CONTRACT

CONTRACTS – APPROVE A CONTRACT

A new contract will need to first be **Released** and then **Approved** before it will become **Active**.

However, after a contract has been **Approved**, it could be moved back to the **Released** status due to contract amendments, so that the changes can be reviewed and then it will need to be **Approved** again.

A notification email will be sent to users who have the rights to authorise contracts.

These are the types of changes that will trigger the contract being **returned** to the **Released** status:

- any changes to the **Contract Type**, the **Customer** or the **Aggregate Billing flag**.
- if any contract **item** is added or removed
- if any contract item **fee** is added or removed.
- any changes to the **Billing Customer** on a fee or meter.
- any changes to the following **Contract Item Fee** details:
 - Amount, Start Date, End Date, Escalation %, Account Code, COS Account Code, Invoice Description, Billing Period, Billing Cycle, Finance Party, and Finance Amount.

Ribbon Access: Contract > Contracts

The **Contract Listing** screen will display.

- Select the **Site** that you wish to work in.
 - In this image **Durban** has been selected.

- Upon opening, this screen will default to the **Active** status, listing all the **Active** contracts for the selected site.

- Click on the **drop-down arrow** in the **Status** field and select the **Released** status.

The screenshot shows the 'Contract Listing - BPO: Version 2.1.0.43 - Example Company' interface. A dropdown menu is open over the 'Status' column of a table, with 'Released' selected. The table contains various contract records with columns for ContractNo, CustomerCode, CustomerName, CustomerDeptName, ContractType, and dates.
