CONTRACT

AGGREGATE BILLING (PRE V2.3.0.0)

BPO2 now accommodates **aggregate billing**.

Where the previous aggregate billing work-around was used, with **Aggregate Meter Definitions**, these contracts should now be reviewed and configured as described in the manual below.

Contracts cannot be configured for **aggregate billing** where the customer is **consolidated**.

Fees - contract **item fees** are still charged / calculated separately.

Meters

- Meter min (minimum) billing is global per meter **type**.
- Each meter type should be configured with the same cost per copy charges on each machine on the contract.
- An aggregate billing contract only supports a single billing customer on meters.

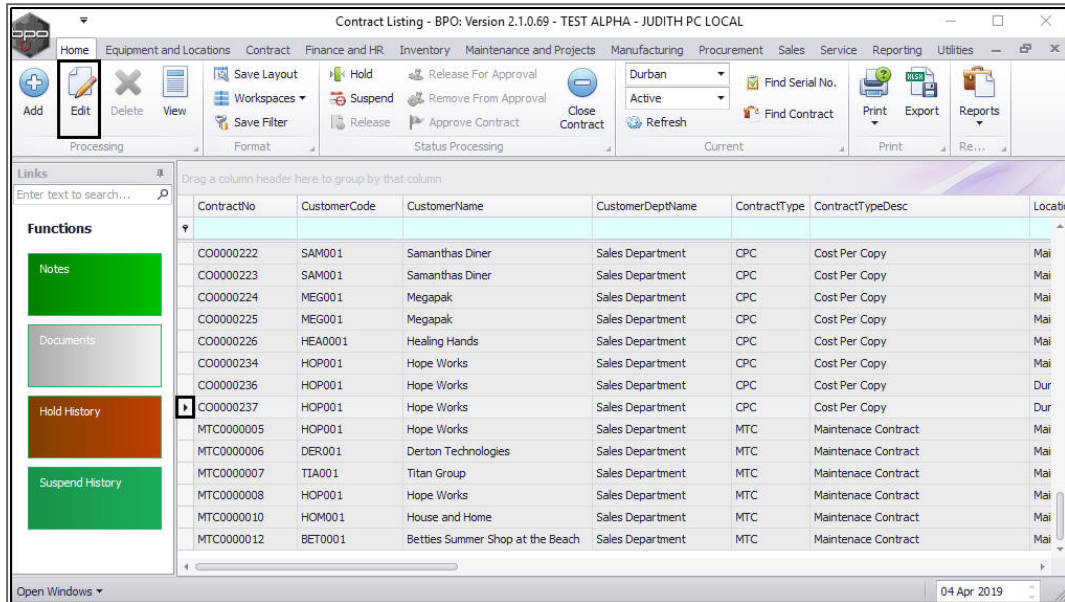

The Aggregate Billing flag can be found in the **Contract Info** panel in the **Add New Contract** screen (when creating a new contract) or the **Maintenance for Contract No.: []** screen (when editing an existing contract).

Ribbon Access: Contract > Contracts

The **Contract Listing** screen will be displayed.

