

INVENTORY

PART REQUESTS - REMAP PART

If a part request was raised for an incorrect part, the store person can **remap** the request to the correct part. This can be done directly from the **Part Requests** screen.

Ribbon Select Inventory > Part Requests

- The Part Requests for the Site screen will display.
- The Site filter will be set according to your company configuration. If required, select the Site you wish to work in.

Note: Refer to Site Selection for more information.

 The State filter will default to 'All States' upon opening. You do not need to select a specific State to proceed with the Remap Part process.

Note: Refer to State/Type Selection for more information.

 The list of part requests displayed will be dependant on the Site and State selected.

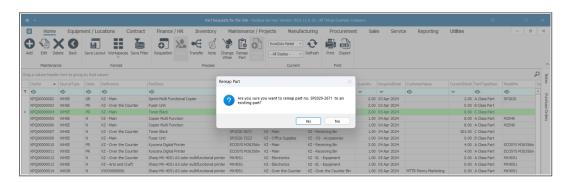

SELECT PART REQUEST

- Select the **row** of the part request where you wish to remap the part.
- In this image, part request KPQ0000004 for part code SP2020-2671 is selected.
- Click on Remap Part.

- A **Remap Part** message will pop up with the following prompt:
 - Are you sure you want to remap part no. [] to an existing part?
- Click on Yes.

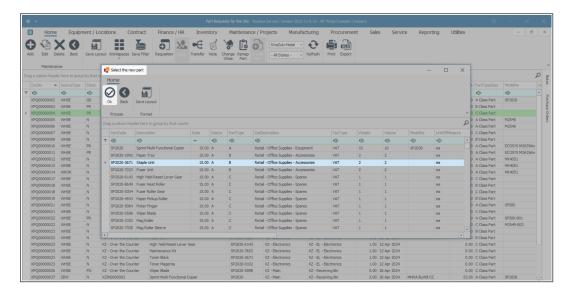

• A Select the new part screen will pop up.

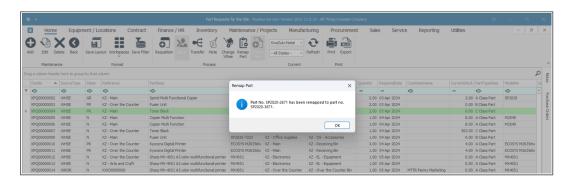

REMAP THE PART

- Select the part to which you wish to remap this part.
 - ° In this image, part code **SP2020-3671** is selected.
- Click on OK.

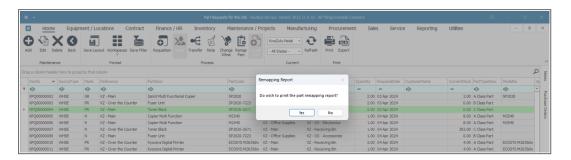

- A Remap Part message box will pop up advising the following:
 - Part No [] has been remapped to part no [].
- Click on Ok.

PRINT REMAPPING REPORT

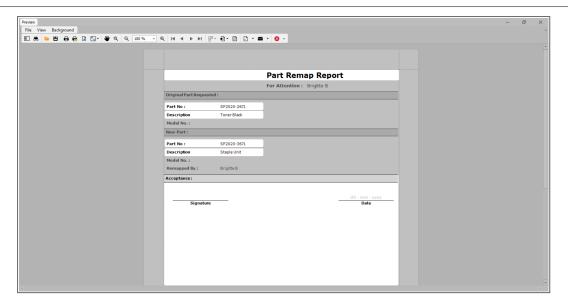

- The Remapping Report message will pop up with the following prompt:
 - Oo you wish to print the part remapping report?
- · Click on Yes.

- The Preview screen will open with the Part Remap Report displayed.
- The **original** part that was requested is documented. In this example: **SP2020-2671** Toner Black.
- The part that the request has been remapped to is documented.
 In this example: part SP2020-3671 Staple Unit.
- You can use the Preview toolbar to print, email, add a watermark, and export the document.
- The employee who remapped the part (usually the store person) is recorded.
- Close the screen when you are done.

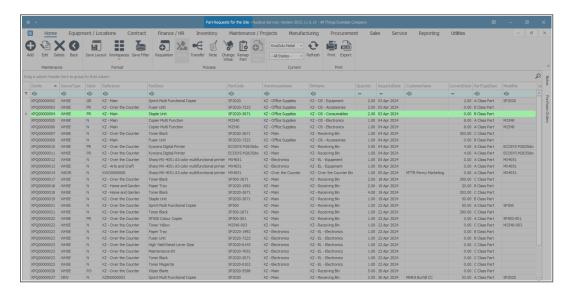

Part Requests - Remap Part

VIEW REMAPPED PART

- You will return to the Part Requests for the Site screen.
- The part request **KPQ0000004** is no longer linked to the original part (SP2020-2671) but to the remapped part:**SP2020-3671**.
