VERSION RELEASE NOTES

BPO_Billing for BPOv2 Version List:

[3.0.0.2 - Official Release]

3.0.0.2 - Official Release (04.03.2022 4:50 PM)

- **Release Priority:** High
- **Database Prerequisites**: BPO v2.5.0.8
- **Application Type**: BPO Supporting Application – Task Scheduled Console App

BPO_Billing v3.0.0.2 MODIFICATIONS

- CR79 – A console application for submitting scheduled batches. The app will check for and submit both predefined billing batches and preview batches for processing on the scheduled date of each batch. The app will be run via the Windows Task Scheduler.

Additional Notes:

The BPO Billing Batch Scheduler console application must first be run to submit the scheduled billing batches for processing. Afterwards, the BPO Billing console application can be run to create the invoices and process the information sent from the BPO Billing Batch Scheduler console application.

Rollout Details

- Install BPO_Billing_Setup_x64_V3.0.0.2

- Setup a task in Windows Task Scheduler
