

Welcome to NUCLEUS Service Mobile Online Help

Tech Connect is a field service solution that runs on any Android device (phone / tablet) that can be used by businesses to send and receive information from the field based operative. This will update the BPO back office system as soon as the device has connectivity to the internet and the server. The integration between the BPO server and the device is a live link, and there is no need for making calls and sending SMS's to the field
