EDIT QUOTE DEFAULT ITEMS

(from the 'Quote Default Items' screen)

Default items are items that are set up to be added to all new quotes.

These are items that a company requires to be quoted **every single time**, and therefore need to be linked automatically, so that the salesman does not need to remember to add them. For example, a company may require a consultation fee and a site inspection fee to be included in every sales quote.

Although these items pull through to each new quote, each item can be individually **removed** from each quote or **edited**, if required.

There are 2 ways to edit these default items:

- i. From the 'Quote Default Items' screen, where only the Quantity can be edited.
- ii. From the 'Add' or 'Edit Customer Quote' screens where you can edit the Quote Item Description, Quantity, Discount and Item Price.

The following process will set out (i) - how to **edit** a quote default item from the **Quote Default Items** screen.
