CONTRACT

ADD ITEM INCLUSIONS

Item Inclusions are items which are included on a contract and should not be billed separately. These items are selected first by category and then by the item within that category.

Examples of Item Inclusion **Category Types** are:

- **Part Inclusion**e.g., toner
- **BOM Inclusion**e.g., machine service BOM
- **Craft Inclusion**e.g., technician
- **Service Inclusion**e.g., call out fee

More than one item inclusion can be added from **each** category type.
