

INVENTORY

PARTS - ADD PART DEFINITION PART METERS

A **Part Meter** (or print meter) is a mechanism within the equipment item that tracks the volume of paper used and the type of print made (**mono** or **colour**).

These meters help monitor usage, estimate equipment lifespan, calculate running costs and budget accordingly.

In summary, **Part Meters** provide essential insights for the efficient management of equipment and resources.

Ribbon Select Inventory > Parts

- The **Part Listing** screen will be displayed.
- The data grid will display a list of all the part definitions currently on the system.
- Click on Add.

- The Add new part screen will open.
- Follow the process to add the part definition <u>Details</u> and <u>Defaults</u>.
- Follow the process to <u>Add a part definition BOM Allocation</u>, if required.
- Move further down the right hand side of the Add new Part screen to the **Part Meters** panel.
- This panel will list all the available meters.
- In the **Selection** column select the check boxes in front of the meter you wish to link this part definition.

Note: You will only be able to link a meter to an A or B-Class part definition. C-Class parts do not have meters linked to them.
