Your employee user record should be linked to a default site. In this case, the site will auto populate with this default, otherwise the site must be manually selected.

Another site can be selected, if required, and if you have the security rights to access the site.

- By default, this screen will open with the Type filter set to 'All', listing <u>all</u> of the assets on the system (Customer Assets, Internal Assets and Serialised Stock Items).
- You can click on the drop-down arrow in the Type field and select an alternative Type, (such as Client Machines), if required.

SELECT ASSET TO EDIT

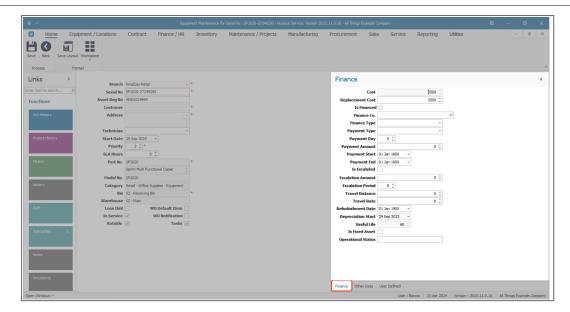

- Select the **row** of the **asset** you wish to **edit**.
- Click on Edit.

- The **Equipment Maintenance for Serial no:** [] screen will open.
