to this task.

ADD DIGITAL DOCUMENT

6. Click on **Add**.

Short cut key: Right click to display the All groups menu list. Click on Add.

- 7. The Task Document Maintain screen will be displayed.
- Click on the search button in the Document text box to display the Select File screen.
- 9. Search for and select the document that you wish to link to this task.

Important to remember that the document needs to be saved on the server in a shared folder to enable all users with the relevant security rights to view the document. If saved and linked from the workstation, another workstation cannot view the document.

10. Click on Open.

DOCUMENT LOCATION DETAILS

- **Document:** This field will populate with the document selected.
- **Repository Path:** This field will populate with to the repository path set up in the Configurator.
- **Description:** Click in the field to type in a description for the document e.g Service Agreement.
- **Doc Type:** Click on the down **arrow** to select the document type from the list.

SAVE THE DOCUMENT LINK

11. When you have finished adding the task document, click on **Save**.
