SERVICE

ALL OPEN TICKETS

BPO_Ticketing is an application that gives the user the ability to view and / or work on Calls and / or Projects where they are the owner (responsible person) for the Call or the Project's underlying work order.

It also gives the user the ability to create ticket assignments to pass the work to the next responsible person, as required.

Ribbon Access: Service > All Open Tickets

The All Open Tickets screen will be displayed.

- 1. A list of **all** tickets (Work Orders) for **all** users is displayed.
- 2. You can view tickets (Work Orders) that you have created and assigned to an employee. You can also see any tickets (Work Orders) that other employees have created and assigned.
- 3. All tickets (Work Orders) are listed, regardless of status.
- 4. This screen also lists the:
 - the Work Order Type
 - the Work Order Type Description
 - the work order **Priority** (1 = Most Important, 5 = Least Important)
 - any Notes linked to the work order
 - the Create Date of each work order

IMPORTANT NOTES

Ownership

- 1. **Ownership**: If the user is <u>not</u> the responsible person:
 - i. That user can **take ownership** of the call in **BPO2** by selecting the call in the **Call Listing** screen and clicking on My Call.
 - ii. The Call Centre person can Assign you to be the responsible person in the **Call Listing** screen.

The My Tickets Screen

2. A User can see only tickets specifically assigned to them or what they have assigned to someone in the My Tickets screen.

Unread Tickets

3. Unread tickets: these tickets have <u>not</u> been opened for viewing - the text will be in **bold** and the **Read** column will state **No**.

Read Tickets

 Read tickets: As soon as a ticket is opened for viewing – the text will <u>no</u> <u>longer</u> be in bold and the **Read** column will state **Yes**.

THE TICKET MAINTAIN SCREEN

The Ticket Maintain Screen will open.

- 1. Work Order Description: This is the work order description.
- 2. **Search field**: To search for any ticket in the ticket thread; type in the text and click on **Find**. To clear the search; click on **Clear**.
- 3. **Customization bar**: You can customize the look of the ticket thread to your liking by clicking on any of the **icons**. If you **hover** any icon, the icon description will pop up.
- 4. **Ticket Thread**: This is where all tickets linked to the selected work order are displayed.
 - Note: The tickets are in inverse chronological order. The recently created ticket will always be on top of the list.
- 5. **Assignment**: You can see the assignor, assignee and the date the ticket was created.
- 6. **Comments**: These are the tickets (comments) related to the work order.

Open Windows 🕶								12 Ap	2019	

The **Project Assignment** or **Call Assignment** screen will be displayed.

• Assigned To : Click on the drop-down arrow and select the person you wish to assign the work order to.

Note: You can assign the work order to yourself, if required. For example, if you wished to add information to the detail below.

- **Detail** : This will auto populate with the information linked to the work order but you can edit the text, if required.
- Assignment Date and Time : This will auto populate with the current date and time.
 - **Date** : Either type in or click on the drop-down arrow and use the calendar function to select an alternative date, if required.

- **Time** :Either type in or use the arrow indicators to select an alternative time, if required.
- Assigned By : This will auto populate with the person currently logged on to the system. You can click on the drop-down arrow and select an alternative person, if required.