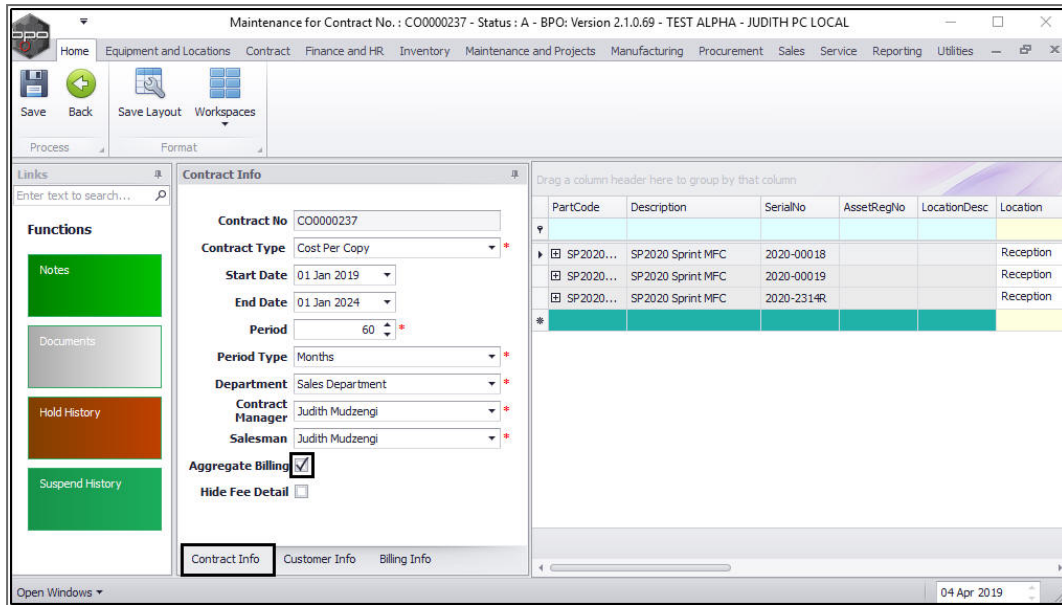

- Click on the **row selector** in front of the contract you wish to view.
- Click on **Edit**.

The **Maintenance for Contract No. : []** screen will be displayed.

THE AGGREGATE BILLING FLAG

- Click on the **Contract Info** tab and check whether the **Aggregate Billing** flag is selected.

Note: If the Aggregate Billing flag is not selected, select it and click on **Save**.

THE ITEMS FRAME

In the **Maintenance for Contract No.:** [] screen,

- Click on the **expand** button in the row of a **Part Code** linked to the contract.

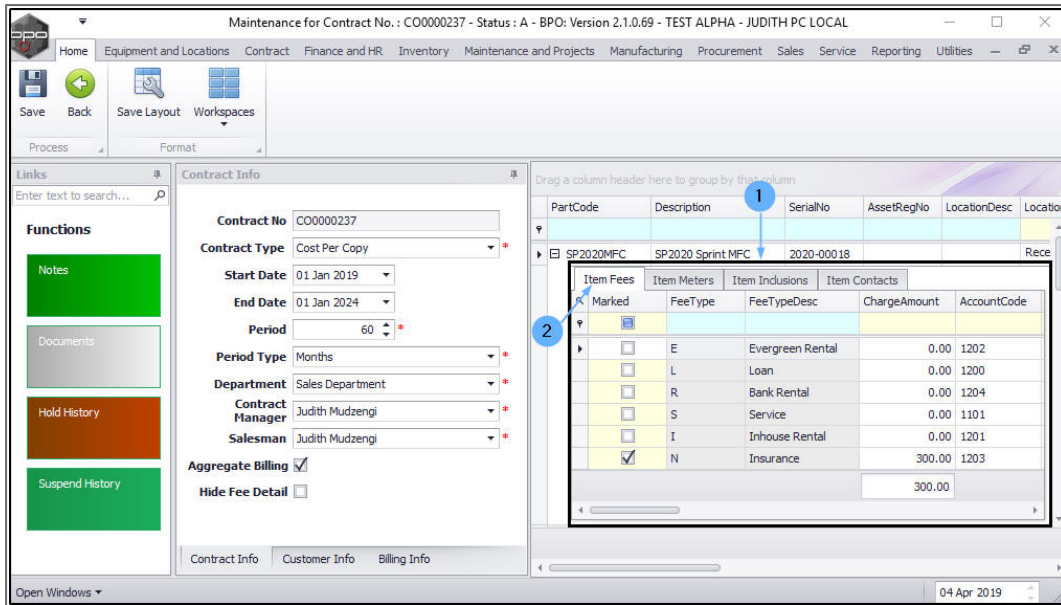

The **Item** frames will be expanded.

