Net Reports 2.21.0.4 Report Designer 2.14.0.4 - sp_bpoRPT_CR_IssueNote fix (04.07.2018 2:36 PM)

BPO_NetReports **v2.21.0.4** (04.07.2018)

Fix:

- The change to sp_bpoRPT_CR_IssueNote to include fldWeight and fldVolume fields for the Delivery Note dropped the CustomerCode field. This has been resolved in the updated stored procedure.

Notes:

- Fix updated in the NetReports_v2.21.0.4_Upgrade Script
- I will send out a notification when this fix has been integrated in the latest BPO version upgrade scripts.
