PROJECTS

PROJECTS - ADD MAIN PROJECT

A Project is a collective group of **jobs** that need to be carried out.

By monitoring a Project, you can keep track of work that has been done, and work that still needs to be done.

- You have the ability to **Projects Invoices** when complete.
- You can create a New Deal Sale / New Deal Rental Project from a Sales Order.

Projects are either '**Open**' or '**Closed**'. Once a project has been closed, it <u>can</u>not be re-opened.

Use **BPO2** to add a project or use the Work Order Allocation in Work Order Allocation - Auto Create Projects to create a project for Maintenance Planning work orders.

Important to Remember that Parts, Labour, Sub-Contracts and Expenses must be logged against the project <u>before</u> invoicing. These items cannot be added to the invoice.

Internal Services, Travel and Warranties can be <u>added</u> to the invoice.

Ribbon Access: Maintenance / Projects > Projects

- 1. The **Project Listing** screen will be displayed.
- 2. Select the **Site** you wish to create the project for.
 - The example has **Durban** selected.
- 3. Click on Add.

Short cut key: Right click to display the All groups menu list. Click on Add.

ADD MAIN PROJECT

If the Project Listing screen lists projects in the Listing frame, then the first project in the list will be selected by default. You will therefore receive a message enquiring

Help v2024.5.0.7/1.0 - Pg 2 - Printed: 21/08/2024

CO3 Technologies (Pty) Ltd © Company Confidential

whether you are creating a sub-project for the selected project.

- 4. You will receive an Add Project message requesting;
 - Is this a branch (a sub project) to the current project PRJ

[project ref number]?

5. Click on **No** to create the main project.

6. The Add a new project screen will be displayed.

IDENTIFICATION

• **Description:** Type in a description¹ for the project you are creating.

¹The project description is a short explanation what the project is all about, e.g. Scheduled Maintenance that needs to be performed.

• **Project Reference:** Type in the Project reference Number.

If the field is greyed out, then the Project Reference has been set to automatically issue the project reference number. Refer to project configuration for more information.

• **Project Type:** Click on the down **arrow** to select the **project type**¹ that applies to the project you are creating.

PARENT PROJECT DETAILS

The fields for **Description** and **Project Reference** have been greyed out as this do not apply when creating the Main Project.

¹Unique - Applies to a project that you will start work on and close, for instance a Customer Installation. Continuous - Applies to a project that will have an expanded duration, for instance a Service Agreement where maintenance may need to take place over a period of time.

• **Customer:** Click on the **Search** button to select the customer you wish to link to the project.

This field can be left blank if the work orders created for this project have no link to customer work.

- i. The **Select the customer for this Project** screen will be displayed.
- ii. Scroll and click in the **row** of the Customer you are creating the project for.
- iii. Click on OK.