1. Here you can view details of the:
 - **Fees**
 - **Meters**
 - **Inclusions** and
 - **Contacts**

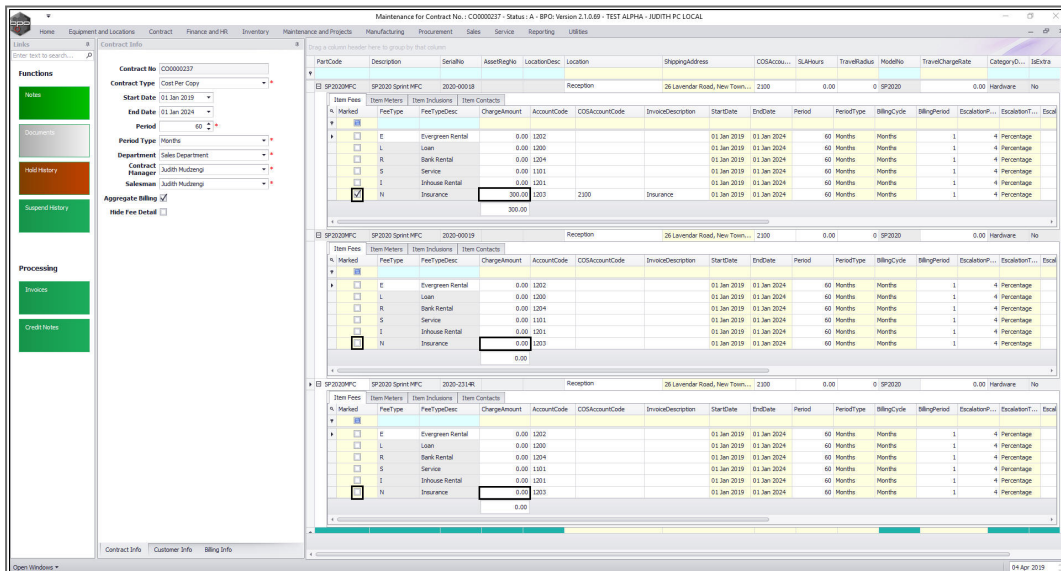

linked to the selected item.

ITEM FEES

2. Select the **Item Fees** tab.

- If you have **1** global fee to charge for all machines, then link that fee to the **first** machine on the contract.
 - In this example, the customer will be billed a **R300** insurance fee for **all three** machines on the contract but only the **first** machine contains the Insurance amount.

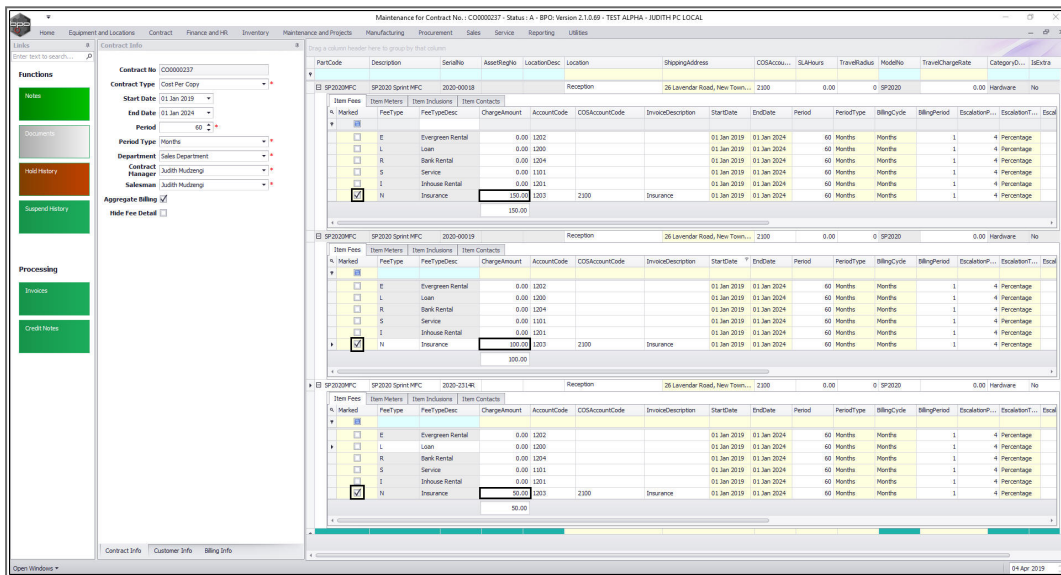

- If each machine has its own insurance charge, then linked those fees accordingly.

