# CRM CONFIGURATION

## RECOMMENDATIONS

Recommendations are notifications in CRM that that you can view and follow up on.

For example, you may receive a notification that a [Rank Call](#) is due, or a contract expiry or contact birthday is due.

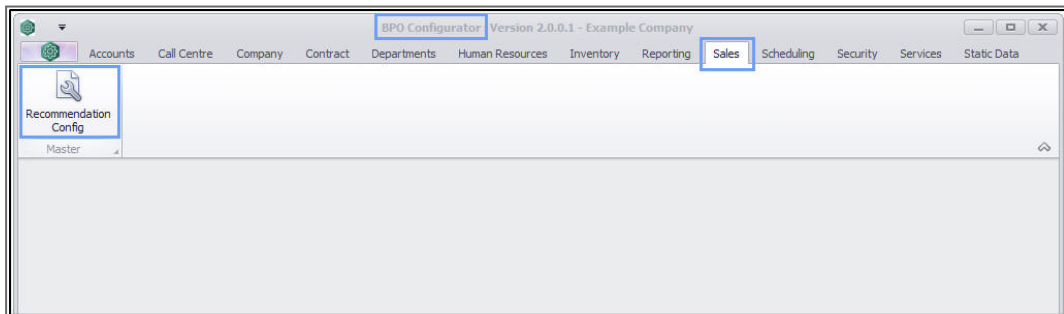

The CRM Recommendation Engine must be installed on the same server as the BPO database and main BPOCRM application, and be set up to run nightly via the Windows Task Scheduler.

These recommendation types are set up and selected in the Configurator.

---

**Ribbon Access:** Configurator > Sales > Recommendation Config

---

1. The **CRM Recommendations Configuration** screen will open.
2. Here you can view a data grid of **Recommendation Types** and
3. **Descriptions**.
4. Select the individual**check box** next to the Recommendation that you

wish to apply to your CRM or

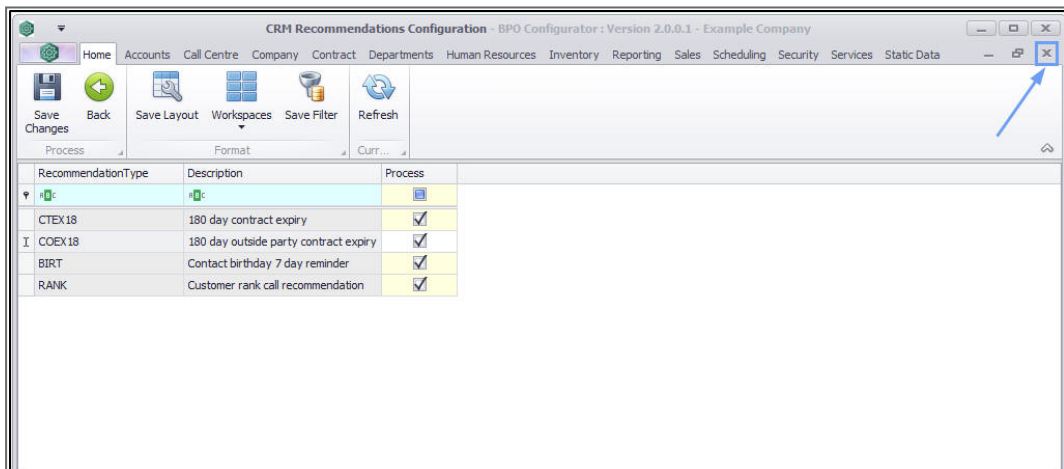

5. Use the **Select All** button to auto select every Recommendation type.

- When you have selected the recommendation types that you wish the system to process,
- Click on **Save Changes**.

- The changes will be **saved**.
- **Close** the screen.
