SALES OFFICES - ADDRESS

When configuring Sales Office addresses, it is important to note that a **Billing** address type <u>must</u> be set up, as this address will pull through on the Sales Invoice.

You can also set up **Physical**, **Postal** and **Shipping** addresses.

Ribbon Access: Configurator > Company > Sales Offices

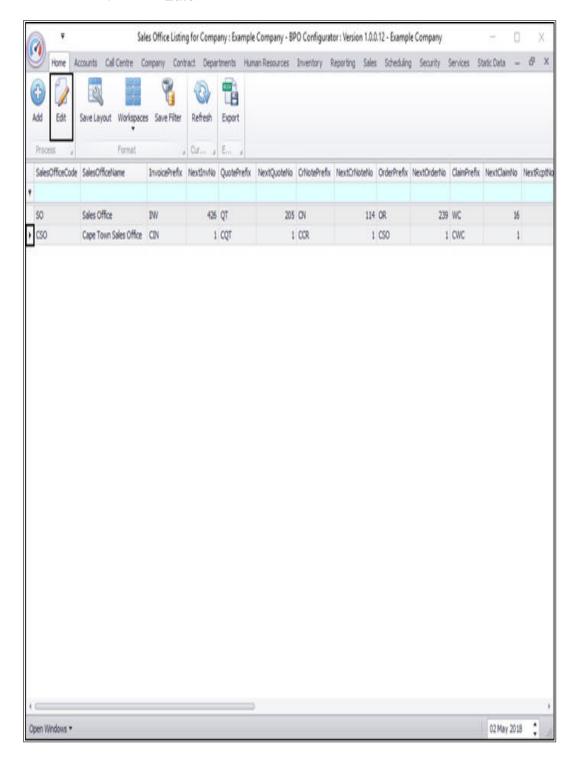

The Sales Office Listing for Company: [] screen will be displayed.

- Click on the **row selector** in front of the **sales office** that you wish to **add** an address to.
- Click on Edit.

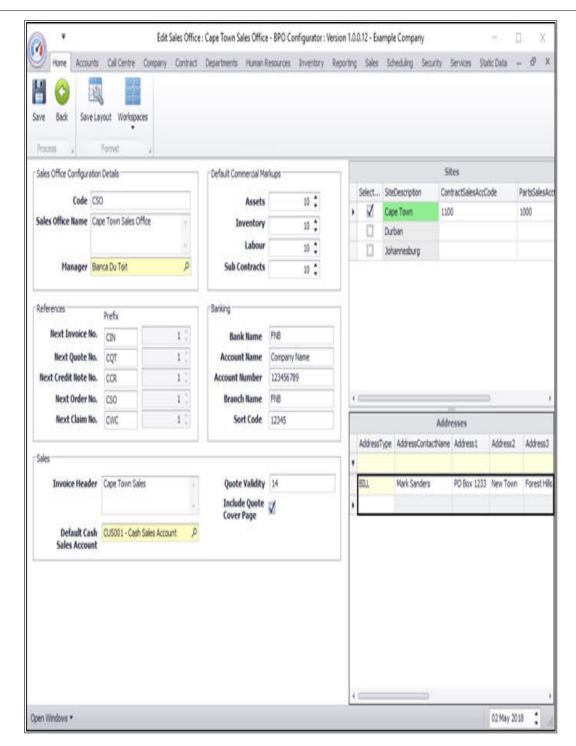

The **Edit Sales Office:** [] screen will be displayed.

Either

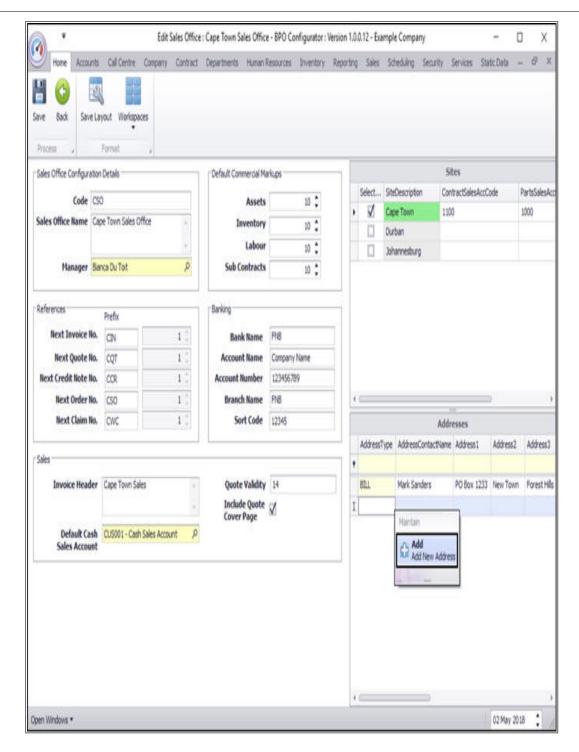

• Right click anywhere in a new row of the Addresses frame.