For example;

- Serial No: **2020-00018** the charge is **R150**
- Serial No: **2020-00019** the charge is **R100**
- Serial No: **2020-2314R** the charge is **R50**

This will bill the client **R300** in total, but this charge will be **split** per machine.

ITEM METERS

Example:

1. **Mono:**
2. **Min Billing** : R500 (for all three machines)
2. **Min Quantity** : 3000 copies (across all three machines)
3. **Copy Charge** : 5c after total usage of 3000 (across all 3 machines)

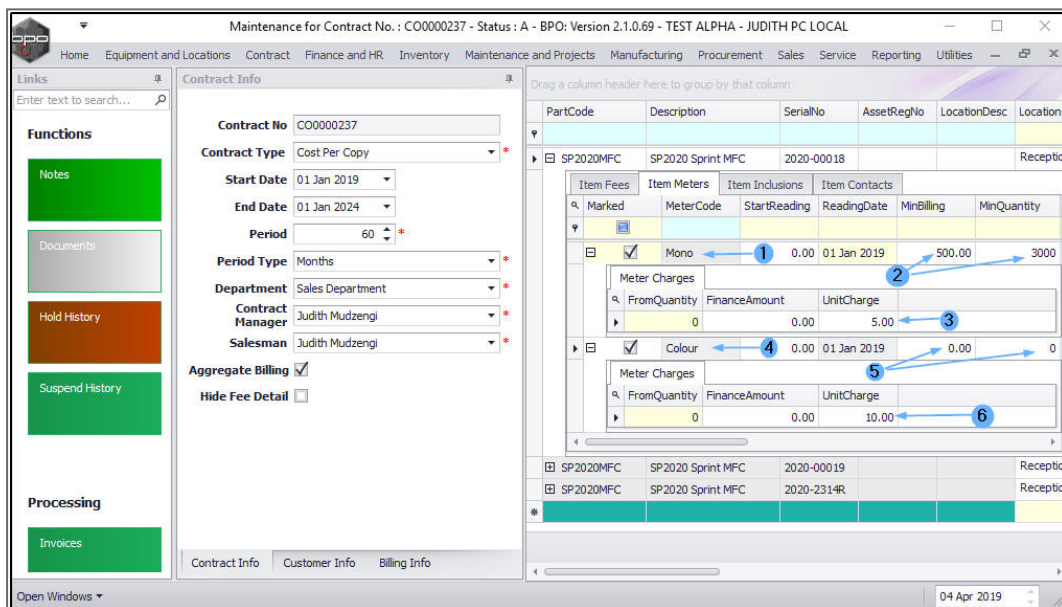

4. Colour:

5. No **Min Billing** or Free Copies
6. **Copy Charge:** 10c

The configuration must be exactly the same on each machine:

- For serial no.: **2020-00018**

1. **Mono Meter**
 2. **Min Billing:** R500, **Min Qty:** 3000
 3. **Copy Charge:** 5c
4. **Colour Meter**
 5. **Min Billing:** 0, **Min Qty:** 0
 6. **Copy Charge:** 10c

- For Serial No.: **2020-00019**

1. **Mono Meter**
 2. **Min Billing:** R500, **Min Qty:** 3000
 3. **Copy Charge:** 5c

4. Colour Meter

5. Min Billing: 0, Min Qty: 0

6. Copy Charge: 10c

- For serial no.;2020-2314R

1. Mono Meter

2. Min Billing: R500, Min Qty: 3000

3. Copy Charge: 5c

4. Colour Meter

5. Min Billing: 0, Min Qty: 0

6. Copy Charge: 10c
