### **SALES**

## **NEW DEAL CALL SALE / RENTAL PROCESS**

#### **NEW DEAL CALL**

**New Deal Call** is a sales process that will create a **Call** for work to be done and invoiced upon completion. This is designed for a single sale without a complicated work requirement, such as a new equipment installation.

- This is a sale to the client (or via a finance house) where the item (s) become the customer's property.
- Serialised items will become Customer Assets.
- The part request is automatically logged against the 'Stock Warehouse'.
- An invoice must be raised for all 'billable' items.

#### **NEW DEAL RENTAL**

- This is a rental to a client where the item remains the company property.
- Serialised items will remain or be converted to Internal Assets.
- Enforces Internal Assets are issued to the customer in order to link to a contract, but will still remain the company's property.
- The part request is automatically logged against the 'Asset Ware-house'.
- An invoice <u>cannot</u> be raised against internal assets, but can be raised for any other 'billable' items logged on the call e.g. time and expenses.

# TECHNOLOGIES
