PROCUREMENT

REQUISITIONS – ADD, EDIT, DELETE ITEM SUPPLIER

Once you have created a purchase requisition, you may be required to **add**, **edit** or **remove** a supplier, or make changes to the items supplied, **e.g.** change the price.

Linking a supplier to the **purchase requisition**, will pull through the supplier's details to the **procurement** documentation. It will also give you the ability to add the **unit cost** and **lead time** specific to the selected supplier.

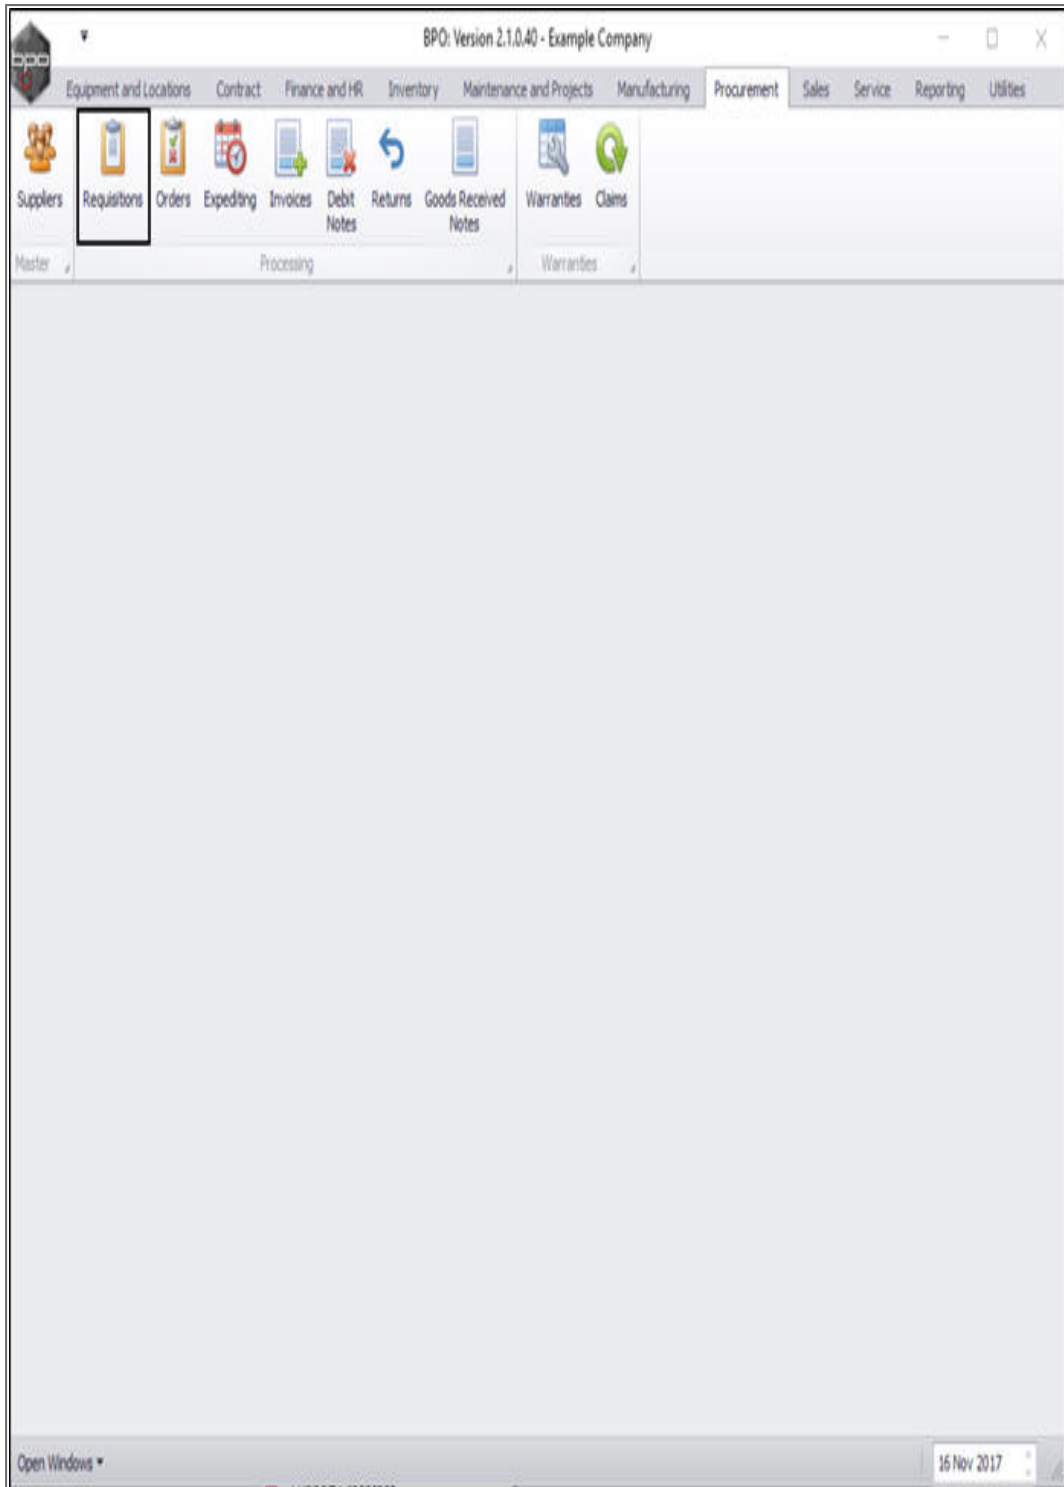

If the supplier has not previously been linked to the part, then a supplier will need to be added to the **purchase requisition**.

At least **one** supplier needs to be linked to each requisition item.

You can link **more than one** supplier to a part, with the main supplier as the default. Ensure that **Selected Supplier** is set to 'Yes' for the supplier you wish to set up as your default supplier.

Before purchasing from a supplier with a currency outside South Africa, ensure that you check the **Exchange Rates** have been set up correctly.
