

## Welcome to Nucleus Accounts Online Help

**BPO** (Business Process Optimiser) is an ERP Accounting software system developed by CO3 Technologies (Pty) Ltd.

We worked with our customers to come up with the perfect business process management software.

This system has an in-built interface to Pastel Evolution. All transactions are posted to the Pastel ledger in real time.

**BPO** manages the following business processes:

Contract management, Call Centre management, Customer relationship management (CRM), Asset management, Warranty management, Maintenance management, Inventory management, Procurement, Sales invoice management
