

We are currently updating our site; thank you for your patience.

CONTRACT

LINK ADDITIONAL ITEMS

You can link additional contract items and accessories to a contract using the process set out below.

Items can only be linked when a Contract is in the **New** or **Active** status.

Ribbon Select Contract > Contracts

The **Contract Listing** screen will be displayed.

Select the Site

Your employee user record should be linked to a default site. In this case, the site will auto populate with this default, otherwise the site must be manually selected.

Another site can be selected, if required, and if you have the security rights to access the site.

If **All Sites** displays here, then you do not have a default site configured on your user record, and need to select the required site.

Upon opening, this screen will default to the **Active** status, listing all the **Active** contracts for the selected site.

- The following columns will auto populate according to your item selection:
 - Part Code
 - Description
 - Category Description
 - Model No if configured on the asset's part code
 - Serial No
 - Asset Register No if configured on the asset

Note: The **LocationDesc** column will not be populated as this is a Machine (asset) Contract item and not a Location Contract Item.

ADD NEW LOCATION ITEM

Instead of linking a serialised item, you have the ability to link a location to the contract. This can be used where a room or building requires maintenance or service.

- 🗘 🔹 Home Equip Save Back Save Layout Workspace PartCode Des ♥ (0: (0: E SP2020 SP2 Functions Contract No Contract Type Cost Per Copy Contract Class Machine Add New Machine Item Start Date 05/07/2016 End Date 05/07/2021 . - The following columns will auto populate according to your item selection:
 - LocationDesc
 - Description
 - Category Description
 - Model No if configured on the asset's part code
 - Serial No
 - Asset Register No if configured on the asset

Note: The PartCode, Description, Category Description, Model No, Serial Number, and Asset Register No columns will not be populated as this is a Location Contract item and not a Machine (asset) Contract Item.

CONTRACT ITEM MAIN DETAILS

Whether you are linking a Machine or Location, the following item details should be configured.

Link Location

This is the location of the contract item, e.g. Reception, used to assist the technician with finding the item on site.

- Click in the **Location** text box.
- Type in a **Location** for this item.

Link Shipping Address

This is the physical address where the contract item is.

A new company config flag (<u>AutoUpdateShippingAddress</u>) is available in BPO2 v2.5.0.8 (or higher) / Nucleus Service to control automated shipping address updates in the system between contract items and equipment shipping addresses/ functional location shipping address and ensures the shipping address correlates to contract items shipping address. When you update the shipping address on a contract the shipping address will reflect on the asset or functional location. If the user updates the asset or functional location's shipping address, the shipping address will reflect on the contract item.

- Click in the Shipping Address text box.
- An ellipsis button will be revealed.
- Click on this button to display the **Select a shipping address** pop up screen.
- Select the **row**of the **shipping address** that you wish to **link** to this item.
- Click on Ok.

Link SLA Hours

- Click in the SLA Hours text box.
- Type in or use the arrow indicators to select the required call response time (in hours) if applicable.
 - Note 1: If this is set up, SLA will apply every time a call is logged against the contract / contract item. SLA will be calculated based on the shift pattern (customer's trading hours) e.g. if the trading hours are from 8am -5pm and a call is logged at 4pm, SLA will start calculating at 4pm and stop at 5pm and resume the following day at 8am.
 - Note 2: For SLA to work, the shift must be set up in BPO Configurator and linked to the customer.
 - Note 3: The SLA Monitoring Service must be <u>installed</u>, <u>configured</u> and running to fully utilise this functionality.

Link Travel Radius and Travel Charge

If you need to ensure travel is charged each time a call is raised for the contract item, set up a **Travel Radius** (distance) and **Travel Charge Rate** (per km). Also see **Travel Radii**.

- Click in the **Travel Radius** text box.
- Type in or use the arrow indicators to select the distance in km to and from the client, if this travel is to be billed every time a call is logged. If travel is included, then set this to **0**.
 - Note: Travel can always be billed separately, if required.
- Click in the Travel Charge Rate text box.
- Type in or use the arrow indicators to select the travel charge rate (e.g. Rand per kilometre).
 - Note: If you input a non-zero value, each time a call is logged against the contract item and the technician travels outside the specified Travel Radius, the Travel Charge Rate will be applied. You will not be able to close the call until the travel charges incurred are invoiced.
