PROCESS FLOWS

NEW BUSINESS – SALES

NEW DEAL CALL

New Deal Call is a sales process that will create a **Call** for work to be done and invoiced upon completion. This is designed for a single sale without a complicated work requirement, such as a new equipment installation.

- This is a sale to the client (or via a finance house) where the item (s) become the customer's property.
 - Serialised items will become Customer Assets.
 - The part request is automatically logged against the 'Stock Warehouse'.
 - An invoice must be raised for all 'billable' items.
