#### **CALLS - MOVE TO PENDING**

**Note** that there are changes to the Call Centre screens due to the Call Centre Performance Enhancements rolled out in part of the Extended Call Centre - Version Compatibility<sup>1</sup>. The functionality that is available to you may differ depending on the Call Centre mode configured and your user rights. For more information related to this, refer to the Call Centre Mode notes.

A call can be placed in a **Pending** status by the Call Centre.

Pending differs from Hold, in that work will be stopped to resolve a **company** issue e.g. there is no stock available to complete the work. The <u>SLA Monitor</u> will continue to run. Refer to <u>Calls</u> - <u>Release a Call</u> for information on how to release a call from pending.

Using <u>Tech Connect</u>, the call will be placed in the **Pending** status when the technician selects <u>End Work</u> on his device, with the <u>Resolution Action</u> as **Unresolved**.

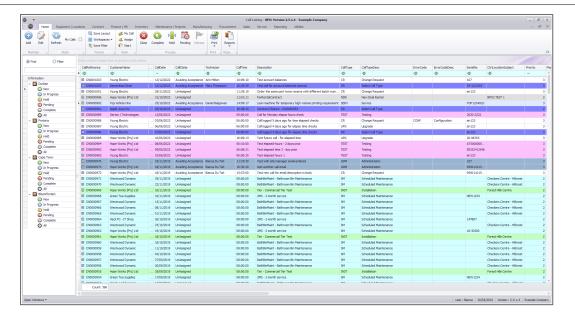

#### Ribbon Select Service > Calls

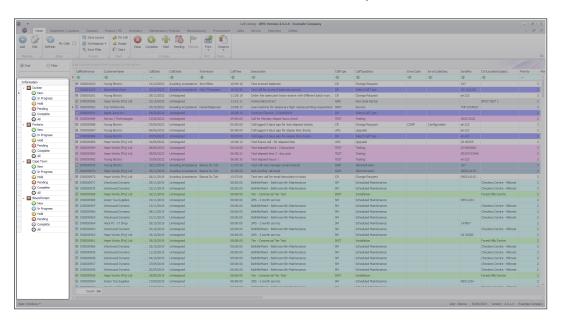

• The Call Listing screen will be displayed.

<sup>&</sup>lt;sup>1</sup>BPO2 v2.5.1.3 or higher

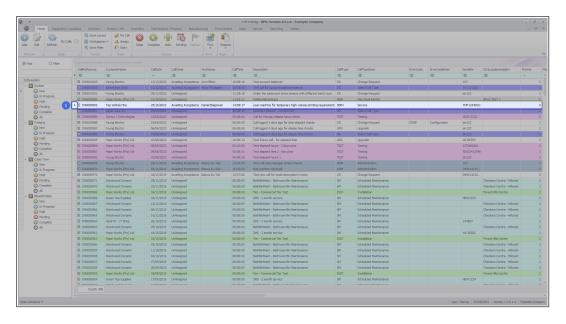

- The Calls are listed by **Site** and will display calls for the first Site listed.
- Click on the relevant **Site** for the calls you wish to view.