- A Maintain menu will pop up.
- Click on Add Add New Address

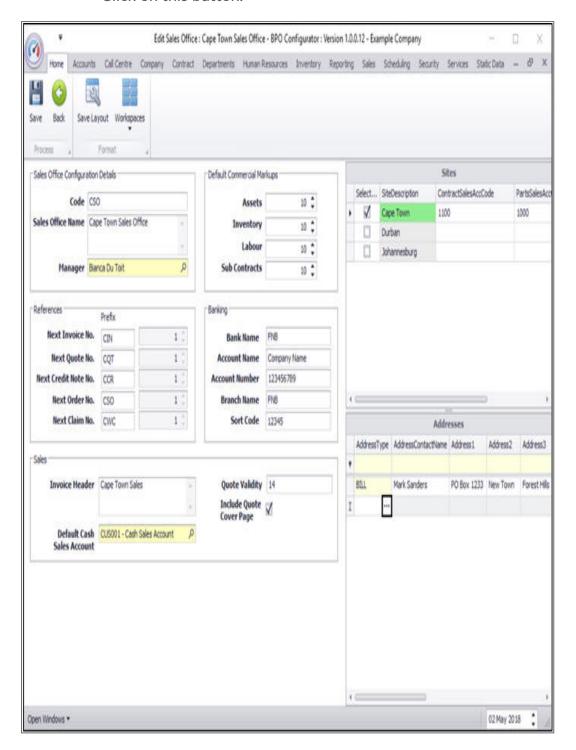

Or

- Click in the **Address Type** text box in the **Addresses** frame.
- An ellipsis button will be revealed.
- Click on this button.

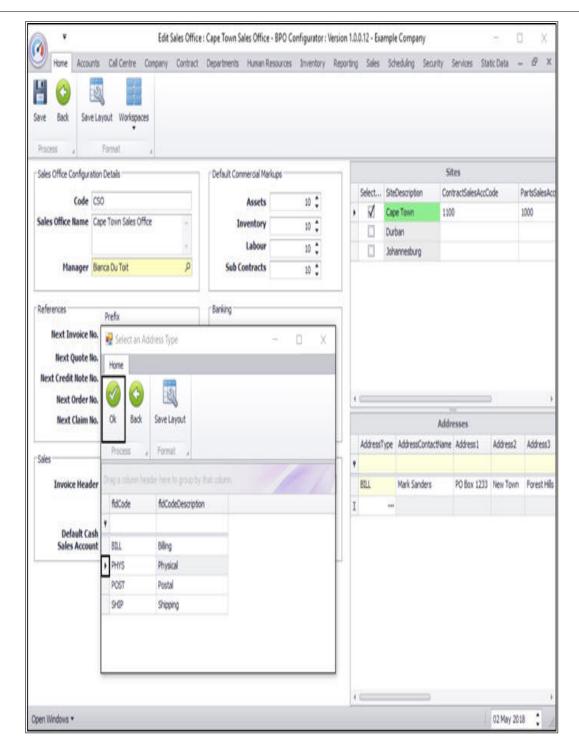

Both methods will bring up the **Select an Address Type** screen.

• Click on the **row selector** in front of the **address type** that you wish to **add** to this sales office.

Note: As a billing address has already been set up on this sales office, a **Physical** address has been selected in this example.

• Address Type: This will now be populated with the address type selected in the previous step.

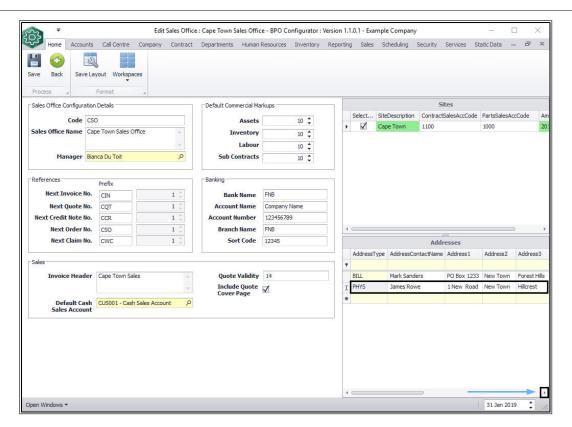

- Address Contact Name: Type in the address contact name.
- Address 1: Type in the first line of the address.

- **Tel Ext:** Type in the extension number.
- Fax No: Type in the fax number.
- Email Address: Type in the email address.

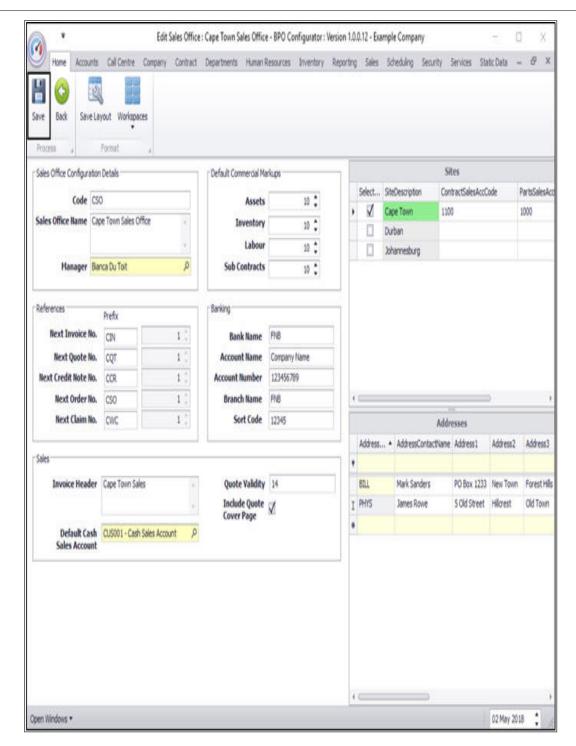

- The last column is the **Default Address** column.
- As the Billing address <u>must</u> be the default address and there can only be <u>one</u> default address, NO has been selected for this new Physical address.

The new address details will be saved and you will return to the
Sales Office Listing for Company: [] screen.
